AIDEA in Search of Class "A" Commercial Building

Publish Date: 11/22/99**Archive Date: 12/18/99****Location: Anchorage****Body of Notice:**

The Alaska Industrial Development and Export Authority ("Authority") is interested in purchasing a Class "A" commercial office building. The Authority's criteria for the facility includes, but is not limited to, the following:

- * building must be located in the Anchorage area
- * single structure location
- * gross square footage must be 25,000 SF to 35,000 SF
- * purchase agreement must be complete by January 15, 2000 or soon thereafter
- * building must be available as soon as possible but in no event later than March 31, 2000

If you have title and are interested in selling such a Class "A" commercial office building to the Authority, or represent a party that does, please respond to this advertisement in writing, in a Letter of Seller's Interest, addressed to the Alaska Industrial Development and Export Authority at 480 W. Tudor, Anchorage, AK 99503. The Letter of Seller's Interest should include a description of the building, location, gross and useable square footage, photos and floor plans (if available), number of parking spaces, proposed sales price and other pertinent information. All letters of interest must be received by the close of business December 17, 1999. All respondents will be notified in writing of the declination of their Letter of Interest or that the Authority will further consider the property.

This advertisement is not an offer to purchase a building, nor is it a solicitation for a real estate broker or agent to represent the Authority in its search for a Class "A" commercial office building. The Authority reserves the right to reject any and all letters of interest. The Authority reserves the right to require further clarification or supplemental written submissions. The Authority further reserves the right to search for and purchase a Class "A" commercial office building in a manner separate and independent from the solicitation contained in this advertisement.

The Authority currently owns and occupies a commercial office building located in Anchorage of approximately 11,412 SF. An exchange transaction involving this building may be considered as part of this transaction.

The State of Alaska complies with Title II of the Americans with Disabilities Act of 1990. Individuals with disabilities who may need auxiliary aids, services, and/or special modifications to submit a proposal should contact Ms. Fran Podmolik, Department ADA Coordinator, at (800) 770-4833 and TDD (907) 465-5437, no later than December 16, 1999 to make any necessary arrangements.

Air Quality Construction Permit (Arco)

Publish Date: 11/22/99

Archive Date: 12/22/99

Location: Statewide

Body of Notice:
PUBLIC NOTICE
STATE OF ALASKA
DEPARTMENT OF ENVIRONMENTAL CONSERVATION
ARCO ALASKA INCORPORATED
AIR QUALITY CONSTRUCTION PERMIT

The Alaska Department of Environmental Conservation (ADEC) proposes to issue Air Quality Control Construction Permits No. 9973-AC014, 9973-AC015, and 9973-AC016 to ARCO Alaska, Inc., for exploratory drilling and well testing on the North Slope of Alaska during the 1999-2000 winter exploration drilling season.

Applicant: ARCO Alaska, Inc.

Locations: Moose's Tooth A and C, Rendezvous A and B, Lookout, Clover A and B, and ARCO Spark 1 in the National Petroleum Reserve-Arctic (NPRA), Nanuk in the Colville River Unit about three miles north of Nuiqsut, and Cairn, Northwest Eileen, and Meltwater North in or adjacent to the Kuparuk River Unit on the North Slope of Alaska.

The Department proposes to issue permit 9973-AC016 for the Northwest Eileen prospect area, 9973-AC015 for Nanuk, and 9973-AC014 for all other locations. We propose separate permits for Nanuk and Northwest Eileen because the comment periods for coastal zone consistency review for those prospects are on much later schedules. We will issue each permit only after activities at all locations listed on the permit are determined to be consistent with the Coastal Zone Management Program. All permit conditions other than the location identification will be identical in the each.

