

Material Sale Information Bulletin
ADL 233180
Milepost 88, Seward Highway

The Department of Natural Resources, Division of Mining, Land and Water (DMLW), Southcentral Regional Office is considering issuance of a Material Sale Contract (ADL 233180) to Granite Construction Company to extract material (rock) from a designated yet undeveloped material site (ADL 233107). The 9-acre material site is located at Milepost 88 of the Seward Highway, east of the Alaska Railroad, within Section 32, Township 10 North, Range 2 East, Seward Meridian. (See Site Map.) The proposed beginning date of the material sale and extraction is Fall 2018, with a proposed end date of December 31, 2020. The material extraction is for the Alaska Department of Transportation and Public Facilities' Seward Highway MP 75-90 project. DMLW is also considering Granite Construction Company's land use permit application (LAS 32497) to authorize a staging/equipment storage area for use with the material extraction, which will have its own separate public notice and comment period.

This Bulletin is to inform the public of the proposed ADL 233180 material sale, and provide an opportunity to submit information in the form of written comments that may assist in developing specific extraction operations and/or reclamation requirements, or identify any land use issues, prior to issuance of the material sale contract.

**DEADLINE TO SUBMIT WRITTEN COMMENTS ABOUT THE PROPOSED
MATERIAL SALE IS ON OR BEFORE 5:00 P.M. AUGUST 22, 2018.**

To submit written comments, or for questions about this proposed activity, please contact:
