

15 AAC 05.250(a) is amended to read:

(a) Department representatives will, in their discretion, disclose confidential information obtained from a taxpayer in an audit or investigation of another taxpayer under [AS 43.21 AND] AS 43.55, if the information is relevant to a sale, exchange, disposition, or netback valuation of oil or gas that relates to a period at least one year before the department's release of the information. The information will be disclosed only to the parties, counsel, experts, and consultants involved in the proceeding after notification to the taxpayer whose information is to be disclosed. The information will be disclosed only under an administrative protective order issued by an authorized representative of the department and only after the taxpayer whose information is to be disclosed has had an opportunity to appear and present objections to that representative.

(Eff. 9/1/84, Register 91; am 12/20/89, Register 112; am 3 / 1 / 2017, Register 221 )

**Authority:** AS 40.25.100 AS 43.05.080 AS 43.05.230

15 AAC 05 is amended by adding a new section to read:

**15 AAC 05.255. Disclosure of tax credit certificates purchased in 2016.** For tax credit

certificates issued under AS 43.55.023 or 43.55.025 purchased by the department ~~on and~~ after

December 31, 2015

~~January 1, 2016~~ and before January 1, 2017, the department shall make public by April 30, 2017

~~the name of each person from which the department purchased a tax credit certificate and the~~  
information authorized under AS 43.05.230 (7) itarize

~~aggregate amount of the tax credit certificates purchased from that person.~~ (Eff.

3 / 1 / 2017, Register 221 )

**Authority:** AS 43.05.080 AS 43.05.230

15 AAC 05.330(a) is amended to read:

(a) Except as otherwise provided in **(e) of this section**, AS 43.55.020(g) and (h) and 15 AAC 55.830, the quarterly interest rate applicable to a delinquent tax or overpayment of a tax under AS 43 on or after January 1, 2014 is the interest rate under AS 43.05.225(1)(B) as of the first day of each calendar quarter in a calendar year calculated on an annualized basis by

(1) adding three percentage points to the annual rate charged member banks for advances by the 12th Federal Reserve District as of the first day of each calendar quarter;

(2) dividing the sum determined under (1) of this subsection by the total number of days in the calendar year; and

(3) multiplying the quotient determined under (2) of this subsection by the total number of days in the quarter in which there is a delinquent tax or overpayment of tax.

15 AAC 05.330(b) is amended to read:

(b) **Except as otherwise provided in (e)** [FOR PURPOSES] of this section, delinquent tax consists only of the balance of unpaid tax on or after December 31, 2013 and does not include any accrued and unpaid interest the taxpayer owes on that date.

15 AAC 05.330(d) is amended to read:

(d) **Except as otherwise provided in (e) of this section, on** [ON] or after January 1, 2014, any accrued and unpaid interest owed by or to a taxpayer as of December 31, 2013 does not accrue further interest.

15 AAC 05.330 is amended by adding a new subsection to read:

(e) For a delinquent tax under AS 43.55 before January 1, 2017, the interest rate in AS 43.05.225(1)(C)(i) applies for the first three years after January 1, 2017, notwithstanding any period the tax was delinquent before January 1, 2017. For purposes of this subsection a delinquent tax consists of the balance of unpaid tax on January 1, 2017, including any accrued and unpaid interest the taxpayer owes on that date. (Eff. 2/21/2014, Register 209; am 3 / 1 / 2017, Register 221)

**Authority:** AS 43.05.080 AS 43.05.225 AS 43.05.280

15 AAC 05 is amended by adding a new section to Article 2 to read:

**15 AAC 05.340. Retroactive application of regulations.** The following provisions apply retroactively to January 1, 2017:

(1) 15 AAC 05.255;

(2) 15 AAC 05.330(e). (Eff. 3 / 1 / 2017, Register 221)

Before 1/1/2000, Register 152, the substance of 15 AAC 55.195(a), (b), and (c) was in 15 AAC 55.191(d), (f), and (g). The history note for 15 AAC 55.195 does not reflect the earlier history of the provisions currently set out at 15 AAC 55.195(a), (b), and (c).

15 AAC 55.206(b) is amended to read:

(b) The provision of AS 43.55.160(b) that a production tax value may not be less than zero applies to each production tax value calculated for each segment. **Subject to the provisions of AS 43.55.023(b)(2), adjusted** [ADJUSTED] lease expenditures applicable to a segment that exceed the amount of adjusted lease expenditures that may, under AS 43.55.160(b), be deducted in calculating a production tax value for the segment are considered excess adjusted lease expenditures and, except as otherwise provided under 15 AAC 55.224, may not be reallocated to, or deducted in calculating a production tax value for, a different segment. Excess adjusted lease expenditures relating to the calculation of an annual production tax value, but not a monthly production tax value, may be used to establish a carried-forward annual loss to the extent allowed under AS 43.55.023(b) and 43.55.160(e).

15 AAC 55.206(c) is amended to read:

(c) For purposes of this section,

(1) except as otherwise provided under (2) of this subsection, each of the following is a segment for a producer:

(A) all oil and gas, if any, taxable under AS 43.55.011(e), other than gas subject to AS 43.55.011(o), that the producer produces from leases or properties in the state that include land north of 68 degrees North latitude;

(B) all oil and gas, if any, taxable under AS 43.55.011(e), other than gas subject to AS 43.55.011(o) or oil or gas subject to AS 43.55.011(p), that the producer produces from leases or properties in the state outside the Cook Inlet sedimentary basin no part of which is north of 68 degrees North latitude, for a calendar year before or during the last calendar year under AS 43.55.024(b) for which the producer could take a tax credit under AS 43.55.024(a);

(C) oil, if any, taxable under AS 43.55.011(e) that the producer produces [BEFORE 2022] from each lease or property in the Cook Inlet sedimentary basin; for purposes of this paragraph, oil produced from each lease or property constitutes a separate segment;

(D) gas, if any, taxable under AS 43.55.011(e) that the producer produces [BEFORE 2022] from each lease or property in the Cook Inlet sedimentary basin; for purposes of this paragraph, gas produced from each lease or property constitutes a separate segment;

(E) gas, if any, taxable under AS 43.55.011(e) that the producer produces [BEFORE 2022] from each lease or property in the state outside the Cook Inlet sedimentary basin and that is used in the state, other than gas subject to AS 43.55.011(p);

for purposes of this paragraph, gas produced from each lease or property constitutes a separate segment;

(F) all oil and gas[.], if any, taxable under AS 43.55.011(e) and subject to AS 43.55.011(p) that the producer produces;

(G) all oil and gas, if any[.], taxable under AS 43.55.011(e) that the producer produces from leases or properties in the state no part of which is north of 68 degrees North latitude, other than oil or gas described in (B), (C), (D)[.], (E)[.] or (F) of this paragraph[.];

(2) if a producer or explorer does not produce any oil or gas from leases or properties in the

(A) state that include land north of 68 degrees North latitude, the area of the state north of 68 degrees North latitude is a segment for the producer or explorer;

(B) state outside the Cook Inlet sedimentary basin no part of which is north of 68 degrees North latitude, the area of the state outside the Cook Inlet sedimentary basin and not including any land north of 68 degrees North latitude is a segment for the producer or explorer [FOR A CALENDAR YEAR BEFORE OR DURING THE LATEST OF;

(I) 2021;

(II) THE LAST CALENDAR YEAR UNDER AS 43.55.024(B) FOR WHICH THE PRODUCER COULD TAKE A TAX CREDIT UNDER AS 43.55.024(A); AND

(III) THE LAST CALENDAR YEAR FOR WHICH  
AS 43.55.011(P) COULD LIMIT THE LEVY OF TAX UNDER  
AS 43.55.011(E) FOR ANY OF THE PRODUCER'S OIL OR GAS];

