FINDING OF EMERGENCY

The Board of Pharmacy finds that an emergency exists and that the attached regulation is necessary for the immediate preservation of the public peace, health, safety, or general welfare. The facts constituting the emergency include the following:

Licensees under AS 08.80 are experiencing increased workloads as patients request medications in amounts sufficient to avoid frequent trips to a pharmacy. At the same time, licensed facilities are experiencing staffing shortages due to illness, child care obligations, and pre-planned PTO. These regulations will alleviate the strain by:

- Increasing capacity by expanding the tasks which a pharmacy technician who holds a national certification may perform;
- Allowing a cashier or bookkeeper to work in a pharmacy without being licensed as a pharmacy technician;
- Decreasing unnecessary administrative requirements;
- Increasing the ranks of licensees who may provide immunizations during the emergency by removing the requirement to obtain CPR certification;
- Streamlining application and renewal requirements;
- Expanding shared pharmacy service functions;
- Clarifying pharmacists and pharmacist interns may administer drugs pursuant to a prescription drug order;
- Allowing for temporary relocations during the emergency without a need to apply for a new and separate license; and
- Allowing the distribution, if insurance allows, of sufficient medication to avoid forcing patients to make multiple return trips.

ORDER CERTIFYING ADOPTION

I certify that the Board of Pharmacy, under the authority of AS 08.01.075, AS 08.01.100, AS 08.80, AS 11.71.900, AS 17.30.200, and AS 17.30.900, adopted at its March 27, 2020 teleconference meeting the attached fifteen pages of regulation changes as an emergency regulation to take effect immediately upon filing by the lieutenant governor, as provided in AS 44.62.180(3).

This action is not expected to require an increased appropriation.
