

### **Notice of Utility Tariff Filing**

The REGULATORY COMMISSION OF ALASKA (Commission) gives notice that Tanana Power Company, Inc. (TPC) filed tariff revision TA153-92 to add the new Small Facility Power Purchase Rate (SFPPR) to its tariff in compliance with a recently-enacted Commission regulation (3 AAC 50.790(d)). The SFPPR will replace the existing Non-Firm Power Purchase Rate (NFPPR).

3 AAC 50.790(d) states that by April 1, 2016, a regulated electric utility must submit a proposed tariff filing that includes a standard rate for purchase of energy from qualifying facilities (QF) with a design capacity of 100 kW or less. 3 AAC 50.770(i) states that the SFPPR must be expressed in cents-per-kilowatt-hour unless otherwise ordered by the Commission. The rate must be determined from the sum of fuel costs and variable operations and maintenance expenses and the energy portion of purchased power expense, using the same period employed to project costs and sales in the utility's adjustment clause (in this case a Cost of Power Adjustment (COPA)) methodology by the number of kilowatt-hours sold for the same time period.

TPC proposes to determine the SFPPR by dividing the sum of the together the fuel costs, variable operations and maintenance expenses, and the energy portion of purchased power expense for the same period employed to project costs and sales in the COPA methodology, divided by the number of kilowatt-hours sold for the same time period.

TPC's initial proposed SFPPR is \$0.2443, an increase from the existing NFPPR of \$0.156318.

This notice does not contain all requested revisions and the Commission may approve a rate or classification that varies from those proposed.