DGC Project Numbers: Cairn & Meltwater North: AK 9910-05-PA

Prospects in the NPRA: AK 9910-02-PA
Northwest Eileen: AK 9910-04-PA
Nanuk: Coastal Zone Review not started yet

Emissions: This permit will allow emissions of regulated air contaminants. At each drilling location the maximum expected emissions will be on the order of 18 tons per year of particulate matter, 30 tons per year of sulfur dioxide, 98 tons per year of carbon monoxide, 19 tons per year of volatile organic compounds, and 175 tons per year of nitrogen oxides.

Department Preliminary Review: Based on preliminary review:

- the proposed activities will comply with emission standards and with ambient air quality standards; and
- the applicant's proposed limit on facility operations is adequate to avoid review of the project under the Prevention of Significant Deterioration program.

Opportunity for Public Participation: Notice is given that any person may present written statements about the proposed Construction Permit for ARCO Alaska, Inc. The Department will consider all comments received and make any changes the Department finds beneficial or necessary to assure compliance with 18 AAC 50 or State Law. The final decision to issue or deny the permit will be made after the close of the public comment period. Written comments will be included in the record if received before 4:30p.m., December 22, 1999. ADEC complies with Title II of the Americans with Disabilities Act of 1990 and the Rehabilitation Act of 1973. Individuals with disabilities who may need auxiliary aids or services, or special modifications to participate in this public process should contact Ms. Paula Kennedy at (907) 465-5040 (TTY) by 4:30 p.m. December 10, 1999.

Please direct inquiries and written comments about the proposed construction permit to Mr. Bill Walker at 410 Willoughby Avenue, Suite 105, Juneau, Alaska, 99801-1795, (907) 465-5124, or by facsimile at (907) 465-5129.

Additional Information: Copies of ARCO Alaska, Inc.'s application and ADEC's proposed air quality construction permits and technical analysis report are available for public review at the following locations:

ADEC, Air Quality Maintenance, 410 Willoughby Avenue, Juneau, AK 99801-1795;
ADEC, Air Quality Maintenance, 610 University Avenue, Fairbanks, AK 99709-3643;
ADEC, Air Quality Maintenance, 555 Cordova Street, Anchorage, AK 99501.

The proposed permit and technical analysis report are also available at the Department's website at: <http://www.state.ak.us/dec/dawq/aqm/mainair.htm>.

ALASKA COASTAL ZONE MANAGEMENT PROGRAM

This project is proposed in your area and is being reviewed for consistency with the Alaska Coastal Management Program. Your comments, particularly on the proposed project's consistency with the affected local coastal district management program, are requested.

Written Comments: Comment periods for determining consistency with the Coastal Management Program are on differing schedules for different prospect areas. The Department will issue each permit only after all coastal zone review is completed for each location listed in the permit, and the proposed activities are determined to be consistent with the Coastal Management Program.

Body of Notice:

PUBLIC NOTICE

STATE OF ALASKA

DEPARTMENT OF ENVIRONMENTAL CONSERVATION

TESORO ALASKA PETROLEUM COMPANY - KENAI REFINERY

AIR QUALITY CONTROL CONSTRUCTION PERMIT

The Alaska Department of Environmental Conservation (ADEC) is extending the public comment period and scheduling a public hearing regarding the proposed issuance of Air Quality Construction Permit No. 9923-AC010 for the Tesoro Nikiski Refinery to: 1) provide opportunity for a public hearing; 2) to accommodate Tesoro-requested project scope changes; and 3) to provide the public with an opportunity to review revised preliminary documents for the project changes. ADEC will hold a public hearing regarding the proposed permit on January 5, 2000, at the Nikiski Fire Station #1 Meeting Hall, Mile 17.9 Kenai Spur Highway, Nikiski, Alaska, starting at 6:30 p.m. and continuing until 9:30 p.m., unless all testimony is received prior to that time. The public comment period will be extended to January 19, 2000.

ADEC proposes to issue Construction Permit No. 9923-AC010, for Prevention of Significant Deterioration (PSD) major modifications that will increase emissions from the Tesoro Alaska Petroleum Company - Nikiski Refinery (facility), under Alaska Statutes 46.14 and 18 AAC 50.

