ORDER ADOPTING CHANGES TO REGULATIONS OF
THE ALASKA DEPARTMENT OF FISH AND GAME

The Alaska Department of Fish and Game adopted regulations dealing with permits and fees for access to the McNeil River State Game Sanctuary that the commissioner of the Alaska Department of Fish and Game adopts under the authority of AS 16.05.020, and AS 16.05.050 and after compliance with the Administrative Procedure Act (AS 44.62), specifically including notice under AS 44.62.190 and 44.62.200 and opportunity for public comment under AS 44.62.210.

This action is not expected to require an increased appropriation.

Although no public comments were received, the commissioner of the Alaska Department of Fish and Game paid special attention to the cost to private persons of the regulatory action being taken.

The regulations adopted in this order take effect on the 30th day after they have been filed by the lieutenant governor as provided in AS 44.62.180.

**State Parks Seeks Private Operator For Eagle River Campground**

**Publish Date:** 01/11/2000  
**Archive Date:** 02/04/2000  
**Location:** Statewide

**Body of Notice:**

Alaska State Parks is looking for a private party to take over the operation of Eagle River Campground in Chugach State Park. According to Chugach State Park superintendent Al Meiners "We hope that a private entity can assume management of the campground, freeing staff and funds to take
care of other park operation and maintenance needs." The campground was rebuilt five years ago and is in excellent condition.

According to Meiners, fourteen parties have expressed an interest in submitting a proposal. A meeting with potential bidders was held in the campground last summer. The campground has generated from $25,000 to $28,000 in revenues each summer. Revenues are expected to be greater next summer when the non-resident annual camping pass is no longer available. Non-resident camping pass users make up about 25% of the campground's nightly use.

If a private party is awarded the rights to operate the campground, they will collect fees and be responsible to daily operation and maintenance of the facility. The private operator will be required to honor the Alaska resident annual camping and daily parking passes.

A copy of the Request for Proposals (RFP) is available by calling (907) 345-5014.

Dnr Easement Regulations Comment Period Extended

Publish Date: 01/07/2000  Archive Date: 01/22/2000  Location: Statewide

Body of Notice:
DNR EASEMENT REGULATIONS COMMENT DATE EXTENDED --
The public review period was extended until 5:00 p.m. on Friday, January 21, 2000.

WHAT THESE REGS DO:

On November 22, 1999, DMLW distributed proposed changes in regulations dealing with public easements. The existing chapter of regulations dealing with RS 2477 rights-of-way, would be expanded to cover all public easements managed by the department, including RS 2477 rights-of-way.

Changes:
* Standards for easement widths
* Size guidelines for stream or lakes to qualify as Public or navigable
* A chart on section-line easement widths for ease of determining what width was applicable at different periods over the last century
* Eliminates RS2477 easement "certifications"
* Establishes guidelines for identifying and notifying the public about qualifying RS 2477s and provides for appeals of DNR decisions about RS 2477s
* Standards for providing alternate access easements or vacating easements (any state-owned easement)
* Managing easements -- sets standards for when a permit is necessary (such as constructing on an easement)
* Provides general use conditions of easements
* Combines all the easement regs into one chapter
Kenai Area Plan Adopted

Body of Notice:
Department of Natural Resources             Release Date: January 11, 2000

Subject: Commissioner of the Department of Natural Resources Adopts the Kenai Area Plan

On January 7, 2000 the Commissioner of the Department of Natural Resources (DNR) adopted the Kenai Area Plan. The plan designates land uses and sets management intent and guidelines for approximately 5.3 million acres of state lands in the Kenai Peninsula Borough. On this same date he also signed a Mineral Closing Order 738, Leasehold Location Order 21, and Classification Order SC-99-002 that applies to the planning area.

The plan classifies and reclassifies state-owned uplands, tidelands, shorelands, and submerged lands within the Kenai Planning Area. The plan also includes areawide guidelines and management intent for state lands. Mineral Closing Order 738 applies to 42 acres of state shorelands (streambeds) on the lower Russian River in accordance with AS 38.05.185(a). Under Leasehold Location Order 21, the Department will restrict new mining locations on the beds and within 200 feet of six river systems (approximately 8,700 acres) to leasehold locations under AS 38.05.205. Additional stipulations on mining will apply to these leasehold location areas. The six rivers are: Kasilof River, Ninilchik River, Stariski Creek, Deep Creek, Anchor River, and upper Russian River.

