AUTHORITY: Alaska Department of Fish and Game (ADF&G) test fishery authorities AS 16.05.050 (6) and AS 16.05.050 (15) allow for the taking and selling of test fishery products. This solicitation is written and will be issued and administered in accordance with the procedures outlined in AS 36.30 and 2 AAC 12. Any subsequent contract will be governed by the laws of the State of Alaska. All actions concerning this contract shall be in accordance with applicable guidelines identified in AS 36.30 and 2 AAC 12.

1. REQUEST FOR QUOTATION (RFQ) REVIEW: Offerors shall carefully review this RFQ for defects and questionable or objectionable material. Offerors' comments concerning defects and questionable or objectionable material in the RFQ must be made in writing and received by the purchasing authority before the date and time set for receipt of quotes. This will allow time for an amendment to be issued if one is required. It will also help prevent the opening of a defective quote, upon which award cannot be made, and the resultant exposure of offerors' prices. Offerors' original comments should be sent to the purchasing authority listed on the front of this RFQ.

2. QUOTATION FORMS: Offerors shall use this and attached forms in submitting quotes. A photocopied quote may be submitted.

3. SUBMISSION: Quotations shall be signed where applicable and received at the designated Purchasing Office no later than as indicated.

4. QUOTE REJECTION: The State reserves the right to reject any or all quotes, combinations of items, or lot(s), and to waive defects or minor informalities.

5. EXTENSION OF PRICES: In case of error in the extension of prices in the quote, the unit prices will govern; in a lot bid, the lot prices will govern. Negligence by the vendor in preparing the quotation confers no right for the withdrawal of the quotation after it has been opened.

6. ALASKA PROCUREMENT CODE: The Procurement Code (AS.36.30) and its Regulations (2 AAC Ch. 12), are made a part of this document as if fully set forth herein. Note: AS.36.30 and 2 AAC Ch. 12 are available at most public libraries and legislative information offices; and both are available for review at Alaska State Purchasing Offices.

7. PRICES: The offeror shall state prices in the units of issue on this RFQ. Prices quoted for commodities must be in U.S. funds and include applicable federal duty, brokerage fees, packaging, and transportation cost to the FOB point so that upon transfer of title the commodity can be utilized without further cost. Prices quoted for services must be quoted in U.S. funds and include applicable federal duty, brokerage fee, packaging, and transportation cost so that the services can be provided without further cost. Prices quoted must be exclusive of federal, state, and local taxes. If the offeror believes that certain taxes are payable by the State, the offeror may list such taxes separately, directly below the bid price for the affected item. The State is exempt from Federal Excise Tax except the following:

- Coal - Internal Revenue Code of 1986 (IRC), Section 4121 - on the purchase of coal;
- "Gas Guzzler" - IRC, Section 4064 - on the purchase of low m.p.g. automobiles, except that police and other emergency type vehicles are not subject to the tax;
- Air Cargo - IRC, Section 4271 - on the purchase of property transportation services by air;
- Air Passenger - IRC, Section 4261 - on the purchase of passenger transportation services by air carriers;
- Leaking Underground Storage Tank Trust Fund Tax (LUST) - IRC, Section 4081 - on the purchase of Aviation gasoline, Diesel Fuel, Gasoline, and Kerosene.

8. PAYMENT FOR STATE PURCHASES: Payment for agreements under \$500,000 for the undisputed purchase of goods or services provided to a State agency, will be made within 30 days of the receipt of a proper billing or the delivery of the goods or services to the location(s) specified in the agreement, whichever is later. A late payment is subject to 1.5% interest per month on the unpaid balance. Interest will not be paid if there is a dispute or if there is an agreement which establishes a lower interest rate or precludes the charging of interest.

9. PAYMENT DISCOUNT: Discounts for prompt payment will not be considered in evaluating the price you quote. However, the State shall be entitled to take advantage of any payment discount(s) offered by the vendor provided payment is made within the discount period. Payment discount periods will be computed from the date of receipt of the commodities or services and/or a correct invoice, whichever is later. Unless freight and other charges are itemized, any discount provided will be taken on full amount of invoice.

10. VENDOR TAX ID NUMBER: If goods or services procured through this RFQ are of a type that is required to be included on a Miscellaneous Tax Statement, as described in the Internal Revenue Code, a valid tax identification number must be provided to the State of Alaska before payment will be made.

