

Alaska Land Mobile Radio Communications System

System Site and Ancillary Equipment Service Level

Alaska Land Mobile Radio (ALMR) Communications System System Site and Ancillary Equipment Service Level

A. Service Level Table Description and Definition

Contract Item: Active/Option (On/Option)	Description
On	Requirement is an active part of the Government's requirement and Scope of work.
Option	Requirement is part of Governments contract scope, but is not an active part of the contract.

Site/Equipment Owner (Owner)	Description
SOA	State of Alaska
DOD	Department of Defense
DOD/USARAK	Department of Defense, US Army Alaska
DOD/USAF	Department of Defense, US Air Force (can be either Elmendorf/JBER, Eielson AFB, Clear AS)

System Zone (Zone)	Description
1	Zone 1 of the ALMR System (see attachment C for delineation)
2	Zone 2 of the ALMR System (see attachment C for delineation)

Number of RF Channels at site (No. Chnls)	Description
1, 2, 3, etc.	Identifies the number of Radio frequency channels at the specified RF Site.

RF Site Name	Description
Name Identifier	Identifies the System Site Name, location of site is provided in attachment C.

Site and Maintenance Categories for ALMR Infrastructure		
Site Category	Description	
1	A critical site within 30 miles of a military base, Anchorage, Fairbanks, Palmer/Wasilla or any site so designated.	
2	Other drive-to sites.	
3	Helicopter (helo) site with no maintained road or limited road accessibility that may require other than a 4x4 vehicle to access; sites not classified as Category 1.	
Maintenance Category	Response Description	Maintenance Category Description
1 – SLA	See Table A – Response Matrix (main document)	SLA- In compliance with the Service Level Agreement, and associated Quality of Service Table A, maintenance level and is an automatic response by the Offeror
2 – Break Fix	See Table A – Response Matrix (main document)	Break Fix – the State and DOD controlled response/repair decision coordination required, the State and DOD can change the response time beyond the categorized response times, choose to team or collaborate on an appropriate response

Monitoring Status	Description
No	Site/equipment monitoring is provided as option.
24/7	Site/equipment is monitored 24 hours 7 days a week 365 days a year.
M-F 0730-1630	Site/Equipment is monitored between the hours 0730-1630, Monday-Friday except holidays.

Note: If monitoring is not 24/7 the Offeror is not liable (held harmless) for periods not monitored.

**Alaska Land Mobile Radio Communications System
System Site and Ancillary Equipment Service Level**

Preventative Maintenance Requirement (PMI Category)	Description
Annual	Conducted once annually, it is the government's expectation that PMI's are completed in conjunction with other activity at a site or close to the site in an effort to economize efforts at a specified site.
2Yr	Conducted once every two years, it is the government's expectation that PMI's are completed in conjunction with other activity at a site or close to the site in an effort to economize efforts at a specified site.
No	PMI's are provided as an option.

Advanced Replacement Service (ARS)	Description
Yes	Advanced Replacement Services are required.
No	Advanced Replacement Services are provided as an option.
