

State of Alaska, Department of Natural Resources
Division of Mining, Land and Water
Application for Lease of State Land, McKenzie Inlet

Attachment A

In reference to the attached tideland lease application, and under the provisions of statute AS 38.05.075(c). Leasing Procedures., Sealaska Timber Corporation, a subsidiary of Sealaska Corporation, is requesting this lease on a non-competitive basis. Sealaska Corporation owns all of the uplands to the west of the designated State tidelands, which through the use of the LTF drive-down ramp and airplane float dock, connects the two holdings for the purpose of this project. Leasing the tideland areas to another entity would be completely detrimental to the ongoing commercial operations of Sealaska Timber in this area of southeast Alaska.
