(b) The bond must run to the benefit of the department, the Department of Law, or another person with a claim for relief because of a violation of AS 06.50 or this chapter by a licensee.

(c) The bond must provide that

(f) If the department receives notice of a final order of a court under (c) of this section or submits a final order of the department to the surety under (c) of this section, the department may require the deferred deposit advance licensee to file a new bond. The notice will inform the licensee of the effective date of the cancellation of the bond, that the deferred deposit advance license will be suspended under AS 06.50.300 on the effective date of cancellation, and that the licensee may retain the license if the licensee furnishes the department with an equivalent bond before the effective date of the cancellation.

Advance

The Department of Law has reviewed the attached regulations of the Department of Commerce, Community, and Economic Development against the statutory standards of the Administrative Procedure Act. Based upon our review, we find no legal problems. This memorandum constitutes the written statement of approval under AS 44.62.060(b) and (c) that authorizes your office to file the attached regulations. The regulations were adopted by the department after the close of the public comment period. The regulations concern deferred deposit advances (AS 06.50) and harmonize Alaska deferred deposit regulations with industry-standard Nationwide Multi-State Licensing System and Register (NMLS) forms and processes. NMLS was founded in 2008 by the Conference of State Bank Supervisors (CSBS) and the American Association of Residential Mortgage Regulators (AARMR). It began operations as a voluntary system among seven states cooperating to improve regulation of the mortgage and other non-depository industries through better supervision, streamlined licensing procedures, and enhanced consumer protection. The NMLS is now the system of record for non-depository, financial services licensing or registration in participating state agencies for 64 state or territorial governmental agencies. The NMLS itself does not grant or deny license authority.

In addition to harmonizing the application process with NMLS, these regulations allow persons to challenge information entered into the NMLS system,¹ provide bonding requirements for licensees,² incorporates consumer protection laws into the deferred

The August 1, 2019 public notice and the November 6, 2019 adoption order both state that this action is not expected to require an increased appropriation. Therefore, a fiscal note under AS 44.62.195 is not required.