Also adopted are four new Special Use Land designations under 11 AAC 96.010(b) for the state-owned tidelands and submerged lands in Resurrection Bay and along the outer coast of the Kenai Peninsula, the tidelands and submerged lands adjacent to Lake Clark National Park and Preserve, and on state-owned uplands along the Exit Glacier Road.

Where the Kenai Area Plan boundaries overlap with existing DNR area and management plans in the planning area (Susitna Area Plan, Bristol Bay Area Plan, Prince William Sound Area Plan, Deep Creek Area Management Plan, and the Nuka Island and Vicinity Management Plan), these plans are amended under 11 AAC 55.030 and superseded by the Kenai Area Plan.

The Kenai Area Plan incorporates the Caribou Hills Management Plan and makes minor changes to the plan intent and boundary under 11 AAC 55.030. This action also makes minor changes to the Caribou Hills Special Use Lands designated under 11 AAC 96.010(b). Policies and guidelines from existing DNR Site-Specific Plans are incorporated into the Kenai Area Plan with some minor changes to intent and guidelines.

The materials relating to these actions are available for public review at
the DNR Public Information Center located at: 550 W. 7th Avenue, Suite 1260, Anchorage Alaska.

The signing of the plan and the other actions listed above constitutes the final administrative order and decision of the department for purposes of an appeal to Superior Court. A person adversely affected by this final order and decision may (1) appeal to Superior Court within 30 days in accordance with the rules of the court, and to the extent permitted by applicable law, or (2) first request reconsideration of this decision, in accordance with AS 44.62.540 and 11 AAC 02.020, to John Shively, Commissioner, Department of Natural Resources, 550 W. 7th Avenue, Suite 1400, Anchorage, Alaska 99501-3561. Include the following appeal code number: C0011100KAP. Any such request for reconsideration must be received at that address, or received by being faxed to 1-907-269-8918, within 15 calendar days after the date of “delivery” of this decision, as defined by 11 AAC 02.040(c) and (d). Failure of the commissioner to act on a request for reconsideration within 30 days after delivery of this decision is a denial of reconsideration and is also a final administrative order and decision for purposes of an appeal to Superior Court. It may then be appealed to Superior Court within a further 30 days in accordance with the rules of the court, and to the extent permitted by applicable law. If no request for reconsideration is filed before the end of the period specified, this decision then goes into effect.

**Surface Coal Mining Permit Renewal**

**Publish Date:** 01/07/2000  
**Archive Date:** 02/06/2000  
**Location:** Other

**Body of Notice:**
Usibelli Coal Mine Inc. (UCM), P.O. Box 1000, Healy, AK 99743 has filed for a renewal to their permit to conduct surface coal mining activities at their Gold Run Pass Mine (permit numbers S-0602A and 02-83-796).

The Gold Run Pass Mine permit consists of a 519 acre mine site, and is located approximately twelve miles northwest of Healy, Alaska. The proposed mining activities will be within: Township 11 South, Range 6 West (Fairbanks Meridian), Sections 34-35.
The application for renewal is currently being evaluated to determine if it still meets the requirements of the Alaska Surface Coal Mining Program (AS 27.21 and 11 AAC 90). The original permit was issued on September 22, 1994, and authorized an operation that has produced approximately 500,000 tons of coal annually.

Copies of the existing permit are available for review at the Alaska Department of Natural Resources, Division of Mining, Land and Water, 3601 C Street, Suite 800, Anchorage, AK 99503, and at the Department's Fairbanks office, 3700 Airport Way, Fairbanks, AK 99709. Comments regarding this revision should be sent to Bruce Buzby at the Anchorage address listed above. The deadline for comments is 4:30 p.m., February 6, 2000.

For additional information, please contact Bruce Buzby at (907) 269-8650 or e-mail at bruceb@dnr.state.ak.us.

AGENDA
January 28, 2000, 8:30 a.m.
Executive Director Recruitment

The public is invited to attend the Board meeting; however, the agenda does not provide an opportunity for public comment and participation.
The Department of Revenue (DOR), Permanent Fund Dividend Division (PFDD) is soliciting proposals for professional consulting services to conduct an assessment of the PFD application process and eligibility determinations to evaluate the following:

If processing controls as designed, appropriately ensure compliance with key Permanent Fund Dividend eligibility requirements as set out in the statutes and regulations.

If key control procedures are consistently being carried out as designed, and are effectively working to ensure that ineligible PFD applicants are being identified.

After performing the assessment, the contractor will develop a procedure to test the application processing system to determine if the controls are working as designed on a consistent basis.

