Proposal books were presented and the committee discussed our role in supporting decisions made in game management areas that are more statewide and not in our proximity. This was based on a vote we took at the last meeting with Todd Rinnaldi. One member brought up why we would vote to influence decisions that don't directly affect our upper Susitna AC.

The committee also discussed supporting proposals or submitting one of our own to the BOF before the April 10 deadline

Meeting adjourned at 6:40 pm.