(C) Cook Inlet sedimentary basin, the Cook Inlet sedimentary basin is a  
segment for the producer or explorer [FOR A CALENDAR YEAR BEFORE OR  
DURING THE LATEST OF

(I) 2021;

(II) THE LAST CALENDAR YEAR UNDER AS 43.55.024(B)  
FOR WHICH THE PRODUCER COULD TAKE A TAX CREDIT UNDER  
AS 43.55.024(A); AND

(III) THE LAST CALENDAR YEAR FOR WHICH  
AS 43.55.011(P) COULD LIMIT THE LEVY OF TAX UNDER  
AS 43.55.011(E) FOR ANY OF THE PRODUCER'S OIL OR GAS;

(D) STATE NO PART OF WHICH IS NORTH OF 68 DEGREES  
NORTH LATITUDE, THE AREA OF THE STATE NOT INCLUDING ANY LAND  
NORTH OF 68 DEGREES NORTH LATITUDE IS A SEGMENT FOR THE  
PRODUCER OR EXPLORER FOR A CALENDAR YEAR AFTER THE LATEST OF

(I) 2021;

(II) THE LAST CALENDAR YEAR UNDER AS 43.55.024(B)  
FOR WHICH THE PRODUCER COULD TAKE A TAX CREDIT UNDER  
AS 43.55.024(A); AND

(III) THE LAST CALENDAR YEAR FOR WHICH  
AS 43.55.011(P) COULD LIMIT THE LEVY OF TAX UNDER  
AS 43.55.011(E) FOR ANY OF THE PRODUCER'S OIL OR GAS].

15 AAC 55.206(d) is amended to read:

(d) For leases or properties in the Cook Inlet sedimentary basin that first commenced commercial production of oil or gas before April 1, 2006, unless otherwise approved or required by the department, [BEFORE 2022] the producer shall continue to treat as a single lease or property each tract, group of tracts, participating area, or unit that the producer consistently treated, subject to final audit resolution, as a single lease or property for purposes of calculating an economic limit factor under former AS 43.55.013. Production of oil or gas from a lease or property in the Cook Inlet sedimentary basin that first commences commercial production of oil or gas on or after April 1, 2006, and that corresponds to a participating area or unit approved by the Department of Natural Resources under AS 38.05.180, other than a lease or property for which the producer calculated an economic limit factor under former AS 43.55.013, must be treated [BEFORE 2022] as production from a distinct lease or property.

15 AAC 55.206(e) is amended to read:

(e) Except as otherwise provided under (f) of this section,  
(1) for gas used in the state and produced from leases or properties outside the Cook Inlet sedimentary basin that first commenced commercial gas production before April 1,

2006, unless otherwise approved or required by the department, [BEFORE 2022] the producer shall continue to treat as a single lease or property each tract, group of tracts, participating area, or unit that the producer consistently treated, subject to final audit resolution, as a single lease or property for purposes of calculating an economic limit factor under former AS 43.55.013;

(2) production of gas used in the state from a lease or property outside the Cook Inlet sedimentary basin that first commences commercial production on or after April 1, 2006, and that corresponds to a participating area or unit approved by the Department of Natural Resources under AS 38.05.180, other than a lease or property for which the producer calculated an economic limit factor under former AS 43.55.013, must be treated [BEFORE 2022] as production from a distinct lease or property.

(Eff. 10/21/2009, Register 192; am 12/25/2013, Register 208; am 3 1 1 2017, Register 221)

<b>Authority:</b>	AS 43.05.080	AS 43.55.024	AS 43.55.160
	AS 43.55.011	AS 43.55.110	AS 43.55.165

Article 2 of 15 AAC 55 is amended by adding a new section to read:

**15 AAC 55.208. Calculation of adjusted lease expenditures and production tax value for a municipal entity.** (a) An annual production tax value is not calculated under AS 43.55.160(a)(1) or (h) for oil or gas produced by a municipal entity that it does not sell to another party. The calculation of an annual production tax value under AS 43.55.160(a)(1) or (h)

for oil or gas produced by a municipal entity that it sells to another party is subject to the provisions of this section.

(b) For each category of oil, gas, or oil and gas for which the calculation of an annual production tax value is specified under AS 43.55.160(a)(1)(A) – (G) and for each category of oil for which the calculation of an annual production tax value is specified under AS 43.55.160(h)(1) – (4), a municipal entity that produces oil or gas within that category during a calendar year that it sells to another party shall calculate a fraction, the numerator of which is equal to the amount of oil, gas, or oil and gas produced by the municipal entity in that category during the calendar year, in BTU equivalent barrels, that it sells to another party, other than oil or gas in which the federal government or the state has an ownership interest or the ownership or right to which constitutes a landowner's royalty interest, and the denominator of which is equal to the total amount of oil, gas, or oil and gas produced by the municipal entity in that category during the calendar year, in BTU equivalent barrels, other than oil or gas in which the federal government or the state has an ownership interest or the ownership or right to which constitutes a landowner's royalty interest. Subject to AS 43.55.160(b), the amount of adjusted lease expenditures that is deductible from the gross value at the point of production of the oil, gas, or oil and gas in that category that the municipal entity sells to another party equals the product of the amount of adjusted lease expenditures that are described in the applicable provision of AS 43.55.160(a) or (h) for that category, multiplied by the fraction calculated under this subsection for that calendar year for that category.

(c) The only adjusted lease expenditures incurred by a municipal entity that may be used to establish a carried-forward annual loss under AS 43.55.023(b)(1), subject to the provisions of AS 43.55.023(b)(2), are the portion, if any, of the amount of adjusted lease expenditures

calculated under (b) of this section that would otherwise be deductible in calculating an annual production tax value but whose deduction would cause the annual production tax value to be less than zero. (Eff. 3 / 1 / 2017, Register 221)

**Authority:** AS 43.05.080 AS 43.55.110 AS 43.55.895  
AS 43.55.023 AS 43.55.160

15 AAC 55.211(h) is amended to read:

(h) Except as provided under 15 AAC 55.511(c)(2), the [THE] gross value at the point of production of oil or gas is reduced under AS 43.55.160(f) or (g) only for the purpose of calculating an annual production tax value under AS 43.55.160(a)(1)(A) or (h)(1), subject to the provisions of AS 43.55.023(b)(2). The gross value at the point of production of oil is not reduced under AS 43.55.160(f) or (g) for the purpose of calculating an average gross value at the point of production of oil for a month under AS 43.55.024(j), or for the purpose of calculating a gross value at the point of production under AS 43.55.011(f) or AS 43.55.020(a)(1)(B)(ii), (5)(B)(ii), or (7)(A)(ii). = bold underline

15 AAC 55.211 is amended by adding a new subsection to read:

(i) Except as provided under 15 AAC 55.212(f), a reduction in the gross value at the point of production provided by AS 43.55.160(f) or (g) is not optional. (Eff. 12/25/2013, Register 208; am 3 / 1 / 2017, Register 221)

**Authority:** AS 43.05.080 AS 43.55.110 AS 43.55.160

15 AAC 55.212(j) is amended to read:

(j) A determination by the department under (e)(1) of this section is not required in order for a producer of oil or gas that otherwise meets the criteria in AS 43.55.160(f)(1), the criteria in AS 43.55.160(f)(2), or the criteria in AS 43.55.160(f)(1) and (g) to reduce the gross value at the point of production of the oil or gas in the calculation of an annual production tax value to the extent allowed under AS 43.55.160(f) and (g). Oil that meets the criteria in AS 43.55.160(f)(1), the criteria in AS 43.55.160(f)(2), or the criteria in AS 43.55.160(f)(1) and (g) **and that is produced, if on or after January 1, 2017, during a period for which a gross value reduction is allowed under 15 AAC 55.214,** does not qualify for a tax credit under AS 43.55.024(j) regardless of whether the department has issued a determination under (e)(1) of this section and regardless of whether the producer reduces the gross value at the point of production of the oil under AS 43.55.160(f) or under AS 43.55.160(f)(1) and (g) in the calculation of an annual production tax value.

