RE: Title: **Dietician & Consulting Services**  
RFP Number: **20-17-103**  
Location: **Alaska**

**Amendment # 3**

The Department of Corrections (DOC) is issuing this Amendment to the above listed Solicitation to make changes as shown below. If you should have any questions or concerns please contact me (*email preferred*).

**CORRECTION:**

This amendment is issued to make a **correction to Amendment #1** see below:

The word "**develop**" in the REPLY below from Amendment # 1 has been removed from this REPLY, the contractor **will not** be required to develop menus but may be required to consult in the development of a "heart healthy diet", per the IRFP scope of work. It also corrects the word "**analysis**" which should read "**analyze**".

**AMENDMENT # 1 States:** Please clarify on the IRFP;

1. That the expectation is solely to develop menus and NOT develop the recipes to produce those menu items.

**REPLY:** The successful contractor will be required per the IRFP scope of work to **develop**, review, and **analysis** all menus provided or as requested and make recommendations for changes as needed or required. They **will not** have to develop the recipes that will be up to the food service managers at each facility or the DOC.

**All other terms and conditions remain unchanged.**
