Alyeska Pipeline Air Quality Permit

Publish Date: 02/09/2000

Archive Date: 03/10/2000

**Location: Anchorage, Barrow,
Northern Region, Statewide**

Body of Notice:

The Alaska Department of Environmental Conservation (ADEC) proposes to issue Air Quality Control Construction Permit No. 0072-AC002 to Alyeska Pipeline Servicing Company (APSC) Pump Station 6

(PS-6). ADEC issues this preliminary decision under the authority of AS 46.14 and 18 AAC 50.

Applicant: Alyeska Pipeline Servicing Company, Pump Station 6
1835 South Bragaw, Anchorage, AK, 99512

Location: The plant is located near the Yukon River Bridge, approximately 300 miles south of Prudhoe Bay.

UTM Coordinates: Sections 19 and 20, T12N, R10W, Fairbanks Meridian.

Activity: The applicant proposes to replace two 475-bhp Detroit Diesel diesel-fired engines with two 619-bhp Detroit Diesel diesel-fired engines for power generation. The applicant has requested operational restrictions on existing equipment to offset emission increases. The diesel-fired engines will only be operated when no Avon Gas Generator is operating.

Emissions: Based on ADEC review, the air contaminant emissions resulting from the modification, as restricted, will not exceed the actual emissions from PS-6's existing Avon gas generators. The new engines have the potential to emit of 77 TPY NOX, 32 TPY CO, 9 TPY SO₂, 1.4 TPY PM₁₀, and 0.3 TPY VOC. Emissions from the Avon gas generators and new engines are limited to 487 TPY NOX, 253 TPY CO, 243 TPY SO₂, 65 TPY PM₁₀, and 18 TPY VOC.

Department Preliminary Review: Based on review of APSC's Construction Permit Application, ADEC is issuing a preliminary permit decision to issue Construction Permit No. 0072-AC002 and authorize the project.

Based on pre-construction review by ADEC, the permitted air contaminant emissions resulting from the project:

1. Will comply with State Emission Standards applicable to this project; and
2. Will comply with State Ambient Air Quality Standards.

Additional Information: Copies of APSC's application, ADEC's preliminary Construction Permit decision, and Preliminary Technical Analysis Report will be available for public review at the following offices by February 9, 2000: ADEC Juneau Office, 410 Willoughby Avenue, 2nd floor, Juneau, AK 99801-1795; ADEC Anchorage Office, 555 Cordova Street, Anchorage, AK 99501; ADEC Fairbanks Office, 610 University Avenue, Fairbanks, AK 99709. Alyeska Seafoods, Inc. Unalaska Seafood Processing Plant Title V Oper .Permi

Publish Date: 02/09/2000

Archive Date: 03/24/2000

Location: Anchorage, Statewide

Body of Notice:

The Alaska Department of Environmental Conservation (ADEC) proposes to issue a Title V Operating Permit Number 00241TVP01 to the Alyeska Seafoods Corporation for their seafood processing plant located on Unalaska Island, Alaska.

ACMP: The project's activities are also being reviewed for consistency under the Alaska Coastal Management Program (ACMP), 6 AAC 50 and AS 44.19. Comments regarding inconsistency with an affected coastal district's enforceable policy or a State standard set out in 6 AAC 80.040 -6 AAC 10.150 must identify the enforceable policy or standard and explain how the project is inconsistent.

Applicant: Alyeska Seafoods, Inc., P.O. Box 530, Unalaska, Alaska 99685-0530

Location: On Iliuliuk Bay, City of Unalaska, Unalaska Island, Alaska

Activity: The Unalaska Seafood Processing Plant processes pollock, crab, halibut, and cod via cooking, mechanical cleaning, and packaging into surimi, fillets, frozen and salt-cured cod, pollock roe, fish meal, bone meal, and fish oil. In order to provide power and steam necessary for the operation, the plant utilizes six diesel generators, four boilers, and a fish meal plant. The Title V permit proposed to be issued will replace an air quality control operating permit issued in October 1996.

Emissions: After this permit action is taken, the emissions from the facility will consist of 292.48 tons of nitrogen oxides, 21.84 tons of sulfur dioxide, 6.53 tons of particulate matter less than ten microns in size, 40.23 tons of carbon monoxide, and 10.31 tons of volatile organic compounds per year. When this permit is issued, the permitted emissions from the facility will actually decrease slightly due to the replacement of an older boiler with a newer boiler with low NOX burners.

Department Review: Based on a review of the applicant's Title V permit application, ADEC is issuing a preliminary permit decision to issue the Title V Operating Permit No. 00241TVP01.

Alaska Coastal Zone Management Program (ACMP): The facility is located within the Aleutians West Coastal Resource Service Area within the City of Unalaska on Unalaska Island. ADEC is reviewing the proposal as a project subject to consistency review under the Alaska Coastal Management Program (ACMP), under 6 AAC 50. Day one of the fifty-day review is scheduled for February 3, 2000.

Additional Information: Copies of the Alyeska Seafoods application, ADEC's proposed Title V Operating Permit, and the Statement of Basis for that permit will be available for public review at the following locations:

ADEC Air Permit Program, 555 Cordova Street, Anchorage, Alaska 99501-2617

ADEC Air Permit Program, 410 Willoughby Avenue, 2nd floor, Juneau, Alaska 99801

ADEC Air Permit Program, 610 University Avenue, Fairbanks, Alaska 99709

The proposed permit and statement of basis are also available from the ADEC Air Permits Program web

site at:

<http://www.state.ak.us/dec/dawq/aqm/calendar.htm>

Opportunity for Public Participation: Notice is given that any person may present written comments relevant to the proposed Title V Operating Permit. Any person may present written comments regarding the proposal to find the Alyeska Seafoods, Inc., Title V Permit consistent under the Alaska Coastal Management Program as set out under the terms and conditions of the proposed permit. Comments may be directed to ADEC's representative as follows: Don Bodron, Air Permits Program, Alaska Department of Environmental Conservation, 410 Willoughby Avenue, Suite 105, Juneau, Alaska, 99801-1795, facsimile: (907) 465-5129 or electronic mail at dbodron@envircon.state.ak.us

Your project consistency comments addressed directly to ADEC are required to preserve your rights to file a petition under Alaska Statute 46.40.100(b)(1). Written comments will be included in the record if received before 4:30pm on March 24, 2000. Seasonal Vehicle Weight Restrictions

Publish Date: 02/09/2000

Archive Date: 02/18/2000

Location: Statewide

Body of Notice:

This notice is to remind the public and the trucking industry that the seasonal weight/load restrictions may be imposed by the Department on its highway system for all vehicles over 10,000 GVW. These weight restrictions are stated as a percentage of legal allowable weight and shall be applied to the maximum axle loading of 17 AAC 25.013(e).

These annual restrictions are very dependent on weather and front depth, but usually occur between March and May in this local area. They are utilized to reduce roadway damage caused by heavy vehicles traveling on highways weakened during spring thaw/breakup conditions.

Since these restrictions may reduce the allowable gross vehicle weight by as much as 50%, it would be advisable to those affected to plan to transport loads prior to or following the projected restriction dates. All State routes may be subject to the above restrictions.

The Department of Public Safety will be enforcing these restrictions.

If you have any questions or need additional information please contact Pat Taylor, Wrangell Station Foreman, at (907) 874-3107, Monday-Friday, 8:00 AM to 4:30 PM.
