INSTRUCTIONS TO BIDDERS:

INVITATION TO BID (ITB) REVIEW: Bidders shall carefully review this ITB for defects and questionable or objectionable material. Bidders' comments concerning defects and questionable or objectionable material in the ITB must be made in writing and received by the purchasing authority at least ten (10) days before the bid opening date. This will allow time for an amendment to be issued if one is required. It will also help prevent the opening of a defective bid, upon which award cannot be made, and the resultant exposure of bidders' prices. Bidders' original comments should be sent to the purchasing authority listed on the front of this ITB.

BID FORMS: Bidders shall use this and attached forms in submitting bids. A photocopied bid may be submitted.

SUBMITTING BIDS: Envelopes containing bids must be sealed, marked, and addressed as shown in the example below. Do not put the ITB number and opening date on the envelope of a request for bid information. Envelopes with ITB numbers annotated on the outside will not be opened until the scheduled date and time.

Opening date: 2:01 pm (Alaska Time), Dec 26, 2019

ELECTRONIC BID SUBMISSION: Bids may be emailed to doc.procurement@alaska.gov, no later than the date and time listed on page one of this ITB as the deadline for receipt of bids, and must contain the ITB number in the subject line of the email. Emailed bids must be submitted as an attachment in PDF format. Please note that the **maximum** size of a single email (including all text and attachments) that can be received by the state is **20mb (megabytes)**. If the email containing the bid exceeds this size, the bid must be sent in multiple emails that are each less than 20 megabytes and each email must comply with the requirements described above. The state is not responsible for unreadable, corrupt, or missing attachments. It is the bidder's responsibility to contact the issuing office at (907) 465-8109 to confirm that the bid has been received. Failure to follow the above instructions may result in the bid being found non-responsive and rejected.

FAX BID SUBMISSION: Bids may be faxed to (907) 465-2006, no later than the date and time listed on page one of this ITB as the deadline for receipt of bids. It is the bidder's responsibility to contact the issuing office at (907) 465-8109 to make arrangements prior to faxing the bid and to confirm that the bid has been received. Failure to follow the above instructions may result in the bid being found non-responsive and rejected.

LATE BIDS: Late bids are bids received after the time and date set for receipt of the bids. Late bids will not be accepted.

BID PREPARATION COSTS: The State is not liable for any costs incurred by the bidder in bid preparation.

SAMPLES: If requested by the contract administrator, the bidder(s) will be required to submit samples of the items offered for inspection and evaluation. Failure to submit the samples or the state's rejection of the samples will constitute a failure to meet the ITB's specifications. An award will then be made to the next low bidder.

PRICES: The bidder shall state prices in the units of issue on this ITB. Prices quoted for commodities must be in U.S. funds and include applicable federal duty, brokerage fees, packaging, and transportation cost to the FOB point so that upon transfer of title the commodity can be utilized without further cost. Prices quoted for services must be quoted in U.S. funds and include applicable federal duty, brokerage fee, packaging, and transportation cost so that the services can be provided without further cost. Prices quoted in bids must be exclusive of federal, state, and local taxes. If the bidder believes that certain taxes are payable by the State, the bidder may list such taxes separately, directly below the bid price for the affected item. The State is exempt from Federal Excise Tax except the following:

- Coal - Internal Revenue Code of 1986 (IRC), Section 4121 - on the purchase of coal;
- "Gas Guzzler" - IRC, Section 4064 - on the purchase of low m.p.g. automobiles, except that police and other emergency type vehicles are not subject to the tax;
- Air Cargo - IRC, Section 4271 - on the purchase of property transportation services by air;
- Air Passenger - IRC, Section 4261 - on the purchase of passenger transportation services by air carriers.
- Leaking Underground Storage Tank Trust Fund Tax (LUST) - IRC, Section 4081 - on the purchase of Aviation gasoline, Diesel Fuel, Gasoline, and Kerosene.

EXTENSION OF PRICES: In case of error in the extension of prices in the bid, the unit prices will govern; in a lot bid, the lot prices will govern.

QUESTION PERIOD: Bidders will be permitted to contact the contract administrator to answer questions regarding the ITB up until **December 18, 2019**. Any questions sent after this time period will not be furnished a response.