15 AAC 55.212(l) is amended to read:

(l) Regardless of whether the department has accepted under (f)(1) of this section a methodology applicable to acreage that was added after December 31, 2013 to an existing participating area north of 68 degrees North latitude, a producer's oil taxable under

AS 43.55.011(e) that does not meet the criteria in AS 43.55.160(f)(1) or (2) and that is produced during a month after December 31, 2013 from the participating area qualifies for a tax credit under AS 43.55.024(j) if the producer has not elected to reduce under AS 43.55.160(f)(3) the gross value at the point of production of any of the oil or gas produced from the participating area. However, if a producer elects for any month, as allowed under 15 AAC 55.214, to reduce under AS 43.55.160(f)(3) the gross value at the point of production of any oil or gas produced during the month from the participating area, the producer shall use the methodology accepted by the department under (f)(1) of this section to determine the volumes of oil and gas produced during that month and every succeeding month from the participating area that qualify for a reduction in gross value at the point of production under AS 43.55.160(f)(3), until the period for which a gross value reduction is allowed under 15 AAC 55.214 ends. That volume of oil does not qualify for a tax credit under AS 43.55.024(j). In this subsection, "the participating area" means the existing participating area after expansion to include the acreage added after December 31, 2013. (Eff. 12/25/2013, Register 208; am 3 / 1 / 2017, Register 221 )

**Authority:** AS 43.05.080      AS 43.55.110      AS 43.55.160

15 AAC 55 is amended by adding a new section to Article 2 to read:

**15 AAC 55.214. Duration of gross value reductions.** (a) This section implements the time limits established by AS 43.55.160(f) and (g) for reductions under those provisions in the gross value at the point of production of oil and gas.

(b) This subsection applies to (1) oil and gas that meet the criteria for a gross value reduction under AS 43.55.160(f)(1) or under AS 43.55.160(f)(1) and (g) if any oil or gas was produced before January 1, 2017, from the qualifying lease or property; (2) oil and gas that meet the criteria for a gross value reduction under AS 43.55.160(f)(2) if any oil or gas was produced before January 1, 2017, from the qualifying participating area; and (3) oil and gas that meet the criteria for a gross value reduction under AS 43.55.160(f)(3) if any oil or gas was produced before January 1, 2017, from the qualifying acreage added to a participating area. The period for which oil and gas produced from the qualifying lease or property, qualifying participating area, or qualifying acreage added to a participating area, respectively, may receive a gross value reduction ends on the earlier of December 31, 2022, or the alternate expiration date determined under (g) of this section.

(c) This subsection applies to oil and gas that meet the criteria for a gross value reduction under AS 43.55.160(f)(1) or under AS 43.55.160(f)(1) and (g) if no oil or gas was produced before January 1, 2017, from the qualifying lease or property. The period for which oil and gas produced from the qualifying lease or property may receive a gross value reduction begins on the first day that regular production of oil or gas commences from a well producing from the lease or property and ends on the date provided under (f) of this section.

(d) This subsection applies to oil and gas that meet the criteria for a gross value reduction under AS 43.55.160(f)(2) if no oil or gas was produced before January 1, 2017, from the qualifying participating area. The period for which oil and gas produced from the qualifying participating area may receive a gross value reduction begins on the first day that regular production of oil or gas commences from a well producing from the participating area and ends on the date provided under (f) of this section. However, if before establishment of the qualifying

participating area, regular production of oil or gas commenced from one or more wells producing from a tract or tracts to be included in the participating area,

(1) the period begins on the date the participating area is established, unless none of those wells is still producing on that date, and ends on the date provided under (f) of this section;

(2) if none of those wells is still producing on the date the participating area is established, the period begins on the earlier of the day any of the wells resumes production after the participating area is established, or the first day on or after the participating area is established that regular production of oil or gas commences from a well producing from the participating area, and ends on the date provided under (f) of this section.

(c) This subsection applies to oil and gas that meet the criteria for a gross value reduction under AS 43.55.160(f)(3) if no oil or gas was produced before January 1, 2017, from the qualifying acreage added to a participating area. The period for which oil and gas produced from qualifying acreage added to a participating area may receive a gross value reduction begins on the first day that oil or gas whose volume the producer determines under 15 AAC 55.212(k) qualifies for a gross value reduction is produced from a well all of whose producing intervals are within that acreage, if the well has commenced regular production of oil or gas, and ends on the date provided under (f) of this section.

(f) A period subject to (c) - (e) of this section ends on the earlier of the following dates:

(1) the last day of the month that

(A) immediately precedes the month that includes the seventh anniversary of the day the period began, if that anniversary occurs before the 16th day of the month;

(B) includes the seventh anniversary of the day the period began, if that anniversary occurs after the 15th day of the month; or

(2) the alternate expiration date determined under (g) of this section.

(g) An alternate expiration date for a period under (b) – (c) of this section for which oil and gas may receive a gross value reduction is determined by (1) identifying the first sequence, if any, of 12 consecutive months over which the average price per barrel of ANS for sale on the United States West Coast exceeds \$70, that begins on or after January 1, 2017, for a period under (b) of this section, or that begins on or after the first day of the period, for a period under (c) – (e) of this section; (2) identifying the next sequence, if any, of 12 consecutive months over which the average price per barrel of ANS for sale on the United States West Coast exceeds \$70, that begins after the first sequence ends; and (3) identifying the next sequence, if any, of 12 consecutive months over which the average price per barrel of ANS for sale on the United States West Coast exceeds \$70, that begins after the second sequence ends. The alternate expiration date is the last day of the third sequence. For purposes of this subsection, the average price per barrel of ANS for sale on the United States West Coast over 12 consecutive months is equal to the simple average of the average spot prices for ANS at the United States West Coast during the 12 months as calculated under 15 AAC 55.171(m).

(h) If a period for which a gross value reduction is allowed under this section has begun for oil and gas produced from certain land that is later combined with other land and the combined land is treated as a lease or property qualifying for a gross value reduction under AS 43.55.160(f)(1), as a participating area qualifying for a gross value reduction under AS 43.55.160(f)(2), or as acreage added to an existing participating area and qualifying for a gross value reduction under AS 43.55.160(f)(3), neither the expiration of the period for oil and

gas produced from the former land, nor the expiration of the period, if any, for oil and gas produced from the latter land, is extended beyond what it would be if the combination had not occurred.

(i) The day that a period for which a gross value reduction is allowed under this section ends is included in the period.

(j) The date that regular production of oil or gas commences from a well is determined by the Alaska Oil and Gas Conservation Commission.

(k) In this section, "gross value reduction" means a reduction in the gross value at the point of production of oil or gas under AS 43.55.160(f) or AS 43.55.160(f) and (g). (Eff.