The focus of the assessment will be to provide assurance that the computer edits and the Review unit consistently identify individuals ineligible for receiving PFD’s based on the information submitted on the face of the application.

Specifically, the contractor will review the main system, in addition to in-process technical enhancements. The contractor will determine if the existing system of computer edits allow proper eligibility determinations and whether the addition of new technology will dictate that new computer edits be created. The contractor must be familiar with the current e-filing security controls and recommend appropriate security measures for PFD’s new electronic environment. The contractor will determine if the PFD system satisfies the overall goal to pay only eligible residents and to be able to identify those who don’t qualify.

The Contractor must perform an in depth assessment of the entire PFD Program.

The Contractor will produce a written report summarizing the results of the review and analysis of the PFD Program, and recommendations for improvements, or a statement to the effect that the system and controls accomplish the overall goal of the program and that no additional security measures are recommended.
An interested respondent can obtain a Requests for Proposals RFP 2000-0400-1596 as of January 12, 2000 by contacting:

Permanent Fund Dividend Division

Juneau, Alaska 99801
Attention: Doris Saviers, Contract Procurement Officer
Phone: 907-465-2324  Fax: 907-465-2096

The proposal must be received no later than 4:30 PM, Alaska prevailing time on February 7, 2000. Fax proposals are acceptable but not encouraged. Oral proposals are not acceptable.

This is a limited solicitation. Proposers interested in submitting a proposal shall acknowledge receipt of this Request for Proposals (RFP) and advise the Procurement Officer by January 20, 2000 of their intent to submit a proposal in response to this RFP.

Proposers with a disability may receive accommodation regarding the means of communicating this RFP or participating in the procurement process. Some provisions of the concession offering are listed below. Please read the complete offering, including all forms and exhibits, for details. The Sample Concession Agreement and attached exhibits to this RFP are fully incorporated as part of this offering and control in the event of a conflict between this notice and the Sample Concession Agreement.

A. CONCESSION TERM: Five years that begins August 1, 2000, and ends July 31, 2005.

B. RIGHTS GRANTED: The exclusive right to sell and deliver duty-free merchandise at the Airport and the exclusive right to sell general merchandise in the North Terminal.

C. PREMISES: Approximately 18,925 square feet of North Terminal floor space that includes approximately 12,545 square feet of retail space; approximately 4,030 square feet of storage space; and approximately 2,350 square feet of office space.

D. MINIMUM ANNUAL GUARANTEE: The minimum acceptable annual guarantee is $1,500,000.

E. CONCESSION FEE: As described in the Sample Concession Agreement, the successful proposer will pay to the Airport each year the greater of the annual guarantee offered OR the following percent of total gross sales during that agreement year for duty-free merchandise, general merchandise, and gains earned in the exchange of foreign currency:
- 12 percent up to $4.0 million
- 14 percent between $4.0 million and $6.0 million
- 16 percent between $6.0 million and $12.0 million
- 17 percent between $12.0 million and $18.0 million
- 18 percent between $18.0 million and $24.0 million
- 19 percent of the total over $24.0 million

PLUS

- 13 percent of total gross sales on magazines, books, and newspaper which sales are excluded from the general merchandise category as long as a scheduled domestic air carrier, and not charter, operates from the North Terminal. The gross sales on magazines, books, and newspaper will be included in the concession fee structure listed above if no domestic air carriers are operating from the North Terminal.

F. PROPOSER QUALIFICATIONS: The Airport considers it very important that the successful proposer have substantial airport retail duty-free merchandise and airport retail general merchandise sales experience. The Airport prefers, but does not require as a specific minimum qualification, that the successful proposer demonstrate at least three consecutive years of experience since January 1, 1996, with at least $1.0 million in airport retail duty-free gross sales and $500,000 in airport retail general merchandise gross sales for each of those three years.

G. PROPOSAL DEPOSIT: A proposer must submit a $100,000 deposit with its proposal in the form of a money order, certified check, cashier's check, or other irrevocable instrument drawn on a financial institution located in the United States of America payable to the State of Alaska.

H. DISADVANTAGED BUSINESS ENTERPRISE (DBE) PARTICIPATION: The minimum DBE participation goal for this agreement is 10 percent of total gross sales. Due to the lengthy process required to certify a DBE, proposers are encouraged to begin taking steps to insure DBE participation as soon as possible.

I. AGREEMENT AWARD: If there is an award, the Airport will award the agreement to the best responsive proposal, submitted by a responsible proposer, selected by the Airport.

