Re: **Amendment #2**

Request for Proposals, RFP #2015-2000-2477

Medical Laboratory Testing Services, Statewide

Dear Vendor:

This amendment is in response to a question submitted with regard to determining the estimated costs that will be imposed upon the successful medical lab testing contractor by the DOC's electronic health records contractor (MedUnison) for the development and implementation of required lab interfaces.

DOC Reply:

For lab vendors that do not currently have either or both HL7 interfaces certified with MedUnison's DocSynergy EHR, there will need to be a mutually agreeable plan and price established. The cost will be impacted by the extent and scope of the certification process that the lab vendor may impose as well. The estimated costs for a typical HL7 Lab Results interface certification is \$10,000 and the estimated costs for a typical HL7 Lab Orders interface certification is \$15,000.

END OF AMENDMENT #2

Sincerely,

Mary Lockwood
