

Notice of Pipeline Carrier Tariff Filing

The REGULATORY COMMISSION OF ALASKA (Commission) gives notice that Kenai Pipeline Company (KPL) filed TL33-306, a revenue requirement study based on a 2016 test year. With this filing, KPL requests rate increases, effective December 1, 2017. Should the Commission determine to suspend TL33-306, KPL has requested an interim rate, subject to refund, equal to the filed rates. The current and proposed transportation rates are shown below.

From	To	Current Rate	Proposed Rate
Plants near Sec. 34, T.8N., R.12W., Nikishka Bay, Cook Inlet	Pipelines of Others	\$0.0770/barrel	\$0.4904/barrel
Tank Trucks	Pipelines of Others	\$0.0300/barrel	\$0.4904/barrel
Receiving Crude Petroleum from Marine Tankers, Storing Crude Petroleum, and Delivering Crude Petroleum to Pipelines of Others		\$0.0590/barrel	\$0.4904/barrel
Loading Refined Petroleum Products Aboard Marine Vessels		\$0.0590/barrel	\$0.4904/barrel

With TL33-306, KPL proposes a rate restructuring to implement identical rates for all movements of both crude oil and refined products. KPL has requested a waiver of 3 AAC 48.275(h), the requirement that a cost-of-service study be filed if the proposed tariff revision includes a rate redesign, other than an across-the-board increase.

Finally, KPL is proposing to remove Section 2.16 (Adjustments for Gravity Differentials) from its tariff. KPL states that the gravity adjustment was applicable when there were multiple shippers moving varying qualities of crude oil through the common stream of KPL's system; however, it is no longer necessary because there is only one shipper.

This notice may not contain all requested revisions and the Commission may approve a rate or classification which varies from that proposed. You may obtain more information about this filing by contacting Anthony S. Guerriero, Attorney for KPL at 810 N Street, Suite 100, Ste. 1400, Anchorage, AK 99501; phone: (907) 258-2000.
