PO Box 110210
Juneau, Alaska 99811-0210

THIS IS NOT AN ORDER

DATE AMENDMENT ISSUED: September 25, 2017

RFI TITLE: TECHNOLOGY ARCHITECT ROADMAP

IMPORTANT NOTE TO OFFERORS: This amendment is being issued to answer question(s) received concerning the RFI.

Questions Received:

Q: What is the timeline for the roadmap?

A: **Unspecified. Responses should include possible approaches and the time needed to understand current-state and to map short, medium, and long-term future state.**

Q: Are you simply looking for a method of migrating the SOA systems to a centrally managed solution with a 4-5-year window, or are you looking for ways to introduce modern infrastructure statewide that will support mainstream cloud based and hybrid solutions that will operate at the speeds and feeds that they require to operate?

A: **OIT is looking for a roadmap that articulates the current-state and identifies opportunities to develop a more efficient future state can be used in allocating resources and making informed and strategic procurement decisions. Whether the roadmap identifies a set of centrally managed services or cloud/hybrid solutions, the focus should be on understanding where we are today and opportunities to provide core services better/faster/cheaper, in the short, medium, and long term.**

Q: Is it mandatory to respond on this RFI to become eligible for future RFP?

A: **No.**
