This amendment addresses questions asked by potential bidders as of February 3, 2017. This amendment is for informational purposes only and need not be returned to the State.

1. **Question:** Do fire crews still use the loud hailer on the helicopters?

**Response:** Yes we still use and require the loud hailer. Lightweight options may be available to minimize the weight.

2. **Question:** With the satellite trackers in all of the helicopters do we still need a panel mounted Sat phone system or will a hand-held one suffice?

**Response:** Yes, we still need the Sat phone in addition to the AFF satellite tracking. The Sat phone can be panel mounted or a "hand held" as long as the hand-held can be integrated into the aircraft audio system and power supply and have an outside antenna.

3. This amendment is for informational purposes only and need not be returned to the State.