NOTICE OF INTENT TO AWARD: After the responses to this ITB have been opened and evaluated, a tabulation of the bids will be prepared. This tabulation, called a Notice of Intent to Award, serves two purposes. It lists the name of each company or person that offered a bid and the price they bid. It also provides notice of the state's intent to award a contract(s) to the bidder(s) indicated. A copy of the Notice of Intent will be mailed to each company or person who responded to the ITB. Bidders identified as the apparent low responsive bidders are instructed not to proceed until a Purchase Order, Contract Award, Lease, or some other form of written notice is given by the contracting officer. A company or person who proceeds prior to receiving a Purchase Order, Contract Award, Lease, or some other form of written notice from the contracting officer does so without a contract and at their own risk.

METHOD OF AWARD: Award will be made to the lowest responsive and responsible bidder. In order to be considered responsive, bidders must bid on all items within each lot presented by this ITB.

FILING A PROTEST: A bidder may protest the award of a contract or the proposed award of a contract for supplies, services, or professional services. The protest must be filed in writing and include the following information: (1) the name, address, and telephone number of the protester; (2) the signature of the protester or the protester's representative; (3) identification of the contracting agency and the solicitation or contract at issue; (4) a detailed statement of the legal and factual grounds of the protest, including copies of relevant documents; and (5) the form of relief requested. Protests will be treated in accordance with Alaska Statutes (AS) 36.30.560- 36.30.610.

SUPPORTING INFORMATION: The state strongly desires that bidders submit all required technical, specification, and other supporting information with their bid, so that a detailed analysis and determination can be made by the contracting officer that the product offered meets the ITB specifications and that other requirements of the ITB have been met. However, provided a bid meets the requirements for a definite, firm, unqualified, and unconditional offer, the state reserves the right to request supplemental information from the bidder, after the bids have been opened, to ensure that the products offered completely meet the ITB requirements. The requirement for such supplemental information will be at the reasonable discretion of the state and may include the requirement that a bidder will provide a sample product(s) so that the state can make a first-hand examination and determination.

A bidder's failure to provide this supplemental information or the product sample(s), within the time set by the state, will cause the state to consider the offer non-responsive and reject the bid.

BRAND AND MODEL OFFERED: Unless otherwise specified, when brand names and model numbers are used to specify the type and quality of the goods desired, bidders must clearly indicate the brand names and model numbers they intend to provide. The bidder's failure to identify the brand and model offered will cause the state to consider the offer non-responsive and reject the bid.

FIRM, UNQUALIFIED AND UNCONDITIONAL OFFER: Bidders must provide enough information with their bid to constitute a definite, firm, unqualified and unconditional offer. To be responsive a bid must constitute a definite, firm, unqualified and unconditional offer to meet all of the material terms of the ITB. Material terms are those that could affect the price, quantity, quality, or delivery. Also included as material terms are those which are clearly identified in the ITB and which, for reasons of policy, must be complied with at risk of bid rejection for non-responsiveness.

VENDOR TAX ID NUMBER: If goods or services procured through this ITB are of a type that is required to be included on a Miscellaneous Tax Statement, as described in the Internal Revenue Code, a valid tax identification number must be provided to the State of Alaska before payment will be made.

ANNOTATED LITERATURE: Bidders must annotate their product literature to identify for the state the location of the supporting information regarding each product specification set out in this ITB. A bidder's failure to comply with this clause, within the time set by the state, will cause the state to consider the offer non-responsive and reject the bid.

CONTRACT INTENT: This Invitation to Bid (ITB) is intended to result in a mandatory use contract to provide the Department of Corrections with correction grade inmate mattresses, replacement mattress covers, and pillows at various locations on an as needed basis.

CONTRACT PERIOD: From date of award through **January 31, 2021**, with the option to renew for three (3) additional one-year periods under the same terms and conditions as the original contract. Renewals to be exercised solely by the State.

CONTRACT EXTENSION: Unless otherwise provided in this ITB, the State and the successful bidder/contractor agree: (1) that any holding over of the contract excluding any exercised renewal options, will be considered as a month-to-month extension, and all other terms and conditions shall remain in full force and effect and (2) to provide written notice to the other party of the intent to cancel such month-to-month extension at least thirty (30) days before the desired date of cancellation.

CONTRACT FUNDING: Bidders are advised that funds are available for the initial purchase and/or the first term of the contract. Payment and performance obligations for succeeding purchases and/or additional terms of the contract are subject to the availability and appropriation of funds.

CONTRACT ADMINISTRATION: The administration of this contract is the responsibility of:

CONTRACT PERFORMANCE LOCATION: By signature on their bid, the bidder certifies that all services provided under this contract by the contractor and all subcontractors shall be performed in the United States.