3 / 1 / 2017, Register 221)

**Authority:** AS 43.05.080 AS 43.55.110 AS 43.55.160

The introductory language to 15 AAC 55.224(d) is amended to read:

(d) For a calendar year after 2013 for which a limitation under AS 43.55.011(j), (k), (o), or (p) on the tax levied by AS 43.55.011(e) has the effect of reducing the producer's tax on oil or gas produced from one or more leases or properties below the amount of the tax that would be levied in the absence of that limitation, the producer shall account under this subsection for adjusted lease expenditures that are excess adjusted lease expenditures, if any, under 15 AAC 55.206(b) in the calculation of annual production tax values for segments described in 15 AAC 55.206(c)(1)(C), (D), (E), or (F). Only the amount, if any, of those excess adjusted lease expenditures that is calculated under (7) of this subsection may be used to establish a carried-

forward annual loss under AS 43.55.023(b). The fraction of the amount calculated under (7) of this subsection that is subject to a 25 percent tax credit under AS 43.55.023(b) is equal to the amount calculated under (1) of this subsection divided by the sum of the amounts calculated under (1) and (2) of this subsection. The fraction of the amount calculated under (7) of this subsection that is subject to a 45 percent tax credit under AS 43.55.023(b) in the case of lease expenditures incurred after December 31, 2013, and before January 1, 2016, or a 35 percent tax credit under AS 43.55.023(b) in the case of lease expenditures incurred after December 31, 2015 **and before January 1, 2017**, is equal to the amount calculated under (2) of this subsection divided by the sum of the amounts calculated under (1) and (2) of this subsection. The calculations to be performed for the accounting under this subsection are as follows:

.... (((Publisher: 15 AAC 55.224(d)(1) - (7) are unchanged.)))

15 AAC 55.224 is amended by adding new subsections to read:

(e) For calendar year 2017 for which a limitation under AS 43.55.011(j), (k), (o), or (p) on the tax levied by AS 43.55.011(e) has the effect of reducing the producer's tax on oil or gas produced from one or more leases or properties below the amount of the tax that would be levied in the absence of that limitation, the producer shall account under this subsection for adjusted lease expenditures that are excess adjusted lease expenditures, if any, under 15 AAC 55.206(b) in the calculation of annual production tax values for segments described in 15 AAC 55.206(c)(1)(C), (D), (E), or (F). Only the amount, if any, of those excess adjusted lease expenditures that is calculated under (7) of this subsection may be used to establish a carried-forward annual loss under AS 43.55.023(b). The fraction of the amount calculated under (7) of

this subsection that is subject to a 15 percent tax credit under AS 43.55.023(b) is equal to the amount calculated under (1) of this subsection divided by the sum of the amounts calculated under (1) and (2) of this subsection. The fraction of the amount calculated under (7) of this subsection that is subject to a 35 percent tax credit under AS 43.55.023(b) is equal to the amount calculated under (2) of this subsection divided by the sum of the amounts calculated under (1) and (2) of this subsection. The calculations to be performed for the accounting under this subsection are as follows:

(1) calculate the total amount of excess adjusted lease expenditures subject to this subsection for segments described in 15 AAC 55.206(c)(1)(C), (D), and (F) for oil and gas produced from leases or properties no part of which is north of 68 degrees North latitude;

(2) calculate the total amount of excess adjusted lease expenditures subject to this subsection for segments described in 15 AAC 55.206(c)(1)(E) for gas produced from leases or properties that include land north of 68 degrees North latitude;

(3) sum the amounts calculated under (1) and (2) of this subsection and multiply that sum by 35 percent;

(4) calculate for each segment the amount by which a limitation under AS 43.55.011(j), (k), (o), or (p) reduces the amount of the producer's tax otherwise levied by AS 43.55.011(e);

(5) sum the total of the reductions calculated under (4) of this subsection for all affected segments;

(6) if the amount calculated under (3) of this subsection is

(A) greater than the amount calculated under (5) of this subsection, subtract the amount calculated under (5) of this subsection from the amount calculated under (3) of this subsection;

(B) equal to or less than the amount calculated under (5) of this subsection, consider the amount calculated under this paragraph to be zero;

(7) divide the amount calculated under (6) of this subsection by 0.35.

(f) For a calendar year after 2017 for which a limitation under AS 43.55.011(o) and (p) on the tax levied by AS 43.55.011(e) has the effect of reducing the producer's tax on oil or gas produced from one or more leases or properties below the amount of the tax that would be levied in the absence of that limitation, the producer shall account under this subsection for adjusted lease expenditures that are excess adjusted lease expenditures, if any, under 15 AAC 55.206(b) in the calculation of annual production tax values for segments described in 15 AAC 55.206(c)(1)(E), or (F). Only the amount, if any, of those excess adjusted lease expenditures that is calculated under (7) of this subsection may be used to establish a carried-forward annual loss under AS 43.55.023(b). The fraction of the amount calculated under (7) of this subsection that is subject to a 15 percent tax credit under AS 43.55.023(b) is equal to the amount calculated under (1) of this subsection divided by the sum of the amounts calculated under (1) and (2) of this subsection. The fraction of the amount calculated under (7) of this subsection that is subject to a 35 percent tax credit under AS 43.55.023(b) is equal to the amount calculated under (2) of this subsection divided by the sum of the amounts calculated under (1) and (2) of this subsection. The calculations to be performed for the accounting under this subsection are as follows:

(1) calculate the total amount of excess adjusted lease expenditures subject to this subsection for segments described in 15 AAC 55.206(c)(1)(F) for gas produced from leases or properties no part of which is north of 68 degrees North latitude;

(2) calculate the total amount of excess adjusted lease expenditures subject to this subsection for segments described in 15 AAC 55.206(c)(1)(E) for gas produced from leases or properties that include land north of 68 degrees North latitude;

(3) sum the amounts calculated under (1) and (2) of this subsection and multiply that sum by 35 percent;

(4) calculate for each segment the amount by which a limitation under AS 43.55.011(j), (k), (o), or (p) reduces the amount of the producer's tax otherwise levied by AS 43.55.011(e);

(5) sum the total of the reductions calculated under (4) of this subsection for all affected segments;

(6) if the amount calculated under (3) of this subsection is

(A) greater than the amount calculated under (5) of this subsection, subtract the amount calculated under (5) of this subsection from the amount calculated under (3) of this subsection;

(B) equal to or less than the amount calculated under (5) of this subsection, consider the amount calculated under this paragraph to be zero;

(7) divide the amount calculated under (6) of this subsection by 0.35. (Eff.

10/21/2009, Register 192; am 12/25/2013, Register 208; am 3 / 1 / 2017, Register 221)

<b>Authority:</b>	AS 43.05.080	AS 43.55.024	AS 43.55.160
	AS 43.55.011	AS 43.55.110	AS 43.55.165

15 AAC 55.315 is amended to read:

**(a)** A carried-forward annual loss tax credit under AS 43.55.023(b) may not be applied against a tax liability for the calendar year in which the adjusted lease expenditures on which the credit is based are incurred.

15 AAC 55.315 is amended to by adding new subsections to read:

**(b)** A determination of a carried-forward annual loss subject to AS 43.55.023(b)(2) may be performed by subtracting the reduction under AS 43.55.160(f) or (g) from the amount of excess adjusted lease expenditures otherwise calculated under 15 AAC 55.206(b) for the segment described in 15 AAC 55.206(c)(1)(A). Only the remainder, if positive, constitutes excess adjusted lease expenditures that may establish a carried-forward annual loss under AS 43.55.023(b). If the remainder is zero or less, there is no carried-forward annual loss.

**(c)** The following examples illustrate (b) of this section:

Example 1. Producer A produces only oil in a calendar year after 2016 that qualifies for a 20 percent reduction in the gross value at the point of production under AS 43.55.160(f) but not a reduction under AS 43.55.160(g). The gross value at the point of production, before reduction, is \$10 million. After reduction under AS 43.55.160(f), the gross value at the point of production is \$8 million. The producer's adjusted lease expenditures for the

calendar year applicable to the oil are \$9 million. The annual production tax value of the oil would be calculated by deducting \$9 million from \$8 million, except that an annual production tax value may not be less than zero. Therefore, the annual production tax value of the oil is zero, and the \$1 million in adjusted lease expenditures that are not deductible are considered excess adjusted lease expenditures. However, for the purpose of determining a carried-forward annual loss and a potential tax credit under AS 43.55.023(b)(2), the \$2 million reduction in the gross value at the point of production is subtracted from that \$1 million in excess adjusted lease expenditures. This results in a negative value. Therefore, there is no carried-forward annual loss under AS 43.55.023(b)(2) and no tax credit.

