We have reviewed the attached regulations from the State Board of Registration for Architects, Engineers, and Land Surveyors against the statutory standards of the Administrative Procedure Act. I have reviewed this project under a specific delegation dated April 21, 2017 from the Regulations Attorney. The regulations update requirements regarding architect, engineer, and land surveyor education, examination, and registration requirements and engineer registration by comity, and repeal requirements that merely duplicated what the National Council of Examiners for Engineering and Surveying (NCEES) already requires to allow applicants to sit for the fundamentals of engineering examination or fundamentals of land surveying examination.

We find no legal problems. This memorandum constitutes the written statement of approval under AS 44.62.060(b) and (c) that authorizes your office to file the attached regulations.

The December 21, 2016 public notice and the February 8, 2017 certification of adoption order both state that this action is not expected to require an increased appropriation. Therefore, a fiscal note under AS 44.62.195 is not required.

Agenda item 3 - Ethics reporting.

9:06 Chair: I attended the MBA, Member Board Administrators meeting in December and the California Board meeting on behalf of NCEES in December, and I was in Jefferson City, Missouri on behalf NCEES two weeks ago for a board visit and Sarena and I were both in Atlanta last weekend for the BPA forum for NCEES .

Maynard: I attended the UPLG meeting the first week of January in Panama City, Florida.

Urfer: I've been working with the Alaska chapter of the ASLA to help them get some information together in support of the sunset bill.

Note: Committee meetings are fully funded by the respective national organization and the individuals are representing their profession not the Board or State.

Agenda item 4 - Review and approve the August 2016 minutes.

9:08 On a motion duly made by Maynard, Seconded by Koonce and passed unanimously it was RESOLVED to approve the November 2016 minutes as amended. Chair abstained since he was not present at the last meeting.

1 The Chair recommended the Board skip to item 8 since we had 14 minutes before John Savage
2 would be calling in to give the Investigator's Report.

3
4 **Agenda item 8 - Regulation Updates**

5 Item A.: Regulation changes to 12 AAC 36.060, .061, .062, .063, .064, .065, .105, and .990.

6
7 Koonce states he made changes to the regulations right after the last meeting and gave to Sarena
8 who came back with some additional revisions.

9
10 Chair: These went out for public notice and we did not receive any comments. Oral comments
11 were not allowed.

12
13 **9: 11 On a motion duly made by Maynard, Seconded by Koonce and passed unanimously it**
14 **was RESOLVED to accept the regulation changes to 12 AAC 36.060, .061, .062, .063, .064,**
15 **.065, .105, and .990 as public noticed.**

16
17 Chair asks when these changes will be in effect.

18
19 Hackenmiller explains it will be 4 to 5 months before the regulations will be in effect.

20 R. Jones adds that it needs to go back through Law and will take effect 30 days after the Lt.

21 Governor signs it. Kerr adds that since the legislature is in town, it will most likely not be signed
22 until after session ends.

23
24 Item 8B: Chair explains this is just email related to Item A.

25
26 Item 8C: Chair asks for comments on the information provided regarding NCEES approval of FE/FS
27 Examinations.

28
29 Maynard says this is how we thought it would be. Applicants enters information and that they
30 attended an ABET accredited school and they don't check to see if they are 75% or graduated. They
31 (NCEES) take them at their word.

32
33 Chair: And we just repealed the eligibility for the FE, so now we can just go with NCEES. As soon as
34 regulation gets signed (and takes effect) we can go with auto approve right?

35
36 Maynard: Correct.

37
38 Item 8D: Regulation changes to broadly experienced architect.

39
40 Fritz: states at the last meeting Vern and I signed up to start working on a regulation project to try
41 to clarify the regulation relative to architect licensing by comity. There are some inconsistencies
42 that both Jeff and I experienced when trying to apply the non NCARB accredited credits and
43 evaluations and it has been rather frustrating to figure out who has met the requirements and who
44 has not. We did not work on any specific regulations together. Vern had contacted me and I wanted
45 to first get familiar with what NCARB was doing. NCARB has been working very hard to streamline
46 processes, simplify application procedures and make a clear path for all applicants. I knew they
47 were working on a new educational guideline and kept checking the website, leaving messages, and
48 emailing to find out the status because they said it would be rolled out in early 2017. Last night I
49 went on line and found the document that Sarena just handed out to everyone. Dated July 2016,
50 however it was just posted to the website recently.