If the bidder cannot certify that all work will be performed in the United States, the bidder must contact the procurement officer in writing to request a waiver at least 10 days prior to the deadline for receipt of bids.

The request must include a detailed description of the portion of work that will be performed outside the United States, where, by whom, and the reason the waiver is necessary.

Failure to comply with these requirements may cause the state to reject the bid as non-responsive or cancel the contract.

CONDITIONS:

- 1. AUTHORITY:** This ITB is written in accordance with AS 36.30 and 2 AAC 12.
- 2. COMPLIANCE:** In the performance of a contract that results from this ITB, the contractor must comply with all applicable federal, state, and borough regulations, codes, and laws; be liable for all required insurance, licenses, permits and bonds; and pay all applicable federal, state, and borough taxes.
- 3. SUITABLE MATERIALS, ETC.:** Unless otherwise specified, all materials, supplies or equipment offered by a bidder shall be new, unused, and of the latest edition, version, model or crop and of recent manufacture. Material quality must also meet adequate standards of what is to be expected from the description in this ITB.
- 4. SPECIFICATIONS:** Unless otherwise specified in the ITB, product brand names or model numbers specified in this ITB are examples of the type and quality of product required and are not statements of preference. If the specifications describing an item conflict with a brand name or model number describing the item, the specifications govern. Reference to brand name or number does not preclude an offer of a comparable or better product, if full specifications and descriptive literature are provided for the product. Failure to provide such specifications and descriptive literature may be cause for rejection of the offer.
- 5. FIRM OFFER:** For the purpose of award, offers made in accordance with this ITB must be good and firm for a period of ninety (90) days from the date of bid opening.
- 6. CONSOLIDATION OF AWARDS:** Due to high administrative costs associated with processing of purchase orders, a single low bid of \$50 or less may, at the discretion of the State, be awarded to the next low bidder receiving other awards for consolidation purposes. This paragraph is not subject to the protest terms enumerated in "INSTRUCTION TO BIDDERS", "FILING A PROTEST" above.
- 7. CONFLICT OF INTEREST:** An officer or employee of the State of Alaska may not seek to acquire, be a party to, or possess a financial interest in this contract if (1) the officer or employee is an employee of the administrative unit that supervises the award of this contract; or (2) the officer or employee has the power to take or withhold official action so as to affect the award or execution of the contract.
- 8. ASSIGNMENT(S):** Assignment of rights, duties, or payments under a contract resulting from this ITB is not permitted unless authorized in writing by the procurement officer of the contracting agency. Bids that are conditioned upon the State's approval of an assignment will be rejected as nonresponsive.
- 9. SUBCONTRACTOR(S):** Within five (5) working days of notice from the state, the apparent low bidder must submit a list of the subcontractors that will be used in the performance of the contract. The list must include the name of each subcontractor and the location of the place of business for each subcontractor and evidence of each subcontractor's valid Alaska business license.
- 10. FORCE MAJEURE (Impossibility to perform):** The parties to a contract resulting from this ITB are not liable for the consequences of any failure to perform, or default in performing, any of its obligations under the contract, if that failure or default is caused by any unforeseeable Force Majeure, beyond the control of, and without the fault or negligence of, the respective party. For the purposes of this ITB, Force Majeure will mean war (whether declared or not); revolution; invasion; insurrection; riot; civil commotion; sabotage; military or usurped power; lightning; explosion; fire; storm; drought; flood; earthquake; epidemic; quarantine; strikes; acts or restraints of governmental authorities affecting the project or directly or indirectly prohibiting or restricting the furnishing or use of materials or labor required; inability to secure materials, machinery, equipment or labor because of priority, allocation or other regulations of any governmental authorities.
- 11. DEFAULT:** In case of default by the contractor, for any reason whatsoever, the State of Alaska may procure the goods or services from another source and hold the contractor responsible for any resulting excess cost and may seek other remedies under law or equity.
- 12. DISPUTES:** If a contractor has a claim arising in connection with a contract resulting from this ITB that it cannot resolve with the State by mutual agreement, it shall pursue a claim, if at all, in accordance with the provisions of AS 36.30.620 – 632.
- 13. CONSUMER ELECTRICAL PRODUCT:** AS 45.45.910 requires that "...a person may not sell, offer to sell, or otherwise transfer in the course of the person's business a consumer electrical product that is manufactured after August 14, 1990, unless the product is clearly marked as being listed by an approved third party certification program." Electrical consumer products manufactured before August 14, 1990, must either be clearly marked as being third party certified or be marked with a warning label that complies with AS 45.45.910(e). Even exempted electrical products must be marked with the warning label. By signature on this bid the bidder certifies that the product offered is in compliance with the law. A list of approved third-party certifiers, warning labels and additional information is available from: Department of Labor and Workforce Development, Labor Standards & Safety Division, Mechanical Inspection Section, P.O. Box 107020, Anchorage, Alaska 99510- 7020, (907)269-4925.
- 14. SEVERABILITY:** If any provision of the contract is declared by a court to be illegal or in conflict with any law, the validity of the remaining terms and provisions will not be affected; and, the rights and obligations of the parties will be construed and enforced as if the contract did not contain the particular provision held to be invalid.
- 15. GOVERNING LAW; FORUM SELECTION:** A contract resulting from this ITB is governed by the laws of the State of Alaska. To the extent not otherwise governed by section 12 of these Standard Terms and Conditions, any claim concerning the contract shall be brought only in the Superior Court of the State of Alaska and not elsewhere.
- 16. ORDER DOCUMENTS:** Except as specifically allowed under this ITB, an ordering agency will not sign any vendor contract. The State is not bound by a vendor contract signed by a person who is not specifically authorized to sign for the State under this ITB. The State of Alaska Purchase Order, Contract Award and Delivery Order are the only order documents that may be used to place orders against the contract(s) resulting from this ITB.
- 17. BILLING INSTRUCTIONS:** Invoices must be billed to the ordering agency's address shown on the individual Purchase Order, Contract Award or Delivery

