

**STATE OF ALASKA ITB NUMBER 2518N003**  
**AMENDMENT NUMBER 2**

Department of Transportation &  
Public Facilities  
2301 Peger Road  
Fairbanks, AK 99709

**THIS IS NOT AN ORDER**

**DATE AMENDMENT ISSUED: November 2, 2017**

**ITB TITLE: Dust Palliative - Rural Airports - Northern Region (Federally Funded)**

**Revised ITB OPENING DATE AND TIME: November 23, 2017 at 10:00 AM**

**This is a mandatory return amendment. Please sign & submit this prior to the bid opening. Failure to return this amendment may cause your bid to be determined non-responsive.**

This amendment makes the following changes:

1. This amendment changes the bid opening date from **November 9, 2017 to November 23, 2017.**
2. Please delete and replace Section 6 of the specifications (Page 14) with the below language:  
  
**6. Rate of Application:** The minimum rate of application shall be 1 gallon per 40 square feet for all products. Minimum application rates listed in this section are not assured by the Department to meet the performance testing requirements. The manufacturer shall be consulted for an appropriate application rate to ensure performance requirements can be met. If the contractor proposes any application rate lower than those identified above, a manufacturer's recommended application rate shall be submitted to the Supply Section (fax: 907-451-2313) at least 10 days before bid opening for approval prior to award of the contract. If an alternate application rate is approved, an addendum will be issued before bid opening. Submit the manufacturer's recommended application rate with supporting documentation showing how the new application rate was determined. The manufacturer's recommended application rate shall result in a design life matching the requirements listed in Section 2 above.