The Department will release a revised Technical Analysis Report (TAR) and proposed permit for this project to clarify information about project activities. ADEC will release the revised TAR and permit by December 6, 1999.

ACMP: Project activities are being reviewed for consistency under the Alaska Coastal Management Program (ACMP), 6 AAC 50 and AS 44.19. ADEC proposes to find the project consistent subject to terms and conditions of the preliminary permit. Comments regarding inconsistency with an affected coastal district's enforceable policy or a state standard set out in 6 AAC 80.040-6AAC 80.150 must identify the enforceable policy or standard and explain how the project is inconsistent. The Department is extending the consistency review public comment deadline through January 19, 2000, under 6 AAC 50.110(b)(5), in order to accommodate the public hearing.

Applicant: Tesoro Alaska Petroleum Company, 3230 C Street, P.O. Box 19672, Anchorage, AK 99519-6272.

Location: The facility is physically located at Mile 22.5 Kenai Spur Highway, in the Nikiski Neighborhood of Kenai, Alaska.

Activity: The facility is an existing 72,000 barrel per day petroleum refinery. The proposed permit would: 1) authorize the use of refinery gas in additional heaters; 2) increase permitted natural gas hydrogen sulfide content to 0.01% from 0.001%; 3) increase operating hours of a firewater pump; 4) revise benzene, toluene, and xylene emission limits for two air stripper systems; and 5) authorize thermal

oxidation air stripper emission controls in lieu of carbon adsorption controls. Tesoro has withdrawn their request to use alternative fuel in combustion turbines.

Emissions: The primary air contaminant emission sources are the hydrocracker unit, combustion turbines, process heaters, boilers, and the SRU. The annual emissions of regulated air contaminants at the facility will not exceed: 38 tons per year (tpy) of Particulate Matter (PM), 766 tpy of Nitrogen Oxides (NOX), 188 tpy of Sulfur Dioxide (SO₂), and 241 tpy of Carbon Monoxide (CO).

Change in Allowable Emissions: This permit action will result in emission increases of 0.3 tpy PM, 2.6 tpy NOX, 31.3 tpy SO₂, and 0.7 tpy CO. The 31 tpy increase in SO₂ emissions in conjunction with a past increase of 37 tpy results in a 68 tpy increase since the last Prevention of Significant Deterioration (PSD) action. This increase classifies the project as PSD major for SO₂.

ADEC Preliminary Review: Based on review of the Tesoro Construction Permit application, ADEC made the following findings:

1. The project's emissions will be controlled using Best Available Control Technologies;
2. Impacts from the refinery will meet ambient air quality standards and ambient increments to prevent significant deterioration of air quality; and
3. Emissions will not adversely affect air quality-related values.

Therefore, ADEC is issuing a preliminary decision to issue Construction Permit 9923-AC010 and authorize the proposed changes.

Opportunity for Public Participation: Notice is also given that any person interested may present written statements relevant to the proposed Construction Permit or project consistency under ACMP for Tesoro Alaska Petroleum Company's Nikiski Refinery by 4:30 p.m. on January 19, 2000.

Please direct inquiries and written comments relevant to the proposed construction permit to:

Your project consistency comments addressed directly to ADEC are required to preserve your rights to file a petition under Alaska Statute 46.40.100(b)(1). Written comments will be included in the record if received before the revised deadline date of January 19, 2000.

ADEC complies with Title II of the Americans with Disabilities Act of 1990 and the Rehabilitation Act of 1973. Individuals with disabilities who may need auxiliary aids or services, or special modifications to participate in this public forum, should contact Paula Kennedy at (907) 465-5040 (TTY compatible).

Additional Information: Copies of Tesoro's application and ADEC's revised Technical Analysis Report and Draft Permit will be available at the following offices: ADEC?410 Willoughby Avenue, Suite 105, Juneau, AK 99801-1795; ADEC?555 Cordova Street, Anchorage, AK 99501; ADEC?Kenai Public Service Office, 35390 Kalifornsky Beach Road, Soldotna, AK 99669, no later than December 6, 1999.