Example 2. The facts are the same as in Example 1 except that the producer's adjusted lease expenditures for the calendar year applicable to the oil are \$11 million instead of \$9 million. In this situation, the annual production tax value of the oil again is zero, but the amount of excess adjusted lease expenditures is \$3 million. After the \$2 million reduction in the gross value at the point of production is subtracted from the \$3 million figure, the resulting excess adjusted lease expenditures are \$1 million. Therefore, there is a \$1 million carried-forward annual loss under AS 43.55.023(b)(2). (Eff. 5/3/2007, Register 182; am 3 / / / 2017, Register 221 )

AS 43.55.023

15 AAC 55.320(b) is amended to read:

(b) Information and documentation that the department will require a producer or explorer to provide in an application for a transferable tax credit certificate under AS 43.55.023(d) include

(1) the applicant's certification, under oath, that the expenditures for which the credit is claimed have been incurred, that the credit has not been used, and that the applicant is aware of no reason why the applicant does not qualify for the credit;

(2) a list of any authorizations for expenditure that apply to the expenditures for which the credit is claimed and copies of those authorizations;

(3) a schedule of the relevant expenditures incurred, identifying any applicable authorizations for expenditure and showing the accounts charged and, in the case of expenditures included in a joint interest billing, the month billed;

(4) a description of the lease or property or other land where the exploration, development, or production activities with respect to which the relevant expenditures were incurred took place, and a map or survey showing the location of the activities;

(5) if the relevant expenditures include costs associated with drilling a well, a

(A) copy of

(i) the Well Completion or Recompletion Report and Log (Form 10-407) filed with the Alaska Oil and Gas Conservation Commission under 20 AAC 25.070; or

(ii) a well completion report that is filed with a federal agency and that is substantially similar to the filing described in (i) of this subparagraph; or

(B) well status report, if at the time the application is made material described in (A) of this paragraph is not yet due to be filed and has not been filed;

(6) if the lease or property where the exploration, development, or production activities with respect to which the relevant expenditures were incurred took place is subject to a unit operating agreement, identification of the applicable unit operating agreement;

(7) a list of any partners or other entities that shared in costs of which the relevant expenditures incurred by the applicant are the applicant's share;

(8) if the relevant expenditures are subject to joint venture audit by a participant in a joint venture, identification of and contact information for the joint interest auditor; [AND]

(9) for a tax credit under AS 43.55.023(a) or (l) for an expenditure incurred in connection with geological or geophysical exploration or in connection with an exploration well,

(A) the applicant's written agreements described in AS 43.55.023(a)(2)(A) or (l)(2)(A), as applicable; and

(B) documentation that the applicant has submitted to the Department of Natural Resources all data referred to in AS 43.55.023(a)(2)(B) or (l)(2)(B), as applicable;

**(10) copies of the applicant's most recent audited financial statements, including the auditor's opinion, notes to the audited financial statements, and information related to any contingent liabilities that may be owed by the applicant to another party; and**

**(11) any unresolved notices of violations, liens filed, or notices of assessment of or liability for tax, interest, penalty, fee, rental, royalty or other charge of any kind issued to the applicant related to an applicant's oil or gas exploration, development, or production in the state.** (Eff. 5/3/2007, Register 182; am 10/21/2009, Register 192; am 9/14/2012, Register 203; am 3 / 1 / 2017, Register 221 )

AS 43.55.023

15 AAC 55.335(e) is amended to read:

(e) Subject to (g) of this section, the total amount of a producer's tax credits for a calendar year under AS 43.55.024(j) is determined by

(1) calculating for each month of the calendar year the number of barrels of oil taxable under AS 43.55.011(e) that the producer produces during the month from leases or properties north of 68 degrees North latitude and,

**(A) for oil produced before January 1, 2017,** that does not meet the criteria in any of AS 43.55.160(f)(1), (2), or (3); for purposes of this **subparagraph,** [PARAGRAPH,] oil does not meet the criteria in AS 43.55.160(f)(3) if

**(i)** [(A)] the producer has not reduced the gross value at the point of production of the oil under AS 43.55.160(f)(3); and

**(ii)** [(B)] the oil is not included in the volume of oil the producer is required under 15 AAC 55.212(l) to determine qualifies for a reduction in gross value at the point of production under AS 43.55.160(f)(3);

**(B) for oil produced <sup>December 31, 2016</sup> on and after January 1, 2017, that does not receive a reduction in the gross value at the point of production under AS 43.55.160(f) or (g);**

(2) multiplying for each month of the calendar year the number of barrels of oil calculated for the month under (1) of this subsection by the applicable dollar amount per barrel for the month under AS 43.55.024(j)(1) - (9) using the average gross value at the point of production for the month calculated under (f) of this section;

(3) summing over all months of the calendar year the products calculated for each month under (2) of this subsection.

15 AAC 55.335(f) is amended to read:

(f) For purposes of AS 43.55.024(j) and of (e) of this section, the average gross value at the point of production for a month is calculated by

(1) calculating the total gross value at the point of production of the oil taxable under AS 43.55.011(e) that the producer produces during the month from leases or properties north of 68 degrees North latitude and,

(A) for oil produced before January 1, 2017, that does not meet the criteria in any of AS 43.55.160(f)(1), (2), or (3); for purposes of this subparagraph [PARAGRAPH], oil does not meet the criteria in AS 43.55.160(f)(3) if

(i) [(A)] the producer has not reduced the gross value at the point of production of the oil under AS 43.55.160(f)(3); and

(ii) [(B)] the oil is not included in the volume of oil the producer is required under 15 AAC 55.212(l) to determine qualifies for a reduction in gross value at the point of production under AS 43.55.160(f)(3);

(B) for oil produced <sup>December 31, 2016</sup> on or after January 1, 2017, that does not receive a reduction in the gross value at the point of production under AS 43.55.160(f) or (g);

(2) dividing the amount calculated under (1) of this subsection by the number of barrels of oil calculated for the month under (e)(1) of this section.

15 AAC 55.335(g) is amended to read:

(g) If a producer's application of tax credits other than a tax credit under AS 43.55.024(j) against a tax levied by AS 43.55.011(e) reduces the producer's tax liability to the amount

calculated for a calendar year after 2013 under AS 43.55.011(f) or less, the producer may not apply a tax credit under AS 43.55.024(j) against the tax for that calendar year. If a producer's application of tax credits other than a tax credit under AS 43.55.024(j) against a tax levied by AS 43.55.011(e) does not reduce the producer's tax liability to the amount calculated for a calendar year after 2013 under AS 43.55.011(f) or less, the producer may apply against the tax no more than the portion of a tax credit under AS 43.55.024(j) that is equal to the difference between the amount calculated for the calendar year under AS 43.55.011(f) and the tax liability after reduction by application of tax credits other than a tax credit under AS 43.55.024(j). In calculating that reduction, if the tax credits to be applied include one or more tax credits subject to a percentage limitation under [AS 38.05.180(i) OR] AS 43.55.023(e), calculation of the percentage limitations under 15 AAC 55.375(a) must take account of any tax credit or portion of a tax credit under AS 43.55.024(j) that the producer will apply against the producer's tax, to the extent allowed under this subsection.

