Re: LAS Application for Ice Pad Construction & Temporary Storage in Support of Seismic Operations.

Dear Becky,

SAExploration, In. (SAE) is submitting the attached Land Use Permit Application in support of our request for the issuance of a permit to support for ice pad construction and temporary storage to support our geophysical exploration operations on Alaska's North Slope. SAE understands based on your e-mail, that DMLW is attempting to standardize land use permits for the oil & gas industry on the North Slope and now requires an additional application and additional fees to support this effort.

SAExploration currently maintains a Corporate Surety Bond with the State of Alaska, as well as insurance as required by this application. Payment will be made online as instructed.

If you have any questions or concerns with this application, please contact me at 907-331-8140 or via e-mail at [ssimonds@saexploration.com](mailto:ssimonds@saexploration.com). I will be happy to assist you.

Sincerely,

A handwritten signature in dark ink, appearing to read "Sue Simonds", is written in a cursive style.
