Therefore, the applicant further agrees that in order to avoid or mitigate the possible adverse health, safety, and environmental impacts of its Project, it will (1) include the nine, below listed protective measures or components within its Project; (2) provide for their adequate funding to include funding, as necessary, beyond that provided by the grant agreement; and (3) implement these protective measures throughout the life of the grant agreement. In so doing, the applicant understands that it may implement these protective measures directly through the use of its own resources and staff or may secure the qualified services of other agencies, contractors, or other qualified third parties.

The applicant agrees to include the following protective measures within its Project:

1. Provide medical screening of personnel assigned or to be assigned by the applicant to the seizure or closure of clandestine methamphetamine laboratories;

7. Monitor the transport, disposal, and recycling components of subparagraphs numbered 5 and 6 immediately above in order to ensure proper compliance;
8. Have in place and implement an inter-agency agreement or other form of commitment with the responsible state environmental agency that provides for that agency's (i) timely evaluation of the environmental conditions at and around the site of a closed clandestine laboratory and (ii) coordination with the responsible party, property owner, or others to ensure that any residual contamination is remediated, if necessary, and in accordance with existing state and federal requirements; and
9. Include among the personnel involved in seizing clandestine methamphetamine laboratories, or have immediate access to, qualified personnel who can respond to the potential health needs of any of the offender(s)' children or other children present or living at the seized laboratory site. Response actions should include, at a minimum and as necessary, taking children into protective custody, immediately testing them for methamphetamine toxicity, and arranging for any necessary follow-up medical tests, examinations, or health care.

¹ In order to be considered "qualified personnel," an individual must comply with all Federal, State, and local environmental, health and safety laws and regulations applicable to the removal of all chemicals and associated glassware, equipment, and contaminated materials and wastes from a clandestine laboratory, including but not limited to the applicable sections of: U.S. EPA's Resource Conservation and Recovery Act (RCRA), 40 C.F.R.