The preliminary decision documents may be downloaded from the ADEC web site:
<http://www.state.ak.us/dec/dawq/aqm/calendar.htm>. For copies of Tesoro's application and supplements, please contact Rebecca Smith at (907) 465-5100 or rsmith@envircon.state.ak.us.

PUBLIC NOTICE
STATE OF ALASKA
DEPARTMENT OF ENVIRONMENTAL CONSERVATION
AIRLINE SUPPORT, Inc., HACOR INCINERATION FACILITY

The Alaska Department of Environmental Conservation (ADEC) proposes to issue approval of an Air Quality Control Operating Permit to Airline Support, Inc. for operation of the HACOR Incineration facility under Alaska Statute 46.14 and 18 AAC 50.

Applicant: Airline Support, Inc.

Site Location: 3551 Postmark Drive, Anchorage, Alaska 99502.

Activity: The facility is an existing small Solid Waste Incinerator located in the Anchorage International Airport Complex. The incinerator burns Type 3, catering waste generated from food service aboard domestic and international airline flights out of the Anchorage Airport. In November 1997, Airline Support submitted a Title V operating permit application for the HACOR Incinerator Facility as required by 18 AAC50, effective January 18, 1997. The facility has a 13.2 tons/day Consumat dual chamber starved air solid waste incinerator. The facility operates for less than 1000 hours each year.

Emissions: The significant air contaminant emission source is the 13.2 tons/day solid waste incinerator. The maximum potential annual emissions of regulated air contaminants at the facility will not exceed 7.6 tons of Nitrogen Oxides (NOx), 0.7 tons of Carbon Monoxide (CO), 7.2 tons of sulfur-dioxide (SOx), 8.3 tons of PM and 5.2 tons of Hydrogen Chloride (HCl) emissions and trace quantities of heavy metals such as cadmium, mercury, lead and chromium. The actual emission of all regulated and hazardous air contaminants from this facility is less than 1.0 tons/year. The facility is a minor source for all contaminants.

Department Preliminary Review: Based on review of Airline Support's Operating Permit application, ADEC concurs that the HACOR Incinerator will comply with all applicable emission standards and limits listed in 18 AAC 50. The Department has drafted a statement of basis including a preliminary permit decision to issue a Title V operating permit for the HACOR Incineration facility.

Available Information: Copies of Airline Support's Title V permit application, ADEC's draft Operating Permit, and preliminary Statement of Basis is available at the following offices:

ADEC/AQM 610 University Avenue, Fairbanks, AK 99709-3643 (907) 451-2132

Opportunity for Public Participation: Notice is also given that any interested person may present written statements relevant to the proposed Operating Permit for HACOR Incineration facility within 30 days after the first publication date. Any person may request a public hearing and that hearing will be held if the department finds that good cause exists. Please direct written statements or requests relevant to the proposed operating permit to ADEC's representative, Bill MacClarence, ADEC/AQM, 555 Cordova Street, Anchorage, AK 99501-2167. The Alaska Department of Environmental Conservation (ADEC) proposes to issue approval of an Air Quality Control Operating Permit to USA Waste of Alaska, Inc. for operation of the Channel Landfill Incineration facility under Alaska Statute 46.14 and 18 AAC50.

Applicant: USA Waste of Alaska, Inc.
Location: 5600 Tongsgard Court, Juneau, Alaska 99801.

Activity: The facility is an existing Municipal Solid Waste Incinerator serving the community of Juneau. On April 23, 1998 the Channel Corporation sold the Channel Landfill Incineration facility and the Channel Landfill to USA Waste of Alaska, Inc. The department concurrently transferred the Air Quality Control Permit to Operate No. 9411-AA015 to USA Waste of Alaska, Inc. In December 1997, Channel Corporation submitted a Title V operating permit application for the Channel Incinerator Facility as required by 18 AAC50, effective January 18, 1997. The facility has two 36 tons/day dual chambers starved air solid waste incinerators.