15 AAC 55.335 is amended by adding a new subsection to read:

(h) As applied only to oil produced by a municipal entity, "oil taxable under AS 43.55.011(e)" in (e) and (f) of this section means oil produced from a lease or property in the state that the municipal entity sells to another party, other than oil in which the federal government or the state has an ownership interest or the ownership or right to which constitutes a landowner's royalty interest. (Eff. 5/3/2007, Register 182; am 10/21/2009, Register 192; am 12/25/2013, Register 208; am 3 / 1 / 2017,

Register 221 )

**Authority:** AS 43.05.080      AS 43.55.024      AS 43.55.110  
AS 43.55.011      AS 43.55.030      AS 43.55.160

15 AAC 55 is amended by adding a new section to Article 3 to read:

**15 AAC 55.337. Tax credits for a municipal entity.** (a) For a tax credit based on expenditures incurred during a calendar year, other than a tax credit under AS 43.55.023(b), the amount of the municipal entity's tax credit may not exceed the amount of the tax credit otherwise allowed under this chapter, multiplied by the fraction calculated under (d) of this section for that calendar year.

(b) For a tax credit not based on expenditures, other than tax credits under AS 43.55.024(i) and (j), the amount of the municipal entity's tax credit for a calendar year may not exceed the amount of the tax credit otherwise allowed under this chapter, multiplied by the fraction calculated under (d) of this section for that calendar year.

(c) A municipal entity is eligible for tax credits under AS 43.55.024(i) or (j) only for oil, otherwise qualifying under AS 43.55.024(i) or (j), that it sells to another party, other than oil in which the federal government or the state has an ownership interest or the ownership or right to which constitutes a landowner's royalty interest.

(d) For each calendar year, the municipal entity shall calculate a fraction, the numerator of which is equal to the amount of oil and gas produced by the municipal entity from leases or properties in the state during the calendar year, in BTU equivalent barrels, that the municipal entity sells to another party, other than oil or gas in which the federal government or the state has

an ownership interest or the ownership or right to which constitutes a landowner's royalty interest, and the denominator of which is equal to the total amount of oil and gas produced by that municipal entity from leases or properties in the state during the calendar year, in BTU equivalent barrels, other than oil or gas in which the federal government or the state has an ownership interest or the ownership or right to which constitutes a landowner's royalty interest. The fraction is equal to zero for a calendar year during which the municipal entity does not produce any oil or gas, or produces oil or gas from a lease or property, but does not sell any of that oil or gas to another party. (Eff. 3 / 1 / 2017, Register 221 )

**Authority:** AS 43.05.080 AS 43.55.011 AS 43.55.110

15 AAC 55.440(b) is amended to read:

(b) For purposes of **former** AS 43.55.011(k)(2) **as that provision applied to oil produced before January 1, 2017,** the average rate of tax that was imposed under AS 43.55 on taxable oil produced from all leases or properties in the Cook Inlet sedimentary basin for the 12-month period ending on March 31, 2006, was zero percent.

15 AAC 55.440(d) is amended to read:

(d) For purposes of **AS 43.55.011(o)** [AS 43.35.011(o)], the amount of tax for each Mcf determined under AS 43.55.011(j)(2) is \$.177. (Eff. 5/3/2007, Register 182; am 10/21/2009, Register 192; am 3 / 1 / 2017, Register 221 )

**Authority:** AS 43.05.080 AS 43.55.020 **AS 43.55.160**  
AS 43.55.011 AS 43.55.110

15 AAC 55.511(b) is amended to read:

(b) For purposes of the calculations described in AS 43.55.020(a)(1)(B)(ii) and (5)(B)(ii) for oil and gas produced after June 30, 2007,

(1) the gross value at the point of production of the oil and gas produced is calculated only for oil and gas taxable under AS 43.55.011(e), subject to AS 43.55.011(f), and not subject to AS 43.55.011(o);

(2) the applicable percentage of the gross value at the point of production is determined under AS 43.55.011(f) [AS 43.55.011(f)(1) - (4)] but substituting the phrase "the month for which the installment payment is calculated" for the phrase "the calendar year for which the tax is due";

(3) the average price per barrel for Alaska North Slope crude oil for sale on the United States West Coast during a month is equal to the average spot price for ANS at the United States West Coast during the month as calculated under 15 AAC 55.171(m).

15 AAC 55.511(c) is amended to read:

(c) For purposes of the calculations

(1) described in AS 43.55.020(a)(1)(B)(iii) and (5)(B)(iii) [(5)(B)(ii)] for oil and gas produced after June 30, 2007, the gross value at the point of production of the oil and gas produced and the deductible adjusted lease expenditures are calculated only for oil and gas taxable under AS 43.55.011(e), subject to AS 43.55.011(f), and not subject to AS 43.55.011(o);

(2) described in AS 43.55.020(a)(5)(B)(iii) for oil and gas produced after December 31, 2013, if the gross value at the point of production of the oil and gas produced during the month for which the installment payment is calculated is reduced under

AS 43.55.160(f) or under AS 43.55.160(f) and (g) in the calculation of an annual production tax value under AS 43.55.160(a)(1)(A) or (h), the gross value at the point of production is also reduced in the calculation of the installment payment.

15 AAC 55.511 is amended by adding a new subsection to read:

(h) For oil or gas produced by a municipal entity,

(1) an installment payment under AS 43.55.020(a) is calculated only for oil or gas that the municipal entity sells to another party;

(2) where the calculation of an installment payment under AS 43.55.020(a) calls for deducting 1/12 of the producer's adjusted lease expenditures for a calendar year that are deductible under AS 43.55.160, the amount of deductible adjusted lease expenditures for the calendar year is subject to 15 AAC 55.208(b). (Eff. 10/21/2009, Register 192; am 4/30/2010, Register 194; am 12/25/2013, Register 208; am 3 / 1 / 2017, Register 221 )

<b>Authority:</b>	AS 43.05.080	AS 43.55.020	<u><b>AS 43.55.160</b></u>
	AS 43.55.011	AS 43.55.110	<u><b>AS 43.55.895</b></u>

15 AAC 55 is amended by adding a new section to Article 5 to read:

**15 AAC 55.525. Cash purchases of tax credit certificates.** (a) For applications to purchase tax credit certificates received by the department before January 1, 2017 the department

will first determine if there is enough money in the oil and gas tax credit fund to purchase the outstanding certificates. If the total amount of applications for purchases of tax credit certificates received by the department before January 1, 2017 for which applicants qualify at any time under AS 43.55.028(e) exceeds the amount of available money in the oil and gas tax credit fund, the department will allocate funds proportionally between those applicants based on the balance of tax credit certificates requested for purchase on applications outstanding as of December 31, 2016. If the applicant or claimant has an outstanding liability to the state for unpaid delinquent taxes under this title, the department may reduce the cash purchase by the amount of the outstanding liability.

(b) For applications to purchase tax credit certificates received by the department on and after January 1, 2017 the department will first determine if there is enough money in the oil and gas tax credit fund to purchase the outstanding certificates. If the total amount applied for in applications for purchases of tax credit certificates received by the department on and after January 1, 2017, for which applicants qualify at any time under AS 43.55.028(e) exceeds the amount of available money in the oil and gas tax credit fund, the department will allocate funds on an annual basis by granting a preference between two or more applicants to the applicant with the higher percentage of resident workers as provided in subsection (f). Subject to the availability of funds in the oil and gas tax credit fund and the provisions of AS 43.55.028(e) and (g), and the limitations of this section, when allocating funds between applicants the department will

(1) first, process and determine the eligibility of applications for the purchase of tax credit certificates on an annual basis;

(2) second, determine the amount of tax credit certificates to be purchased as calculated under paragraph (c) of this section from the applicant with the highest percentage of

resident workers before purchasing any amount of tax credit certificates from an applicant with a lower percentage of resident workers. If two or more applicants have the same percentage, rounded to the nearest whole percent, of resident workers, the department will pay available funds to those applicants on a pro-rata basis;

