- Provide answers to questions received.

Question #1

Confirm how the State of Alaska wanted us to list the cost and weight for CW (catch weighted items). These are items that are sold by the pound and not the case. In Column H the shipping weight would be 1.

In the past if it was such an item we would type in YES in column J and list in the price per pound in the Unit Invoice Cost. We would then list the Unit Management Fee. In the Unit Freight Cost we would also list the freight cost by the pound.

I just want to confirm this is what you would want. I have listed an example below.

Delivery Location:
Estimated Quantities
Unit Invoice Cost
Unit Mgt Fee
Unit Freight Cost
Composite Unit Price
Unit Evaluated Price

Item 8 / Flank Steak
Shipping weight – 1
Unit Invoice Cost \$4.99 lb.
Unit Management Fee \$.25 lb.
Unit Freight Cost = \$.30 lb.
Composite Unit Cost = \$5.54 lb.

Answer #1

The above listing example is acceptable for CW (catch weighted items).
