RE: ITB# DR-4413-AK-2018 Nov – GCCC & PCC

### **Addendum #2**

The purpose of this amendment is to change the info on ACM in the ITB as follows. See attachment for results.

The original scope of work called for Asbestos containing Material (ACM) on the administration building shingled roof. Shingle samples were taken into a lab for testing of ACM. Please see attached files for sample location and test results. The test results show NO ACM on these shingles that will need partially removed for the chimney repair.

If you should have any questions, please let me know via email.

**End of Addendum #2**

Sincerely,

A handwritten signature in cursive script that reads "gary bailey".

Gary Bailey  
Procurement Officer