11. INDEMNIFICATION: The Contractor shall indemnify, hold harmless, and defend the contracting agency from and against any claim of, or liability for error, omission or negligent act of the Contractor under this agreement. The Contractor shall not be required to indemnify the contracting agency for a claim of, or liability for, the independent negligence of the contracting agency. If there is a claim of, or liability for, the joint negligent error or omission of the Contractor and the independent negligence of the Contracting agency, the indemnification and hold harmless obligation shall be apportioned on a comparative fault basis. "Contractor" and "Contracting agency", as used within this and the following article, include the employees, agents and other contractors who are directly responsible, respectively, to each. The term "independent negligence" is negligence other than in the Contracting agency's selection, administration, monitoring, or controlling of the Contractor and in approving or accepting the Contractor's work.

12. SEVERABILITY: If any provision of this contract is declared by a court to be illegal or in conflict with any law, the validity of the remaining terms and provisions shall not be affected; and the rights and obligations of the parties shall be construed and enforced as if the contract did not contain the particular provision held to be invalid.

13. TITLE: Title passes to the State for each item at FOB destination.

If the attempt is unsuccessful, the vendor may protest the solicitation or the award of a small procurement contract under AS 36.30.320. The protest must be filed in writing with the commissioner of the purchasing agency or the commissioner's designee and include the following information: (1) the name, address, and telephone number of the protester; (2) the signature of the protester or the protester's representative; (3) identification of the contracting agency and the solicitation or contract at issue; (4) a detailed statement of the legal and factual grounds of the protest, including copies of relevant documents; and (5) the form of relief requested. 17. SPECIFICATIONS: Unless otherwise specified in the RFQ, product brand names or model numbers are examples of the type and quality of product required, and are not statements of preference. If the specifications describing an item conflict with a brand name or model number describing the item, the specifications govern. Reference to brand name or number does not preclude an offer of a comparable or better product, if full specifications and descriptive literature are provided for the product. Failure to provide such specifications and descriptive literature may be cause for rejection of the offer.

18. FIRM OFFER: For the purpose of award, offers made in accordance with this RFQ must be good and firm for a period of ninety (90) days from the date of quote opening.

19. QUOTE PREPARATION COSTS: The State is not liable for any costs incurred by the offeror in quote preparation.

20. CONSOLIDATION OF AWARDS: Due to high administrative costs associated with processing of purchase orders, a single low quote of \$50 or less may, at the discretion of the State, be awarded to the next low offeror receiving other awards for consolidation purposes. This paragraph is not subject to the protest terms enumerated in "FILING A PROTEST" above.

21. CONTRACT FUNDING: Offerors are advised that funds are available for the initial purchase and/or the first term of the contract. Payment and performance obligations for succeeding purchases and/or additional terms of the contract are subject to the availability and appropriation of funds.

22. CONFLICT OF INTEREST: An officer or employee of the State of Alaska may not seek to acquire, be a party to, or possess a financial interest in, this contract if (1) the officer or employee is an employee of the administrative unit that supervises the award of this contract; or (2) the officer or employee has the power to take or withhold official action so as to affect the award or execution of the contract.

RFQ 11-J-075-20
SCOPE OF WORK

PURPOSE: To contract for use of a fully functional scallop fishing vessel by the Alaska Department of Fish and Game (ADF&G) as living quarters and operations base for scallop research surveys in the Kodiak Northeast and Shelikof Districts in April-May, 2020. The vessel must be manned by a USCG licensed captain with at least 5 years of experience scallop fishing in Alaska waters and a minimum of 3 crewmembers with experience scallop fishing in Alaska. ADF&G will place up to 4 departmental staff and/or research collaborators aboard the vessel to gather scientific data on scallops, and associated species.

The vessel captain and crew will be required to help install, deploy, tow, and recover ADF&G's 8' lined scallop dredge and a 15' commercial scallop dredge, with associated electronics, and assist ADF&G staff with sorting, measuring, and weighing dredge contents. Vessel crew will be required to maintain and/or repair scallop dredges as needed and shuck all scallops harvested for cost recovery. Vessel captain or crew member will always be required to operate vessel during dredge tows and communicate with ADFG staff with regard to tow locations, speed, course, and dredge sensor data.

The at sea charter period is estimated to last for 16 days for the Kodiak Northeast and Shelikof district survey.

LENGTH OF CONTRACT: The charter period will be for 19 continuous days between April 26, 2020 and May 14 2020. These dates are approximate and may be adjusted depending on circumstances with mutual consent of the State and the successful bidder/contractor. Charter length will not exceed 30 days and may be less than 10 days.

The anticipated charter period itinerary is:

DAY 1 TO DAY 2: Equipment installation and testing at dock in Kodiak.

DAY 3 TO DAY 18: At-sea survey operations in the Kodiak Northeast and Shelikof Districts.

