APPLICANT ENVIRONMENTAL RISK QUESTIONNAIRE

The purpose of this questionnaire is to help clarify the types of activities you propose to undertake. The questions are meant to help identify the level of environmental risk that may be associated with the proposed activity. The Division of Mining, Land and Water's evaluation of environmental risk for the proposed activity does not imply that the parcel or the proposed activity is an environmental risk from the presence or use of hazardous substances.

Through this analysis, you may become aware of environmental risks that you did not know about. If so, you may want to consult with an environmental engineer or an attorney.

Describe the proposed activity:

Use rock to stabilize the mendenhall river bank.
An excavator will place the rock from the property, not
the river bed.

In the course of your proposed activity will you generate, use, store, transport, dispose of, or otherwise come in contact with toxic and/or hazardous materials, and/or hydrocarbons? Yes ☐ No ☒

If yes, please list the substances and the associated quantities. Use a separate sheet of paper, if necessary.

If the proposed activities involve any storage tanks, either above or below ground, address the following questions for each tank. Please use a separate sheet of paper, if necessary, and, where appropriate, include maps or plats:

a. Where will the tank be located? _____

b. What will be stored in the tank? _____

c. What will be the tank's size in gallons? _____

d. What will the tank be used for? (Commercial or residential purposes?) _____

e. Will the tank be tested for leaks? _____

f. Will the tank be equipped with leak detection devices? Yes ☐ No ☐. If yes, describe: _____

Do you know or have any reason to suspect that the site may have been previously contaminated? Yes ☐ No ☒

If yes, please explain: _____

I certify that due diligence has been exercised and proper inquiries made in completing this questionnaire, and that the foregoing is true and correct to the best of my knowledge.
