**Health & Social Services: Notices of Proposed Regulations**  
**Various Provisions In 7 Aac 12 Are Amended/New Provisions Are Added To 7 Aac 12**

**Publish Date: 04/25/2000****Archive Date: 05/23/2000****Location: Statewide****Body of Notice:**

Notice is given that the Alaska Department of Health and Social Services, under the authority vested by AS 18.05.030, AS 18.05.040, AS 18.20.060, AS 44.29.020, AS 47.05.010, and AS 47.05.050, proposes to adopt, amend, and repeal regulations in Title 7 of the Alaska Administrative Code relating to the licensing and operation of hospitals as follows:

1. Various provisions in 7 AAC 12 are amended and new provisions are added to 7 AAC 12 to establish a third category of hospital that may be licensed by the department. The new category is tentatively identified as a "critical access hospital." However, the department welcomes suggestions for a different designation. The proposed regulations address, but are not necessarily limited to, the following matters: eligibility for licensing as a rural critical access hospital; the application process for initial licensing and renewal licensing; services provided by a rural critical access hospital; minimum staffing and operating requirements; requirements for credentialing of medical staff and for review of the quality and effectiveness of the diagnosis and treatment furnished by the medical staff; requirements for provision of minimum levels of emergency medical services; requirements relating to the hospital's physical plant; requirements for agreements with general acute care hospitals for transfer of patients under certain circumstances; and necessary definitions of terms used in the regulations.
2. Certain provisions of 7 AAC 12 that apply to either or both general acute care hospitals or rural primary care hospitals are also amended to implement changes that the department believes are appropriate in conjunction with establishing the third category of hospital described above. These changes include, but are not necessarily limited to, the following: deleting the specific reference to general acute care hospitals in 7 AAC 12.140(a); adding a reference to rural primary care hospital in 7 AAC 12.600(b) to correct what appears to have been an unintended omission when 7 AAC 12 was amended in 1996 to add rural primary care hospitals as a category of licensed hospital; revising certain of the application procedures for licensing a hospital or renewing the hospital's license set out in 7 AAC 12.610; and establishing minimum level of emergency medical service requirements for all hospitals.
3. 7 AAC 12 is also amended to add provisions that set out the requirements for designation of a hospital by the department as a "critical access hospital" under the federal Medicare Rural Hospital Flexibility Program established at 42 U.S.C. 1395i-4.

Any person may present written statements or arguments relevant to the proposed action by writing to Shelby Larsen, Administrator, Division of Medical Assistance, Health Facilities Licensing and Certification, Department of Health and Social Services, 4730 Business Park Blvd., Suite 18, Anchorage, Alaska 99503.