(3) third, after the department has made a final determination of the amount of funds to be allocated for the purchase of tax credit certificates the director of the tax division will send a notice to each applicant detailing the amount of the application that has been approved for purchase and also make the same information available to the public in accordance with AS 43.05.230(I) and 15 AAC 05.250;

(c) For applications to purchase tax credit certificates received by the department on and after January 1, 2017 the department will determine the amount of the credit purchase limit under AS 43.55.028(g)(3) by

(1) first, determining an amount which is equal to 100 percent of the lesser of the first 35 million dollars or the amount of the tax credit certificate or portion of the certificate requested to be purchased;

(2) second, subtracting the amount determined in paragraph (1) of this subsection from the amount of the certificate's original value to determine the amount, if any, of the remaining certificate value;

(3) third, determine an amount which is equal to 75 percent of the lesser of the next 35 million dollars of the credit purchase limit or the amount, if any, of the remaining certificate value. If no additional credit is applied for in the current period the amount is zero;

(4) fourth, add the amounts obtained in paragraphs (1) and (3) of this subsection to determine the amount of the tax credit certificate that is eligible for purchase in the current year;

(5) fifth,

(A) 35 million dollars or the amount of the original certificate value for the first 50 percent of the credit purchase limit under AS 43.55.028(e); or

(B) 70 million dollars or the amount of the original certificate value submitted for purchase for the next 50 percent of the credit purchase limit under AS 43.55.028(e), if the amount of the certificate value submitted for purchase is greater than 35 million dollars; the difference, if any, represents the amount of the tax credit certificate to be relinquished by the applicant, may not be carried-forward into a future period, and will not be eligible for purchase by the department in the current or any future period;

(6) sixth, determine the amount, if any, that may be carried forward into future periods by subtracting 70 million dollars from the amount of the original certificate value or portion of certificate applied for purchase in the current year; if the amount is less than or equal to zero then no amount may be carried forward.

(d) The calculations to be performed under paragraphs (c)(1) – (6) of this section are illustrated in the following example:

Example of Calculation of Credit Purchase Limit Under 15 AAC 55.525(c)						
Paragraph	Original Certificate Value	\$0 - \$35,000,000	\$50,000,000	\$50,000,000	\$70,000,000	\$100,000,000
	Amount of Application for Purchase	\$35,000,000	\$35,000,000	\$50,000,000	\$70,000,000	\$100,000,000
1	1st \$35 million at lesser of 100% of \$35 million or Original Certificate Value	\$35,000,000	\$35,000,000	\$35,000,000	\$35,000,000	\$35,000,000
2	Remaining Certificate Value	\$0	\$15,000,000	\$15,000,000	\$35,000,000	\$65,000,000
3	2nd \$35 million at lesser of 75% of \$35 million or Remaining Certificate Value	\$0	\$0	\$11,250,000	\$26,250,000	\$26,250,000
4	Amount of Tax Credit Certificate Eligible for Purchase in Current Year	\$35,000,000	\$35,000,000	\$46,250,000	\$61,250,000	\$61,250,000
5	Lesser of Applicable Credit Purchase Limit or Amount of Purchase Application	\$35,000,000	\$35,000,000	\$50,000,000	\$70,000,000	\$70,000,000
5	Amount of Tax Credit Certificate Relinquished and Not Eligible for Purchase	\$0	\$0	(\$3,750,000)	(\$8,750,000)	(\$8,750,000)
6	Amount Carried-Forward and Eligible for Purchase in Subsequent Period	\$0	\$15,000,000	\$0	\$0	\$30,000,000

(e) Subject to the limitations of AS 43.55 and this section,

(1) an applicant may request the purchase of the full amount of a tax credit certificate, or a portion of a certificate; in making an application for purchase, and if the amount of the total cash purchase requests for the year is greater than 35 million dollars, the applicant must identify, by year, the amount of the certificate for which a purchase request is being made;

(2) regardless of the amount of cash purchases for which an applicant might be eligible to receive in any calendar year, the amount of any cash payment, or sum of cash payments, may not exceed the credit purchase limit described in AS 43.55.028(e);

(3) a tax credit certificate, or portion of a tax credit certificate for which an application for purchase has not been made may be carried-forward into future periods and available for purchase in a subsequent year.

(f) The provisions of (e) of this section are illustrated in the following example:

Example: An explorer or producer is the holder of 105 million dollars of credit certificates and makes an application to the department for purchase of the certificates. In the application, the applicant designates that in year 1 the requested amount of purchase is 35 million dollars, in year 2 the requested amount of purchase is 35 million dollars, and in year 3 the requested amount of purchase is 35 million dollars. If, in years 1 and 2 there are not sufficient funds by which the department can purchase the certificates, but in year 3 there are funds available to purchase 100 million dollars of certificates, the payment to the applicant would be limited to 70 million dollars and the remaining 35 million dollars of certificates not purchased would carry-forward into the next calendar year and, if sufficient funds remain in the purchase account, the certificates may be purchased in the year into which the remaining balance was carried-forward.

(g) For the purposes of AS 43.55.028(g)(2), an applicant shall report the percentage of resident workers in its workforce, including direct contractors, to the department and shall retain information to substantiate that percentage for a period of three years following the purchase of the tax credit certificate. The applicant's report must include a narrative explanation and illustrative calculation describing how the reported percentage was quantified. Information that may be used to substantiate the reported percentage of resident workers may include documentation prepared or acquired in the ordinary course of business and compilations of employee data extracted from governmental tax, payroll, identity verification, or similar types of forms that are within the applicant's or its direct contractor's control or ability to acquire. The department may use all available data, including information from the Department of Labor and Workforce Development, to verify an applicant's claimed percentage of resident workers. A report under this subsection is subject to the following:

(1) for purposes of AS 43.55.028(g)(2) and this section, the percentage of resident workers in the "previous calendar year" means the percentage of resident workers as of December 31 of the year in which the work performed in connection with the applicant's expenditures allowed for the credit certificates claimed for the cash purchase under AS 43.55.028;

(2) if an applicant has more than 25 direct contractors, the applicant may contact the department to determine whether the applicant's expenditures for a particular direct contractor can be considered minor compared to expenditures for other direct contractors and excluded for purposes of determining the percentage of resident workers;

(3) if the department cannot verify an applicant's claimed percentage of resident workers, the department will notify the applicant and will assign the application a percentage

consistent with information available to the department; the department will use the assigned percentage for prioritizing the applicant's request for payment; if an applicant files an appeal regarding the applicant's percentage of resident workers, the applicant's percentage for payment prior to an appeal decision will be the percentage as determined by the department; otherwise, the percentage will be the amount as determined by the appeal decision.

(h) Subject to the provisions and limitations of AS 43.55.028 and this section

(1) applications for purchase of tax credit certificates received before January 1, 2017 will be paid before considering applications for purchase received on and after January 1, 2017;

(2) for each subsequent calendar year, all applications for purchase received from a prior year will be paid in accordance with the applicable statutes and provisions of this section prior to considering applications in that subsequent calendar year; applications will be prioritized based upon

(A) first, the year in which the application for purchase of the tax credit certificate or portion of the certificate was received; and

(B) second, the percentage of resident workers in the applicant's workforce;

(3) an application must include a certification that the explorer's or producer's operation in the state or its ownership of an interest in a lease or property in the state is not for the purpose of dividing a single entity into multiple explorer or producer entities for the purpose of increasing the amount tax credits that might be eligible for purchase in any calendar year that no entity, including affiliates may receive more than \$70 million in cash purchases;

(4) to be valid, an application must meet the requirements of AS 43.55.028(e)(1) - (5).

(i) If an applicant has an outstanding liability to the state the department may purchase only that portion of a certificate or pay only that portion of a refund that exceeds the outstanding liability, regardless of when that liability may have been incurred, prior to the department purchasing the tax credit certificate or portion of the certificate requested for purchase. If the purchase of a tax credit certificate or portion of a certificate has been reduced under AS 43.55.028(j) by the department making payment to another department to which an outstanding liability is owed and an applicant is successful in their appeal with that other department, then the applicant must seek reimbursement from that other department.