Order, not to the Division of General Services. The ordering agency will make payment after it receives the merchandise or service and the invoice. Questions concerning payment must be addressed to the ordering agency.

18. CONTINUING OBLIGATION OF CONTRACTOR: Notwithstanding the expiration date of a contract resulting from this ITB, the contractor is obligated to fulfill its responsibilities until warranty, guarantee, maintenance and parts availability requirements have completely expired.

19. HUMAN TRAFFICKING: By signature on their bid, the bidder certifies that the bidder is not established and headquartered or incorporated and headquartered in a country recognized as Tier 3 in the most recent United States Department of State's Trafficking in Persons Report.

The most recent United States Department of State's Trafficking in Persons Report can be found at the following website: <http://www.state.gov/g/tip/>

Failure to comply with this requirement will cause the state to reject the bid as non-responsive or cancel the contract

20. DELIVERY: **The contractor shall assure complete delivery of all items within 45 days after receiving an order.** Indicate, in the space provided under "Bid Schedule", the time required to make delivery after the receipt of an order. Failure to declare delivery time in this manner indicates that the Contractor will adhere to the above statement regarding delivery. Any amount of time in excess of the above statement will not be considered a responsive or responsible bid.

21. DELIVERY TIME: The elapsed time between the time the state places an order and the time that order is actually shipped from the contractor's place of business must be entered in the space provided under "BID SCHEDULE". This processing time is to remain constant throughout the life of the contract.

22. DELIVERY CONFIRMATION: Bidders must obtain a confirmation from the manufacturer that the items offered are scheduled for production in sufficient time to meet the scheduled delivery dates. A copy of the manufacturer's confirmation may be included with the bid or submitted within 10 days of the state's request. The bidder's failure to provide the manufacturers confirmation as required will cause the state to consider the bid non-responsive and reject the bid.

23. ADVANCED NOTICE OF DELIVERY: The contractor must notify the freight company that delivers the order that the state facility receiving the order requires 24 hours advance notice of delivery.

24. SHIPPING COST: The cost of shipping and delivery to the final destination shall be included in the bid price. There will be no additional charges for shipping, handling, or delivery upon receipt of goods.

25. SHIPPING DAMAGE: The State will not accept or pay for damaged goods. The contractor must file all claims against the carrier(s) for damages incurred to items in transit from the point of origin to the ultimate destination. The State will provide the contractor with written notice when damaged goods are received. The State will deduct the cost of the damaged goods from the invoice prior to payment. The contractor must file all claims against the carrier(s) for reimbursement of the loss.

26. DELIVERY ARRANGEMENTS: It shall be the responsibility of the contractor to make all final destination delivery arrangements.

27. DELIVERY HOURS: The contractor shall notify carriers that deliveries must be completed during the hours of 8 :00 a.m. - 4:00 p.m. Monday through Friday unless otherwise stated on the order. If the contractor fails to notify the carrier of delivery hours, overtime or extra labor costs accruing to the Institutions in receiving and storing after hours deliveries shall be billed to the contractor.