Emissions: The significant air contaminant emission source is the two 36 tons/day municipal solid waste incinerators. The permitted annual emissions of regulated air contaminants at the facility will not exceed 43 tons of Nitrogen Oxides (NOx) and 11 tons of Carbon Monoxide (CO), 26 tons of sulfur-dioxide (SOx), 3.6 tons of PM-10 and 72 tons of Hydrogen Chloride (HCl) emissions and trace quantities of heavy metals such as cadmium, mercury, lead and chromium.

Department Preliminary Review: Based on review of USA Waste of Alaska's Operating Permit application, ADEC concurs that the Channel Landfill Incinerators will comply with all applicable emission standards and limits listed in 18 AAC 50. The Department has drafted a statement of basis including a preliminary permit decision to issue a Title V operating permit for the Channel Landfill Incineration facility.

Available Information: Copies of USA Waste of Alaska's Title V permit application, ADEC's draft Operating Permit, and preliminary Statement of Basis is available at the following offices:

ADEC/AQM 610 University Avenue, Fairbanks, AK 99709-3643 (907) 451-2132

ADEC/AQM 410 Willoughby, Suite 105, Juneau, AK 99801-1795 (907) 465-5100

ADEC/AQM 555 Cordova Street, Anchorage, AK 99501 (907) 269-7575

The draft Operating Permit, and preliminary Statement of Basis is available at the AQM website:

<http://www.state.ak.us/dec/dawq/aqm/calendar.htm>

Opportunity for Public Participation: Notice is also given that any interested person may present written statements relevant to the proposed Operating Permit for Channel Landfill Incineration facility by

December 15, 1999. Any person may request a public hearing and that hearing will be held if the department finds that good cause exists. Please direct written statements or requests relevant to the proposed operating permit to ADEC's representative, Bill MacClarence, ADEC/AQM, 555 Cordova Street, Anchorage, AK 99501-2167. If you are a person experiencing a disability whom may need assistance in order to comment on any of the documents, please contact the Air Quality Maintenance Section at (907) 451-2132, or through the text telephone (TTY) at (907) 269-7511.

Meeting On Cruise Ship Waste Management And Disposal

Publish Date: 11/22/99

Archive Date: 11/24/99

Location: Juneau, Statewide

Body of Notice:

The Alaska Department of Environmental Conservation has invited operators of cruise ships in Alaska waters to a working meeting on December 3, 1999.

Although no public testimony will be taken or public comments accepted at this meeting, arrangements are being made to allow interested people to be present. Only invited representatives, however, will be included in the discussion. Written comments may be submitted to the Department for consideration at any time prior to or after the meeting.

The objectives of this meeting are to (1) identify the environmental problems associated with cruise ship waste management in Alaska; (2) discuss solutions to those problems; and (3) discuss what process is needed to solve the identified problems and verify industry performance.

The meeting will focus on the waste management and disposal practices of cruise ships while in State waters, applicable standards, and the identification of actions, procedures and practices that will take the cruise ship industry beyond minimal compliance in the generation, handling, storage, treatment and disposal of all waste streams. The Department is seeking to work proactively with the cruise ship industry to minimize the impacts of cruise ships on Alaska's environment and take non-regulatory measures to reduce, recycle, reuse and minimize vessel discharges.

WHO: Cruise line executive managers and cruise ship agency representatives, DEC, EPA and USCG.

WHAT: Meeting on Cruise Ship Waste Management and Disposal

WHEN: Friday, December 3, 1999, 1:00 p.m. to 5:00 p.m.

WHERE: Centennial Hall, Egan Room, Juneau, AK

WHY: The Department of Environmental Conservation wishes to discuss the efficacy of current waste management and environmental protection practices in the cruise ship industry with industry representatives to determine ways in which the impacts of cruise ships on Alaska's environment can be minimized.