II. PROPOSAL EVALUATION

The Airport will evaluate and score each responsive proposal, and select the best responsible proposal based on the criteria and process described in the RFP.

III. PRE-PROPOSAL CONFERENCE

The Airport will conduct a pre-proposal conference at 9 a.m., local time, Wednesday, February 16, 2000, in the McKinley Room, Room Number NC312, Third Floor, North Terminal, Anchorage International Airport. The Airport REQUIRES that all potential proposers attend the pre-proposal conference. The Airport will reject a proposal if no representative of that proposer attended the pre-proposal conference.

Airport personnel will conduct the conference, provide a general overview of the concession offering, listen to suggestions and comments, and provide a tour of the North Terminal premises offered. The Airport requests that proposers submit written comments that relate to this offering to the Airport Leasing Office by Tuesday, February 8, 2000, so that staff may review them before the pre-proposal conference.

Any person who desires a tour of the North Terminal premises offered under this solicitation must bring to the pre-proposal conference either a valid Airport identification badge with U.S. Customs clearance or any other valid form of picture identification such as a driver's license, passport, or other identification acceptable to U.S. Customs.
The Airport will consider any suggestion, comment, or request for additional information concerning the proposal documents presented at the pre-proposal conference or submitted in writing to John T. Barsalou, Airport Leasing Office, at the address previously listed, by no later than 4 p.m., local time, Tuesday, February 22, 2000. The Airport will not consider comments submitted after 4 p.m., local time, Tuesday, February 22, 2000. The Leasing Office facsimile number is (907) 266-2458

IV. Request for Comments

The incumbent concessionaire asked that in this offering the Airport consider an alternative to the disposition of improvements provision that governs the current contract. The provision in the current contract is similar to Article XXXII of Sample Concession Agreement ADA-31002 contained in the RFP. The incumbent suggests that the Airport modify the provision to require a subsequent successful competitor to purchase from the then-incumbent concessionaire all leasehold improvements, fixtures, assets, and inventory at fair market value. The Airport specifically requests that potential proposers comment on the incumbent's alternative provision at, or prior to, the pre-proposal conference. The Airport requests comments that address the potential effects of such a provision on a subsequent offering as well as the impacts on a transition at the end of the proposed agreement. Specifically, please provide comments the following:

- investment and service by the concessionaire during the proposed agreement.
- revenue to the Airport under the proposed agreement.
- ease and cost of transition at the conclusion of the proposed agreement with a subsequent concessionaire.
- cost to the Airport associated with transition at the conclusion of the proposed agreement
- effect of future competition among proposers at the conclusion of the proposed agreement.
- the effects on future Airport revenues during subsequent agreement periods.

V. COMPETITIVE INTEGRITY

The Airport seeks to maintain a neutral competitive environment for all potential proposers to protect the integrity of the proposal process. Chief of Leasing & Property Management John T. Barsalou is the only authorized State of Alaska Executive Branch liaison with whom a potential proposer, or anyone on its behalf, may have contact concerning this solicitation from the release date of this RFP until the Airport awards the agreement. Proposers must submit all comments, suggestions, and requests for information to Mr. Barsalou. Mr. Barsalou's mailing address is Airport Leasing, P.O. Box 196960, Anchorage AK 99519-6960. The physical address is 4600 Postmark Drive, Anchorage AK 99502. His telephone number is (907) 266-2667 and facsimile number (907) 266-2458.

After the Wednesday, February 16, 2000, pre-proposal conference, each potential proposer, or anyone on its behalf, that wants to submit any comment, suggestion, or request for information to Mr. Barsalou must do so in writing only. The Airport will not consider comments received after 4 p.m., local time, Tuesday, February 22, 2000.

Any communication concerning the content of this solicitation by a potential or actual proposer, or anyone on its behalf, with anyone other than the authorized State of Alaska Executive Branch liaison John T. Barsalou will result in the rejection of that proposer's proposal unless, in the reasonable judgment of the liaison, the communication could not reasonably be believed to have given the proposer a competitive advantage or have impaired the neutral competitive environment of this solicitation. The pre-proposal conference is the only other contact contemplated by this solicitation between State of Alaska Executive Branch officials and potential proposers.
VI. GENERAL INFORMATION

This concession offering does not promise or imply that the successful proposer will make a profit.