DAY 19: Offload ADF&G equipment from vessel in Kodiak.

ESTIMATED USE: The charter dates and length of charter referenced in this invitation to bid (ITB) are the State's estimated requirements. The State does not guarantee a minimum or maximum number of charter days. However, for the purpose of bid evaluation the State will assume the use of 19 contract days.

PAYMENT FOR THE CHARTER: The contractor will be paid the daily amount bid up to the anticipated maximum of 19 days. The contractor will be paid the daily amount bid for any mutually agreed upon extension of the charter period.

Bidders are requested to submit bids for two separate rates: a 'full' rate for days when operations are conducted at sea, and a separate 'standby' rate for days when ADF&G is working on equipment installation and testing and the vessel is secured to the dock. We estimate 3 days at the standby rate and 16 days at the full rate.

Payment for partial calendar day charter vessel operation once the vessel leaves port and during the 16 continuous day charter period will be prorated on an hourly basis from the daily charter vessel rate. For the purposes of this contract, a charter day is 24 hours commencing at 12:00AM and ending at 11:59PM. Prorated hourly rates are 1/24th the daily rate.

Upon completion of the charter, the Contractor will submit a single invoice for the entire project. The State will not make progress or partial payments during the contract period.

DELAYS OR INTERRUPTIONS OF OPERATIONS: For each hour of contract time lost, for any reason other than weather or an act directly attributable to ADF&G personnel aboard the vessel, the State will on each occasion, be entitled to deduct from the total contract payment, an amount equal to the prorated hourly contract rate for each of the hours lost.

In the case of vessel breakdowns, the State representative in charge, and the Vessel Captain will document the time of the last contract activity performed (last dredge deployed, retrieved, etc.) and the time the next contractual activity commences. No compensation will be allowed for any activities during this breakdown period. This includes travel time or from port (if necessary), repair time, re-provisioning and/or other activities necessary by either the contractor or the

SCOPE OF WORK

State to resume the charter. If the delay is more than 24 hours and State personnel remain on board the vessel, the State will pay the Contractor \$50.00 per day, for each State employee, as reimbursement for room and board.

CANCELLATION: The State will have the sole discretion to cancel any contract that results from this ITB.

LOCATION OF VESSEL OPERATION: The vessel is required to operate in the Kodiak Northeast and Shelikof districts of the Kodiak Management Area. The charter will begin and end in Kodiak, Alaska.

CAPTAIN AND CREW ABOARD THE VESSEL: This contract requires an experienced scallop vessel captain and a minimum of 3 crewmembers. Requirements for vessel captain and crew are specified below.

STAFF ABOARD THE VESSEL: During this contract period the State will place up to 4 ADF&G employees and/or research collaborators aboard the vessel.

VESSEL INSPECTION: The vessel will be subject to inspection by ADF&G prior to issuance of the Notice of Intent to Award. The successful bidder must, within 21 days of the close of this bid period, submit a copy of the most recent marine survey accompanied by a letter of stability to ADF&G in Kodiak, Alaska.

The vessel and vessel owner (or designated representative) must be available for an inspection at a specified location mutually agreed upon by the bidder/contractor and the State within 60 days of close of this bid period. If any conditions of concern are noted during ADF&G's inspection or at any time during the subsequent term of the contract, the State will arrange for further inspection by a qualified individual with costs to be borne by ADF&G to determine if the condition of the vessel is acceptable.

If the vessel fails to meet the ITB vessel requirements, the State may consider the offer non-responsive and reject the bid or terminate the contract.

By date certain, all equipment specified in this ITB must be installed and functional. The successful bidder must pay the cost of all the equipment and any vessel alterations needed to meet the requirements of this ITB.

If a vessel fails to meet the ITB requirements at the date certain for total ITB compliance, the State may terminate the contract.

The vessel must meet safety requirements set forth in 46 CFR 28. A USCG Commercial Fishing Vessel Safety Examination sticker, valid for the charter period, must be in possession and a copy submitted to ADF&G. A USCG Commercial Fishing Vessel Safety Exam reflecting the personnel total for vessel crew and ADF&G staff, valid for the charter period, must be in possession and a copy submitted to ADF&G. If a vessel fails to meet this requirement at the time of inspection, a mutually agreed upon date certain will be determined by which the vessel must meet this requirement.

SEAWORTHINESS: Vessel owner and operator have sole responsibility for the seaworthiness of the vessel. Inspection of the vessel is not intended to convey acceptance by the State, nor should it be considered conclusive evidence that the State believes the vessel is seaworthy.