28. F.O.B. POINT: The F.O.B. point for all items purchased under this contract is the final destination inside the State Correctional Facilities that requested the order. Correctional facilities are located in Anchorage, Eagle River, Mat-Su Valley (Palmer, Wasilla), Bethel, Fairbanks, Juneau, Kenai, Ketchikan, Nome, and Seward, Alaska. Ownership of and title to the ordered items remains with the contractor until the items have been delivered to their final destination and are accepted by the State. The State reserves the right to add additional locations whenever required.

29. SITE INSPECTION: Bidders are encouraged to visit the work site so that they can see the conditions under which the work described in this ITB will be performed. The bidder's failure to visit the work site will in no way relieve the bidder of the responsibility of performing the work in strict compliance with the true intent and meaning of the terms, conditions and specifications of this ITB. Each site may be inspected by contacting the Contracting Officer, telephone number (907) 465-8109, who will arrange site visits. The site contact person is only empowered to allow bidders to view the work site. Any questions the bidders have must be directed to the contracting officer named on the front page of this ITB. The contact person cannot and will not answer bidder questions regarding the work to be performed under this ITB or the terms, conditions and specifications of this ITB.

30. INVENTORY: Contractor must maintain a sufficient inventory to supply the needs of the State agency.

31. INVOICES: Invoices must be sent directly to the ordering agency's address shown on the individual Purchase Order, Contract Award or Delivery Order. The ordering agency will only make payment after it receives the merchandise or service and the invoice. Questions concerning payment must be addressed to the ordering institutions.

32. PACKAGING: The cost of all packaging must be included in the price bid. All packaging must be new and suitable for shipment and short-term warehouse storage.

33. PAYMENT FOR STATE PURCHASES: Payment for agreements under \$500,000 for the undisputed purchase of goods or services provided to a state agency, will be made within 30 days of the receipt of a proper billing or the delivery of the goods or services to the location(s) specified in the agreement, whichever is later. A late payment is subject to 1.5% interest per month on the unpaid balance. Interest will not be paid if there is a dispute or if there is an agreement that establishes a lower interest rate or precludes the charging of interest.

Prompt Payment for State Purchases

The state is eligible to receive a 5% discount for all invoices paid within 15 business days from the date of receipt of the commodities or services and/or a correct invoice, whichever is later. The discount shall be taken on the full invoice amount. The state shall consider payment being made as either the date a printed warrant is issued or the date an electronic funds transfer (EFT) is initiated

34. PRICE ADJUSTMENTS: Contract prices are to remain firm through January 31, 2021. If the contract is renewed, the prices may be adjusted. Annually beginning February 1, 2021, the contractor may request price adjustments. Requests must be made in writing and must be received thirty (30) days prior to an adjustment. If a contractor fails to request a price adjustment 30 days before the annual date of January 1st, the adjustment will take effect 30 days after the adjustment has been evaluated and confirmed by the procurement officer. Price adjustments will be made in accordance with the percentage change in the U.S. Department of Labor Producer Price Index (PPI), Commodity Group: Furniture and Household Durables, Item: Mattresses, other types, etc., Series ID WPU12140114. The percentage difference between the PPI issued for March 2019 of 213.3 and the PPI issued for January of each Contract Term will be used to determine the maximum allowable adjustment of the contract prices. No retroactive contract price adjustments will be allowed.

The information for PPI may be found at the following website: <https://data.bls.gov/PDQWeb/wp>

If there are extraordinary circumstances that warrant a price review beyond what is allowable by the change in PPI, the contractor must provide sufficient evidence to the contract administrator or the procurement officer to prove that the increase will not result in an increase in margin for the contractor. This determination will be made solely at the discretion of the State.

35. PRICE DECREASES: During the period of the contract all price decreases experienced by the contractor must be passed on to the State. A contractor's failure to strictly and faithfully adhere to this clause, within the time required, will be considered in breach of contract. This clause includes decreases in PPI as well as any other cost decreases that the contractor may experience during the contract period.

36. INDEMNIFICATION: The contractor shall indemnify, hold harmless, and defend the contracting agency from and against any claim of, or liability for error, omission or negligent act of the contractor under this agreement. The contractor shall not be required to indemnify the contracting agency for a claim of, or liability for, the independent negligence of the contracting agency. If there is a claim of, or liability for, the joint negligent error or omission of the contractor and the independent negligence of the Contracting agency, the indemnification and hold harmless obligation shall be apportioned on a comparative fault basis. "Contractor" and "Contracting agency", as used within this and the following article, include the employees, agents and other contractors who are directly responsible, respectively, to each. The term "independent negligence" is negligence other than in the Contracting agency's selection, administration, monitoring, or controlling of the contractor and in approving or accepting the contractor's work.

