

**STATE OF ALASKA ITB NUMBER 2520S044  
AMENDMENT NUMBER TWO**

***AMENDMENT ISSUING OFFICE:***

Department of Transportation & Public Facilities  
Statewide Contracting & Procurement  
P.O. Box 112500  
(3132 Channel Drive, Room 350)  
Juneau, Alaska 99811-2500

**THIS IS NOT AN ORDER**

**DATE AMENDMENT ISSUED: November 12, 2019**

**ITB TITLE: Brand Specific Liquid Corrosive Inhibitor Additives AMP & Boost™ SB**

**DUE DATE:** November 15, 2019 at 2:00 PM. Alaska Time

**This is not a mandatory return Amendment.**

Amendment number two (2) serves to:

- Provide answers to questions received

**Question #1**

We assume shipping costs are from Seattle AML to final destination?

**Answer #1**

The shipping origin location is a business decision to be made solely by the bidder.

**Question #2**

Regarding AMP and Boost™ Product Specifications, It is typical for ITB's for corrosion inhibitors to reference an organization specification / category such as the **Pacific North West Snowfighters / Clear Roads organization**. This organization has been around for decades and has categories for products like Boost. In this particular instance, this ITB for corrosion inhibitors could reference the inhibitor section of Inhibitors where A1, A2, and A3 would be sufficient to serve this ITB for corrosion inhibitor.

**Answer #2**

This solicitation is brand specific to AMP & Boost™ SB. AMP & Boost™ SB are the specifications to be used.

**Question #3**

I don't see enough information regarding the AMP Product. I see 20% or 4 to 1 product ratio but is that using AMP 75 or AMP 95 or Other?

**Answer #3**

The brand specific Liquid Corrosive Inhibitor Additives required for this solicitation are both manufactured by EnviroTech Services, Inc.

Proposals received after the Due Date and Time will be considered Non-responsive.