If you have any questions regarding this meeting, please contact Claire Fishwick at cfishwic@envircon.state.ak.us or by telephone at 907-465-5250.

Notice Of Petition To List Cook Inlet Beluga Whale As State Endangered Species

Publish Date: 11/19/99

Archive Date: 02/16/2000

Location: Statewide

Body of Notice:

NOTICE OF PROPOSED CHANGES TO THE REGULATIONS OF THE ALASKA DEPARTMENT OF FISH AND GAME IN RESPONSE TO A PETITION TO LIST THE COOK INLET POPULATION OF BELUGA WHALES AS AN ENDANGERED SPECIES UNDER THE ALASKA ENDANGERED SPECIES ACT

Notice is given that the commissioner of the Alaska Department of Fish and Game (ADF&G), under authority of AS 16.05.020, AS 16.20.190, and the Alaska Administrative Procedure Act (AS 44.62), will consider regulation changes in Title 5 of the Alaska Administrative Code, proposed by a petition from the Alaska Center for the Environment, Alaska Community Action on Toxics, Alaska Wildlife Alliance, Center for Biological Diversity, Center for Marine Conservation, and the National Audubon Society, to amend 5 AAC 93.020 by adding the Cook Inlet population of beluga whales as an endangered species under the Alaska Endangered Species Act (AS 16.20.180 - 16.20.210).

Under AS 16.20.190, a species or subspecies of fish or wildlife is considered endangered when the commissioner of ADF&G determines that its numbers have decreased to such an extent as to indicate that its continued existence is threatened. In making this determination the commissioner will consider:

1. the destruction, drastic modification, or severe curtailment of its habitat;
2. its overutilization for commercial or sporting purposes;

3. the effect on it of disease or predation;
4. other natural or man-made factors affecting its continued existence.

The commissioner is seeking advice and recommendations of interested persons and organizations before determining whether to list the Cook Inlet beluga population as endangered. In addition to the factors set out above, the commissioner will consider whether Cook Inlet beluga whales constitute a species or subspecies within the meaning of AS 16.20.190.

If the Cook Inlet beluga whale is listed as endangered, then the commissioner of ADF&G and the commissioner of the Department of Natural Resources will take appropriate measures on the land under their respective jurisdictions to preserve the natural habitat of the Cook Inlet beluga whale.

The commissioner has determined that ADF&G will solicit written comments regarding the proposed regulation change to seek the advice and recommendations of interested persons and organizations under AS 16.20.190 and AS 44.62. Only written comments (by letter or e-mail) will be considered. Notice is given that any person interested may present these written comments relevant to the proposed action, including the potential cost to private persons of complying with the proposed action, by writing to Alaska Department of Fish and Game, Division of Wildlife Conservation, P.O. Box 25526, Juneau, Alaska 99802-5526, ATTENTION: Wayne Regelin; FAX (907)465-6142; or e-mail at Wayne_Regelin@fishgame.state.ak.us, so that they are received no later than 5:00 p.m., February 15, 2000.

If you are a person with a disability who may need a special accommodation in order to participate in the process on the proposed regulations, please contact Wayne Regelin at (907)465-4190 no later than February 1, 2000 to ensure that any necessary accommodation can be provided.

This action is not expected to require an increased appropriation.

Copies of the petition and regulation changes proposed by the petition may be obtained by writing to Wayne Regelin at the above address.

After the close of the public comment period, the commissioner of ADF&G will either adopt the proposed regulation change, without further notice, or decide to take no action on it. The language of the final regulation may vary from that of the proposed regulations. You should comment during the time allowed if your interests could be affected.

/s/Robert Bosworth, Deputy Commissioner, November 19, 1999

Background information

The beluga whale, *Delphinapterus leucas*, is a small-toothed whale inhabiting arctic and sub-arctic waters. Alaska contains 5 separate stocks of beluga whale, the smallest of which occurs in Cook Inlet.