37. INSURANCE: Without limiting contractor's indemnification, it is agreed that contractor shall purchase at its own expense and maintain in force at all times during the performance of services under this agreement the following policies of insurance. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the contractor's policy contains higher limits, the state shall be entitled to coverage to the extent of such higher limits. Certificates of Insurance must be furnished to the contracting officer prior to beginning work and must provide for a notice of cancellation, non-renewal, or material change of conditions in accordance with policy provisions. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach of this contract and shall be grounds for termination of the contractor's services. All insurance policies shall comply with and be issued by insurers licensed to transact the business of insurance under AS 21.

Proof of insurance is required for the following:

Workers' Compensation Insurance: The contractor shall provide and maintain, for all employees engaged in work under this contract, coverage as required by AS 23.30.045, and; where applicable, any other statutory obligations including but not limited to Federal U.S.L. & H. and Jones Act requirements. The policy must waive subrogation against the state.

Commercial General Liability Insurance: covering all business premises and operations used by the contractor in the performance of services under this agreement with minimum coverage limits of \$300,000 combined single limit per occurrence.

Commercial Automobile Liability Insurance: covering all vehicles used by the contractor in the performance of services under this agreement with minimum coverage limits of \$300,000 combined single limit per occurrence.

Failure to supply satisfactory proof of insurance within the time required will cause the state to declare the bidder non-responsible and to reject the bid.

38. DISCONTINUED ITEMS: In the event that an item is discontinued by the manufacturer during the contract period, another item may be substituted provided that the Contracting Officer makes a written determination that it is equal to, or of a higher quality than the discontinued item and provided that it is sold at a price that is the same or less.

39. ADDITIONS AND DELETIONS OF INDIVIDUAL LINE ITEMS IN THE CONTRACT: Additions and deletions of individual line items shall not be made without the expressed written approval of the Contracting Officer.

40. ALTERATIONS: The contractor must obtain written approval from the Contracting Officer prior to making any alterations to the specifications contained in this ITB. The State will not compensate the contractor if alterations are made without the approval of the Contracting Officer, in writing.

41. ITEM UPGRADES: The state reserves the right to accept upgrades to models on the basic contract when the upgrades improve the way the equipment operates or improve the accuracy of the equipment. Such upgraded items must be at the same price as the items in the basic contract.

42. REQUIRED REPORTS: The contractor(s) shall also furnish the State with quarterly reports during the term of the contract and any extension periods. Reports shall be submitted to the Contracting Officer within thirty (30) days of the end of the quarter.

*	First Quarter Report Due:	March 31
*	Second Quarter Report Due:	June 30
*	Third Quarter Report Due:	September 30
*	Fourth Quarter Report Due:	December 31

Reports shall list for each facility the total quantity and dollar volume of each contract line item purchased under any contract resulting from this bid.

43. THIRD-PARTY FINANCING AGREEMENTS NOT ALLOWED: Because of the additional administrative and accounting time required of state agencies when third party financing agreements are permitted, they will not be allowed under this contract.

44. CONTINUING OBLIGATION OF CONTRACTOR: Regardless of the terms and conditions of any third-party financing agreement, the contractor agrees that none of its responsibilities under this contract are transferable and that the contractor alone will continue to be solely responsible until the expiration date of the contract. Such responsibilities include, but are not limited to, the provision of equipment, training, service, maintenance, parts and the provision of consumable supplies. By signature on the face page of this ITB the bidder acknowledges this requirement and indicates unconditional acceptance of this continuing obligation clause.

45. ESTIMATED QUANTITIES: The quantities referenced in this ITB are the state's estimated requirements and may vary more or less from the quantities actually purchased. The state does not guarantee any minimum purchase. Orders will be issued throughout the contract period on an as-needed basis.

46. SERVICE CONTRACT DEFICIENCIES: The contractor's failure to provide a service required by this contract will be grounds for the state to issue a Service Deficiency Claim (SDC) to the contractor. The SDC will be provided to the contractor in writing. The contractor will advise the state, in writing, of the corrective action being taken.