The Airport may reject any or all proposals and waive any minor defect, unless otherwise specified in these documents, if the Airport determines that the rejection or waiver is in the Airport's best interest. The Airport may advertise for new proposals or award the concession privilege in any manner it believes is in its best interest if the Airport rejects any or all proposals. The Airport is not obligated to enter into an agreement with any proposer. The Airport is not responsible for any cost associated with the preparation or submission of proposals.

Request For Proposal/ Fia Runway 1R/19L Extension & Fia Float Pond
Body of Notice:

Request for Proposal (RFP) / FIA Runway 1R/19L Extension & FIA Float Pond Expansion

The Department intends to enter into a negotiated agreement to obtain all required professional engineering and architectural services for the design of two major civil projects at the Fairbanks Intl Airport (FIA). The runway extension project will include extending Runway 1R/19L to the south for a total length of 6,500 feet and widening to 100 feet; runway and taxiway lighting and signage improvements; regulator building improvements, taxiway and aircraft run-up area modifications; new gravel/ski and associated gravel tiedown area development. The float pond expansion project will provide additional floatplane tiedown spaces by connecting the existing float pond to the open water material source located to the northeast of existing pond. Work for this project will include reshaping the material source shoreline; develop vehicle parking areas, aircraft tiedown, taxilanes and vehicle access around float pond area; realignment of Access Road "A", which may include the construction of a bridge crossing the new channel connecting the old and new float pond areas. Bridge design would be completed in-house. Design work shall include but not be limited to field surveys, hydrological evaluations, environmental document development support, geotech analysis, embankment and electrical design. Final products will include bid-ready construction plans, specifications, and estimates (PS&E).

The estimated cost of the proposed consulting agreement is between $250,000 and $500,000.

The Request for Proposal (RFP) package will be available January 6, 2000, and may be obtained in person from the Contracts Engineer, Department of Transportation & Public Facilities, Engineering Services Building, Room 3, 2301 Peger Road, Fairbanks, Alaska. Persons residing outside the City of Fairbanks may obtain an RFP package through the mail by telephoning (907) 451-2247; TDD (907) 451-2363 (for Hearing-Impaired, requires special equipment). There is no charge for the RFP package.

Submittals must be received at the address indicated on the RFP no later than 4:00 PM, January 31, 2000.

Sitka-Airport Runway Safety Area Improvements

Body of Notice:

Project Number 72038, SITKA-AIRPORT RUNWAY SAFETY AREA IMPROVEMENTS

NOTICE OF ENVIRONMENTAL ASSESSMENT AND IDENTIFICATION AND CONSIDERATION OF HISTORIC PROPERTIES

The Alaska Department of Transportation and Public Facilities (ADOT&PF) is developing plans to remove a small hill that penetrates the Sitka Airport safety area near the threshold of Runway 29. The penetration is an encroachment into Federal Aviation Administration (FAA) Part 77 airspace. The hill contains an abandoned ammunition bunker from World War II in which deceased Mt. Edgecumbe
Hospital patients were interred between 1947 and 1963, first by the Bureau of Indian Affairs, then by the Indian Health Services (IHS). It contains the remains of 113 Alaskan Natives and non-Natives. The Sitka Tribe of Alaska, under contract to ADOT&PF, is arranging the relocation of human remains, in accordance with the wishes of lineal descendents or next of kin.

Upon removal of human remains from the bunker, the hill would be removed and resulting material would be used to fill in nearby low areas.

The U.S. Navy constructed the bunker in 1942 as part of the Sitka Naval Operating Base, which has since been designated a National Historic Landmark. ADOT&PF, on behalf of IHS and FAA, is investigating the historical significance of the bunker as a mausoleum and as a contributing element to the Landmark. If the bunker is determined to be a contributing element of the Landmark, or if it is eligible for the National Register of Historic Places because of its use as a mausoleum, adverse affects resulting from demolition of the bunker will be resolved in consultation with the State Historic Preservation Officer and the Advisory Council on Historic Preservation.

Two alternatives are being considered for this project:
- Alternative 1. Proposed action. The human remains in the bunker would be relocated and the hill penetrating Part 77 airspace would be removed.
- Alternative 2. Do nothing. This alternative would not remove the airspace penetration, nor would human remains interred in the bunker be relocated.

ADOT&PF is currently evaluating the social, economic and environmental impacts of this project. In accordance with the regulations of the National Environmental Policy Act and Section 106 of the National Historic Preservation Act, your comments on the project are requested, including your views on the historical significance of the bunker and its potential eligibility for the National Register. Please provide comments to the following address by February 7, 2000.
