Subject: correction of manifest clerical error, Alaska Dep't of Law regulations file JU2016200832
Attachments: 2-22-2017 correction of manifest error.pdf

I have included with this message, as a .pdf attachment, a correction to a manifest clerical error in some recently filed and transmitted Title 11 regulations from the Alaska Department of Natural Resources. Scott says the regulations were part of the transmittal that he sent out February 14. The Department of Law file number is JU2016200832. I made the correction at the lieutenant governor's office, to the original filed version. We will notify the cc's on my approval memorandum by separate e-mail message.

Please pardon any additional bother, and thank you,

documentation with the division. A forest landowner [and owner] in Region I shall file a regeneration report with the division and, if requested by the division, conduct a regeneration survey. A regeneration survey or alternative documentation must be conducted in a manner acceptable to the division. In an area reforested by natural regeneration, planting, or artificial seeding, a regeneration report shall be submitted within

(1) five years after timber harvest in Region I; a visual overview is acceptable in areas of obvious reforestation, however, the division may require a regeneration survey if the division determines the visual overview is inaccurate;

(2) seven years after the timber harvest in Region II or III, ^{lower case} If the period for ¹² natural regeneration is extended to twelve years under 11 AAC 95.375(d)(3), a regeneration report shall be submitted ⁶ ^{2/22/2017}

(A) within five years after the timber harvest to determine whether if the report shows deficiencies in reforestation, the division will direct the forest landowner to correct them; the reforestation requirements are likely to be met, and

(B) within twelve years after the timber harvest to document that the reforestation requirements ¹² standards have been met. ^{renewed the} If either report or field verification shows deficiencies in reforestation, the division will direct the forest landowner to correct them. (Eff.)