If a deficiency is not corrected within 5 working days from the time it is issued, the state may issue another SDC and procure, from another contractor, the services necessary to correct the problem. The contractor will then be obligated to reimburse the state for the amount required to correct the problem.

If a contractor gets more than two substantiated SDCs in a 30-day period or a total of five substantiated SDCs in a 60-day period, it will be grounds for the state to declare the contractor in default.

47. NONDISCLOSURE AND CONFIDENTIALITY: Contractor agrees that all confidential information shall be used only for purposes of providing the deliverables and performing the services specified herein and shall not disseminate or allow dissemination of confidential information except as provided for in this section. The contractor shall hold as confidential and will use reasonable care (including both facility physical security and electronic security) to prevent unauthorized access by, storage, disclosure, publication, dissemination to and/or use by third parties of, the confidential information. "Reasonable care" means compliance by the contractor with all applicable federal and state law, including the Social Security Act and HIPAA. The contractor must promptly notify the state in writing if it becomes aware of any storage, disclosure, loss, unauthorized access to or use of the confidential information.

Confidential information, as used herein, means any data, files, software, information or materials (whether prepared by the state or its agents or advisors) in oral, electronic, tangible or intangible form and however stored, compiled or memorialized that is classified confidential as defined by State of Alaska classification and categorization guidelines (i) provided by the state to the contractor or a contractor agent or otherwise made available to the contractor or a contractor agent in connection with this contract, or (ii) acquired, obtained or learned by the contractor or a contractor agent in the performance of this contract. Examples of confidential information include, but are not limited to: technology infrastructure, architecture, financial data, trade secrets, equipment specifications, user lists, passwords, research data, and technology data (infrastructure, architecture, operating systems, security tools, IP addresses, etc).

If confidential information is requested to be disclosed by the contractor pursuant to a request received by a third party and such disclosure of the confidential information is required under applicable state or federal law, regulation, governmental or regulatory authority, the contractor may disclose the confidential information after providing the state with written notice of the requested disclosure (to the extent such notice to the state is permitted by applicable law) and giving the state opportunity to review the request. If the contractor receives no objection from the state, it may release the confidential information within 30 days. Notice of the requested disclosure of confidential information by the contractor must be provided to the state within a reasonable time after the contractor's receipt of notice of the requested disclosure and, upon request of the state, shall seek to obtain legal protection from the release of the confidential information.

The following information shall not be considered confidential information: information previously known to be public information when received from the other party; information freely available to the general public; information which now is or hereafter becomes publicly known by other than a breach of confidentiality hereof; or information which is disclosed by a party pursuant to subpoena or other legal process and which as a result becomes lawfully obtainable by the general public.

However, in order to receive the Alaska Bidder Preference and other related preferences, such as the Alaska Veteran and Alaskans with Disabilities Preference, a bidder must hold a valid Alaska business license at the time designated for bid opening. SECURITY SPECIFICATIONS

VEHICLE AND PERSONNEL CHECKS REQUIRED: All vehicles and personnel will be subject to identification and/or search in accordance with State law. No weapons, drugs, alcoholic beverages, or other items considered contraband will be permitted inside institution boundaries. Violators will be subject to prosecution under State law. Contractor will ensure that only licensed drivers shall make deliveries.

SECURITY: Security at all Alaska correctional facilities is the first priority. Contractors can expect delays in conducting business within the facility and/or its grounds. "Contractor" is defined as: delivery personnel, couriers, or service providers. Prisoner counts, emergencies of any type, prisoner movement, other deliveries, or other factors may delay or restrict contractor entry or movement within the perimeter. Security staff will facilitate contractors in conducting their business, but contractors must at all times respect security staff instructions. Contractors must follow all lawful instructions and directives of any staff member while on facility grounds. The State will at all times retain the exclusive right to restrict contractor access to the facility, or portions of the facility, for any reason.

Contractors must at all times have in their possession a valid Alaska Driver's License or State provided identification card and be prepared to provide it to any staff whenever requested. Contractors must never leave their tools or personal effects unattended or unsecured. Knives, cellular telephones, toxic/hazardous chemicals, alcohol, tobacco, drugs and paraphernalia, weapons of any kind, and explosives are prohibited at all times. All other items (i.e. tools, repair parts, cameras, paperwork, boxes) entering the facility are subject to inspection and must be approved by security staff. Contractor tools and other items may be inventoried upon entering and exiting the facility. Giving prisoners access to driver's licenses, credit cards, telephone numbers, family pictures, etc. is a breach of security. Contractors must fully cooperate with facility staff to prevent escape, sabotage, assault, any disturbance, or the importation of contraband. There is no confidentiality when it comes to security at one of the correctional facilities. Information regarding impending riots, escape plans, assaults, and other such matters that come to you in what would otherwise be considered a confidential exchange must be passed on to security staff immediately. To withhold information such as this could endanger you and others as well as lead to criminal charges. Nothing within this section limits a specific facility's superintendent or security staff member from modifying or imposing alternate security requirements for contractors and their staff.

