

### **Notice of Utility Tariff Filing**

The REGULATORY COMMISSION OF ALASKA (Commission) gives notice that TDX North Slope Generating, Inc. (TNSG) filed a tariff revision TA181-227, to add the new Small Facility Power Purchase Rate (SFPPR) to its tariff in compliance with a recently-enacted Commission regulation (3 AAC 50.790(d)). The SFPPR will replace the existing Non-Firm Power Purchase Rate (NFPPR).

3 AAC 50.790(d) states that by April 1, 2016, a regulated electric utility must submit a proposed tariff filing that includes a standard rate for purchase of energy from qualifying facilities (QF) with a design capacity of 100 kW or less. 3 AAC 50.770(i) states that the SFPPR must be expressed in cents-per-kilowatt-hour unless otherwise ordered by the Commission. The rate must be determined from the sum of fuel costs and variable operations and maintenance expenses and the energy portion of purchased power expense, using the same period employed to project costs and sales in the utility's adjustment clause (in this case a Cost of Power Adjustment) methodology, divided by the number of kilowatt-hours sold for the same time period.

TNSG proposes to purchase power from QFs with a nameplate capacity of 100 kW or less at a rate equal to the amount of natural gas used in the most recent quarter multiplied by the current price of fuel, divided by the number of kWh sold in the same period.

TNSG's initial proposed SFPPR is \$0.0880, an increase from the existing NFPPR of \$0.07571.

This notice may not contain all requested revisions and the Commission may approve a rate or classification which varies from that proposed.