(j) An applicant may withdraw an application for purchase of a tax credit certificate at any time up to the point at which an application for purchase has been approved by the director of the tax division. An applicant may reapply for the purchase of a tax credit certificate that has been withdrawn by the applicant and, subject to the terms of this section, the new application will be ranked based on the filing date of the new application.

(k) Interest does not accrue with respect to any purchase of a tax credit certificate under AS 43.55.028(e). (Eff. 3/1/2017, Register 221)

**Editor's note:** The subject matter of 15 AAC 55.525 was formerly located at 15 AAC 55.325. The history note for 15 AAC 55.525 does not reflect the history of the earlier section.

15 AAC 55.800(a) is amended to read:

(a) **Except as otherwise provided in this section,** the [THE] following provisions apply retroactively to April 1, 2006, to oil and gas produced after March 31, 2006:

- (1) 15 AAC 55.192;
- (2) 15 AAC 55.205;
- (3) 15 AAC 55.215;
- (4) 15 AAC 55.223;
- (5) 15 AAC 55.245, as amended effective December 4, 2010;
- (6) 15 AAC 55.270, as amended effective December 4, 2010, except 15 AAC 55.270(a)(2)(C) and (e), which apply retroactively to July 1, 2007;
- (7) 15 AAC 55.275;
- (8) 15 AAC 55.280, as repealed and readopted effective December 4, 2010;
- (9) **15 AAC 55.290 – 15 AAC 55.315(a)** [15 AAC 55.290 - 15 AAC 55.315];
- (10) **15 AAC 55.335 – 15 AAC 55.340** [15 AAC 55.330 - 15 AAC 55.340];
- (11) 15 AAC 55.345 – 15 AAC 55.355, **except 15 AAC 55.351(d) and (e), as amended effective March 1, 2017;**
- (12) 15 AAC 55.370 – 15 AAC 55.380, **except 15 AAC 55.375(a) and (c), as amended effective March 1, 2017;**
- (13) 15 AAC 55.410, **except 15 AAC 55.410(c), as amended effective March 1, 2017;**
- (14) 15 AAC 55.420;

- (15) 15 AAC 55.430;
- (16) 15 AAC 55.440;
- (17) 15 AAC 55.510;
- (18) 15 AAC 55.810;
- (19) 15 AAC 55.850;
- (20) 15 AAC 55.900(a)(21) - (26) and (b)(21) - (25).

15 AAC 55.800(f) is amended to read:

(f) **Except as otherwise provided in this section,** the [THE] following provisions apply retroactively to July 1, 2007:

- (1) 15 AAC 55.181;
- (2) 15 AAC 55.193;
- (3) 15 AAC 55.197;
- (4) 15 AAC 55.206;
- (5) 15 AAC 55.224;
- (6) 15 AAC 55.341;
- (7) 15 AAC 55.381;
- (8) 15 AAC 55.421;
- (9) 15 AAC 55.431;
- (10) 15 AAC 55.511(a) - (d);
- (11) 15 AAC 55.900(b)(26) and (27).

15 AAC 55.800 is amended to add new subsections to read:

(k) The provisions of 15 AAC 55.206(b) and 15 AAC 55.224(d) as amended effective March 1, 2017, apply retroactively to January 1, 2017, and otherwise apply retroactively to July 1, 2007.

(l) The provisions of 15 AAC 55.330(a) – (b), 15 AAC 55.330(d), 15 AAC 55.335(e) – (g), and 15 AAC 55.440(b), as amended effective March 1, 2017, apply retroactively to January 1, 2017, and otherwise apply retroactively to April 1, 2006, for oil and gas produced after March 31, 2006.

(m) The following provisions apply retroactively to January 1, 2017:

- (1) 15 AAC 55.208;
- (2) 15 AAC 55.211(h), as amended effective March 1, 2017;
- (3) 15 AAC 55.211(i);
- (4) 15 AAC 55.212(j) – (l), as amended effective March 1, 2017;
- (5) 15 AAC 55.214;
- (6) 15 AAC 55.224(e) – (f);
- (7) 15 AAC 55.315(b);
- (8) 15 AAC 55.335(h);
- (9) 15 AAC 55.337;
- (10) 15 AAC 55.511(h);
- (11) 15 AAC 55.525;
- (12) 15 AAC 55.850(b), as amended effective March 1, 2017;
- (13) 15 AAC 55.850(c);
- (14) 15 AAC 55.900(a)(44) – (46);

(15) 15 AAC 55.900(b)(22), as amended effective March 1, 2017;

(16) 15 AAC 55.900(b)(28).

(n) The changes to 15 AAC 55.511(c)(2), as amended effective March 1, 2017, apply retroactively to January 1, 2014. (Eff. 5/3/2007, Register 182; am 10/21/2009, Register 192; am 2/27/2010, Register 193; am 4/30/2010, Register 194; am 12/4/2010, Register 196; am 3 / 1 / 2017, Register 221 )

<b>Authority:</b>	AS 43.05.080	Sec. 37, ch.2, TSSLA 2006	<u><b>Sec. 38, ch.4</b></u> <u><b>4SSLA 2016</b></u>
	AS 43.55.110	Sec. 72, ch. 1, SSSLA 2007	

15 AAC 55.850(b) is amended to read:

(b) As used in AS 43.55.028(e)(4) and (a) **and (c)** of this section, "average daily production of oil and gas" has the same meaning as "average amount of oil and gas produced a day" as used in AS 43.55.024(c).

15 AAC 55.850 is amended by adding a new subsection to read:

(c) Regardless of whether a producer is a municipal entity, a producer's average daily production of oil and gas taxable under AS 43.55.011(e) is calculated for purposes of AS 43.55.024(c) and 43.55.028(e)(4) using the total of all oil and gas produced from leases or properties in the state by the producer during the calendar year, excluding only oil and gas in which the federal government or the state has an ownership interest or the ownership or right to

which constitutes a landowner's royalty interest. (Eff. 5/3/2007, Register 182; am 10/21/2009, Register 192; am 3 / 1 / 2017, Register 221 )

**Authority:** AS 43.05.080 AS 43.55.028 AS 43.55.895  
AS 43.55.024 AS 43.55.110

15 AAC 55.900(a)(43) is amended to read:

(43) "oil and gas lease" has the meaning given in AS 43.55.900[.];

15 AAC 55.900(a) is amended to add the following new paragraphs:

(44) "municipal entity" has the meaning given in AS 43.55.895(c);

(45) "direct contractor" means a person, other than an employee of the applicant whose salaries and wages are considered a direct cost under AS 43.55.165, with whom an applicant under AS 43.55.028(g)(2) maintains a contractual relationship for work performed in connection with the applicant's major expenditures allowed for the credit certificates claimed for the cash purchase under AS 43.55.028.

(46) "workforce" means employees who are resident workers as well as employees who do not meet the definition of resident worker.

15 AAC 55.900(b)(22) is amended to read:

(22) "taxable under AS 43.55.011(e)," when used in reference to oil or gas or both, means produced from a lease or property in the state but excluding any oil and gas **in which the federal government or the state has an ownership interest** [THE OWNERSHIP OR RIGHT TO WHICH IS EXEMPT FROM TAXATION] or **the ownership or right to which** constitutes a landowner's royalty interest; **this paragraph does not apply to AS 43.55.895(b)**;

15 AAC 55.900(b) is amended by adding a new paragraph to read:

(28) "sells to another party," when used in reference to oil or gas of a producer that is a municipal entity under AS 43.55.895, means sells to a person other than the producer.