SECURITY CHECK: All personnel (both contractor and subcontractors) will be required to undergo a security check prior to commencement of work. A mandatory security briefing will be provided to the contractor staff prior to start of on-site work.

1. The contractor will complete a Request for Clearance form to submit to the facility security staff for review at least 48 hours prior to commencement of work. The form requires the following information from each person working on site:
 - a. Full name.
 - b. Residence address.
 - c. Telephone number.
 - d. Date of birth.
 - e. Social Security Number (SSN).
 - f. Valid driver's license and state of issue, or other photo identification bearing SSN.
 - g. The name(s) of any relatives, friends, or acquaintances that are currently incarcerated within the facility.
2. The security check will look for recent or frequent past convictions or for outstanding warrants. Security staff reserve the right to disqualify anyone from access to the work site. A past conviction will not automatically disqualify.
3. Once a Request for Clearance has been approved and is on file, it is not necessary for the contractor to complete a new form each time they request to enter the facility grounds. The form can be found within this ITB on page #14.

PERSONNEL ACCESS:

1. Access to the worksite, which is within a correctional facility, will be monitored and controlled by the Department of Corrections in order to prevent importation of contraband and escape of inmates. At no time will contractor staff enter areas of the facility that are off-limits to them, nor drive vehicles along the perimeter fence or other unauthorized areas unless directed to do so by security staff.
2. Contractor staff will report to the visitor's reception area at the beginning of each shift to obtain their identification badge or visitor badge and sign in on the contractor's log. At the end of each shift, contractor staff will return their badges to this area and sign out of the contractor's log. If workers leave the compound at lunch, they will all leave at the same time. Contractors should encourage their staff to bring a lunch and to eat within the designated work area or cafeteria.
3. Contractors, subcontractors, and employees may be denied access or be removed from the facility for the following reasons:
 - a. Contractors or workers that are incompetent, careless, or otherwise detrimental to the work or the security of the facility.
 - b. Security requirements.

Revised 07/16

- c. Disruptive, abrasive, and/or argumentative conduct.
- d. Being under the influence of alcohol, drugs and/or any substance that is considered contraband by the facility (including use of tobacco products).
- e. Refusal to submit to search of personal property/belongings or themselves.
- f. Health problems.
- g. Failure to show proper identification.
- h. Failure to follow direction of Correctional Officers and/or staff members.
- i. Having any unauthorized contact or interaction with inmates.
- j. Failure to pass security check.
- k. Failure to secure tools and work areas (if no personnel are physically present in the work area, the work area and/or tools must be secured prior to leaving the area).

VEHICLE ACCESS:

- 1. No privately-owned vehicles may enter inside the security fence without approval of the DOC on-site security staff member. Contractor vehicles can be parked in the employee/visitor parking lot outside the security fence and must be locked at all times.
- 2. Authorized work vehicles, i.e. job site trailers and trucks may be left inside the fence in a location IF they can be secured and upon the approval of security staff.
- 3. Privately owned and/or contractor vehicles are prohibited from entering unauthorized areas unless directed to do so by security staff.

TOOL CONTROL:

- 1. Do not leave prisoner-accessible work areas unattended without first removing or securing all tools and objects which would be considered contraband.
- 2. At the end of each workday, remove all tools and equipment from inmate-accessible work areas and store them within locked cabinets, locked containers, or locked storage trailers.
- 3. Maintain written inventory of tools and equipment daily. Tools and equipment which cannot be accounted for at the end of each workday shall be brought to the immediate attention of a security staff member.

CONTRABAND: The mailing, bartering, introducing, exchanging or buying of items between inmates and contractors or their employees is strictly prohibited without the written consent of the Superintendent of the facility. The following quotes are from Alaska Statute, Title 11, and are provided so as to inform the Contractor:

AS 11.56.375, Promoting contraband in the first degree.

 - (2) makes, obtains, possesses, or attempts to make, obtain, or possess anything that person knows to be contraband while under official detention within a correctional facility.
