## AIR QUALITY OPERATING PERMIT

The Alaska Department of Environmental Conservation (ADEC) proposes to issue Air Quality Control

Operating Permit No. 000220TVP01 to the Kodiak Fishmeal Plant in Kodiak Alaska. ADEC issues this draft permit under the authority of AS 46.14 and 18 AAC 50.

Alaska Coastal Zone Management Program (ACMP): A project consistency review was conducted in 1994. As the facility has maintained or reduced emissions since 1994, it is not subject to further project consistency review under the ACMP.

Applicants: Kodiak Fishmeal Company, 915 Gibson Cove Road, Kodiak, AK 99615.

Location: The Kodiak Fishmeal Plant is located at Latitude 57°41' N, Longitude 152°27' W.

Activity: The Kodiak Fishmeal Company submitted a Title V operating permit application for the Kodiak Fishmeal Plant in December of 1997 as required by 18 AAC 50, effective January 18, 1997. The Kodiak Fishmeal Plant is an existing fishmeal processing facility. The facility contains two 27.3 MMBtu/hr boilers, two steam-fired fishmeal dryers with wet scrubbers, two raw material storage bins, a fuel oil tank, a used oil tank, three fish oil tanks, and a cooker. There are no alternative modes of operation that change the air pollution control requirements applicable to the facility.

Emissions: The facility annual potential to emit is 210.03 tpy of regulated air contaminants (18.25 tpy of PM, 134.96 tpy of SO<sub>2</sub>, 36.79 tpy of NO<sub>x</sub>, 10.42 tpy of VOC, and less than 10 tpy of CO, H<sub>2</sub>S and Lead).

Department Preliminary Review: Based on review of the Kodiak Fishmeal Plant Title V Operating Permit Application, ADEC concurs that the facility will comply with emission standards listed in 18 AAC 50.040-090. As proposed, allowable emissions will not cause any violations of the ambient air quality standards and increments. The Department has drafted Permit to Operate No. 000220TVP01 and Statement of Basis for the Kodiak Fishmeal Plant.

Additional Information: Copies of the application, and the draft Operating Permit and Statement of Basis will be available for public review at the following offices:

Proposed Sale of Two Parcels of State Land on Revillagigedo Island and Amendment No.1 to Preliminary Decision  
Proposed Land Sale

The Department of Natural Resources, Division of Mining, Land and Water gives notice of the following actions:

The Preliminary Decision dated November 11, 1983 for the Vallenar Bay land disposal project has been amended to change the method of disposal from lottery sale to sealed-bid auction and to identify the specific lots to be sold and the lots and tracts to be retained in state ownership. Vallenar Bay Subdivision, Alaska State Land Survey No. 85-86, is located in the Ketchikan area, on the northwest side of Gravina Island in Sections 1, 10 and 11 of Township 75 South, Range 89 East, Copper River Meridian. Seventy lots totaling 125.91 acres are proposed for sale in fall of 2000.

The Division of Mining, Land and Water has made a Preliminary Finding and Decision to sell two parcels of land located on Revillagigedo Island. The parcels proposed for sale by sealed-bid auction in fall 2000 total 4.76 acres and are described as Lot 90, U.S. Survey 2403 located near Herring Cove within Section 36 of Township 75 South, Range 91 East, Copper River Meridian and Tract 17A of the Replat of Lots 6-11, 12A and 13-18, U.S. Survey 2817 on the peninsula between Deep Bay and Clover Passage, within Section 11, Township 73 South, Range 90 East, Copper River Meridian. Notice is also given of the Alaska Coastal Management Program (ACMP) consistency review for the proposed sale of these two parcels of land.

The public is invited to comment on the Amendment to the Preliminary Decision for the Vallenar Bay project, the Preliminary Finding and Decision for the proposal to sell two parcels on Revillagigedo Island and that project's consistency with the ACMP. Following the comment deadline, all written responses will be considered before final action is taken on the proposed projects or the ACMP consistency determination. If public comment in response to this notice indicates the need for significant changes in the decisions additional public notice will be given on or about April 20, 2000. **Publish Date: 03/08/2000****Archive Date: 04/09/2000****Location: Statewide****Body of Notice:**Office of the Lieutenant Governor  
99WAGE Initiative Petition Improperly Filed

The initiative petition titled, "An Act to increase Alaska's minimum wage to \$6.50 per hour effective January 1, 2001, \$6.75 per hour effective January 1, 2002 and thereafter, adjusted annually for inflation", was filed on January 10, 2000, in accordance with AS 15.45.140.

AS 15.45.150 requires that "[w]ithin not more than 60 days of the date the petition was filed, the lieutenant governor shall review the petition and shall notify the initiative committee whether the petition was properly filed?".

The Division of Elections completed its review of the above referenced petition. It has been determined that the initiative petition does not contain the required number of valid signatures. Under AS 15.45.140, signatures of qualified voters equal in number to 10 per cent of those who voted in the preceding general election and resident in at least two-thirds of the election districts of the state are required to be obtained. Thus, 22,716 registered voters were required to sign the petition in order for it to be properly filed.

Due to the insufficiency of qualified subscribers, the petition 99WAGE is determined to be improperly filed (AS 15.45.160) and will not appear on the 2000 general election ballot.

Alaska Statute 15.45.240 states that within 30 days of the date on which notice of the determination was given, any person aggrieved by a determination made by the Lieutenant Governor may bring action in the superior court to have the determination reviewed.