The National Marine Fisheries Service (NMFS) has the authority to manage beluga whales under provisions of the Marine Mammal Protection Act (MMPA) of 1972. The Alaska Department of Fish and Game has no authority to manage this species.

NMFS has conducted annual surveys of the Cook Inlet beluga whale since 1994. Those aerial surveys indicate a reduction in the population from about 650 in 1994 to about 350 in 1998. Alaska Natives hunt Cook Inlet beluga whales under the MMPA. NMFS estimates the total Cook Inlet subsistence harvest from 1994 to 1997 at a mean annual level of 87 whales, including those struck and lost. This level of removal is not sustainable.

NMFS initiated a status review of the Cook Inlet beluga whale stock with a request for public comment in November of 1999. Additionally, the NMFS received petitions to designate the Cook Inlet beluga whale

as depleted under the MMPA and to list the Cook Inlet beluga whale as endangered under the federal Endangered Species Act. NMFS published a proposed rule designating the Cook Inlet beluga stock as depleted on October, 19, 1999 (64 FR 56298). To date, NMFS has not made a determination on listing Cook Inlet beluga whales as threatened or endangered under the federal ESA and is considering results from 1999 aerial surveys and other factors which may affect such a determination.

Action has been taken to limit the subsistence harvest of Cook Inlet beluga whales. Federal legislation passed in the spring of 1999 prohibits all harvest of the Cook Inlet stock of beluga whales until October 1, 2000, unless a cooperative management plan is agreed to by Alaska Natives and the NMFS. Discussions are under way to develop such a management plan.

Proposed Changes In Dnr Public Easement Regulations

Publish Date: 11/23/99**Archive Date: 01/04/2000****Location: Statewide****Body of Notice:**

NOTICE OF PROPOSED CHANGES IN THE
REGULATIONS OF THE DEPARTMENT OF NATURAL RESOURCES

Notice is given that the Department of Natural Resources, under the authority of AS 38.05.020, proposes to adopt, amend, and repeal regulations in Title 11 of the Alaska Administrative Code, dealing with public easements, to implement AS 19.10.010, AS 19.30.400-420, AS 38.04.058, AS 38.04.200, AS 38.05.127, and AS 40.15.305, including:

In 11 AAC 05.010, a fee for nominating RS 2477 rights-of-way for certification would be deleted.

An existing chapter of regulations, 11 AAC 51, dealing with RS 2477 rights-of-way, would be expanded to cover all public easements managed by the department, including RS 2477 rights-of-way. Other types of easements are currently covered in 11 AAC 53, but those regulations would be amended and renumbered into 11 AAC 51.

Within 11 AAC 51, the existing sec. 010 would be expanded to describe the content and purpose of the proposed public easement regulations. New secs. 015, 025, 035, and 045 would set out width and reservation standards for general-purpose access and utility easements, section-line easements, and easements to and along navigable and public rivers and lakes. A new sec. 055 would set out how the department will research, identify, and request information from the public on historic trails that appear to qualify under RS 2477 before reporting those trails to the legislature under AS 19.30.400, and who will manage such rights-of-way. A new sec. 065 would say how a person may request the department to vacate (erase) or relocate a public right-of-way, and define standards the department will apply to the decision. A new sec. 075 would cover markings or signs on public easements. A new sec. 085 would renumber 11 AAC 53.305, dealing with access to mental health trust land, but without amending it. New sec. 200 would set out how the department will manage public easements, including restricting access in some circumstances, and would require the department to seek public comment before authorizing work that changes the way an easement has traditionally been used. A new sec. 210 sets out rules applicable to the public's use of an easement. New secs. 910-990 provide for appeals of decisions regarding public rights-of-way deal with liability for injury, accident, or damage that happens on a public easement and define terms used in the chapter.

The existing 11 AAC 51.020 - 100, dealing with RS 2477 right-of-way nomination, evaluation, certification, appeals, classification, and management, are proposed to be repealed. Many of these topics would be incorporated into new regulations as proposed above. However, the process of identifying RS 2477 rights-of-way would no longer have any formal nomination or certification steps (see proposed 11 AAC 51.055).

