**Re: Department Miscellaneous Land Use Regulations
Opportunity to Comment on Proposed Regulations**

Dear Alaskan:

The Department of Natural Resources (DNR) is proposing to revise 11 AAC 96.020(a)(5)(A) to correct an error made in its previous revision of this regulation as part of its July 1, 2018 fee regulation revision. At that time DNR erroneously removed the word "recreational" from that regulation and added other conditional language. This proposed revision would reverse that change, replace the word "recreational" in that regulation, and remove the added conditional language. I am writing to explain the proposed regulation amendment, why we are proposing this regulation package now and how this action relates to the ongoing resource management process. I invite you to review and comment on these proposed regulations.

Why Do We Need These Regulations Now?

In 2018, DNR revised 11 AAC 96.020(a)(5)(A) as part of its overall fee regulations effort. The amendment to remove the word "recreational" from that regulation and added other conditional language was intended to ensure that any commercial use in excess of generally allowed uses listed in that section or 11 AAC 96.010, required a land use permit. However, as it currently reads, 11 AAC 96.020(a)(5)(A) now actually requires that ANY commercial use, no matter how small or incidental may require a land use permit. For example, a land surveyor or appraiser who simply wants to walk across state land to access a private property to perform a survey or appraisal would be required to obtain a land use permit from DNR. This is not consistent with the department's intent for that amendment of for generally allowed uses of state public domain lands. DNR is proposing to return the wording of this regulation as it read since 2000, and before the summer field season in 2019.

Opportunity for Comment.

Interested parties are encouraged to review the proposed regulations and submit any comments to DNR. Enclosed is the official "Notice of Proposed Changes in the Regulations of the Department of Natural Resources," which lists the specific areas and provides the details regarding the submission of public comment. You can view the proposed regulations on our websites at <http://www.dnr.state.ak.us/mlw/hottopics>.