In 11 AAC 53, the entire article dealing with easements (11 AAC 53.300 -

370) would be repealed. As noted above, these rules would be incorporated into the new regulations proposed for 11 AAC 51.

Notice is also given that any interested person may present written comments on the proposed action, including the potential costs to private persons of complying with the proposed action. Written comments must be received no later than Jan. 4, 2000, at the Division of Mining, Land and Water, 3700 Airport Way, Fairbanks, AK 99709-4699.

This action is not expected to require an increased appropriation.

Copies of the proposed regulations may be obtained via the Internet at <http://www.dnr.state.ak.us/land> or by writing to the Commissioner's Office, Department of Natural Resources, 550 W 7th Avenue, Suite 1400, Anchorage, Alaska 99501-3551 or in person from the department's Public Information Center in Anchorage, 550 W 7th Avenue, Suite 1260 from its Public Information Center in Fairbanks, 3700 Airport Way or from the Division of Mining, Land and Water office in Juneau, 400 Willoughby Avenue, Fourth Floor.

After the close of the comment period, the Department of Natural Resources will either adopt these or other proposals dealing with the same subject, without further notice, or decide to take no action on them. The language of the final regulations may vary from that of the proposed regulations. You should comment during the time allowed if your interests could be affected.

Notice of Proposed Tideland Permit
LAS 22497

In accordance with 11 AAC 62.720 -.780, the Division of Land proposes to issue a tideland permit to George Mann in the vicinity of Kake. The proposed action will authorize the use of state owned tide and submerged land for the moorage of a floathouse. The proposed activity would occur in Seclusion Harbor adjacent to Kuiu Island, within Section 28, T. 61 S., R. 74 E., Copper River Meridian and would require the use of approximately .7 acres of tide and submerged land. The term of the permit would be for up to 5 years.

The public is invited to comment on the proposed action to issue this tideland permit. Information on the application and standard permit conditions are available from the Division of Mining, Land and Water's Juneau office at 400 Willoughby Avenue, Suite 400, Juneau, Alaska 99801. Following the comment deadline, all written responses will be considered before final action is taken on the request for permit. Any comments, objections, or expressions of interest concerning this proposed action must be received in writing by the Division of Mining, Land and Water at the above address on or before December 27, 1999 in order to ensure consideration. All persons who may be adversely affected by the final action will be sent an additional notice of the appeal process and deadline if they respond in writing and provide their address and telephone contact by the above deadline.

Further information concerning the proposed permit can be obtained by calling Bob Palmer at 465-3432. The Division of Mining, Land and Water reserves the right to waive technical defects in this publication.

Body of Notice:

The Alaska Department of Natural Resources, Division of Agriculture, Plant Materials Center is conducting a survey to gather information to update the Directory of Alaska Native Plant and Seed Sources. This directory has been a popular publication produced by the Plant Materials Center, beginning with the first directory published in 1993. Wholesale and retail distributors of native plants and businesses which commercially produce native plants will be listed in the directory.

The Directory of Alaska Native Plant and Seed Sources will be an effective marketing tool for buyers and sellers of native plants. The directory is intended to help Alaskans in need of plants for erosion control and revegetation projects, landscapers, homeowners, and land use planners. "We are hoping for a good response to the survey to allow the Plant materials Center to develop a comprehensive directory," said Stoney Wright, manager of the Plant Materials Center. "The Division of Agriculture is attempting to encourage the production and sale of native plants and seed in Alaska."

Surveys should be returned by November 30, 1999 to the Alaska Plant Materials Center, HC04 Box 7440, Palmer, AK 99645. Please contact the Alaska Plant Materials Center at 907-745-4469 if you would like to receive a survey form. If you have further questions about the survey or directory, you may contact Catherine Wright at the above number or via e-mail at catherine_wright@dnr.state.ak.us
