Bidders' comments concerning defects and questionable or objectionable material in the ITB must be made in writing and received by the purchasing authority at least ten (10) days before the bid opening date. This will allow time for an amendment to be issued if one is required. Bidders' original comments should be sent to the purchasing authority listed on the front of this ITB.

**2. BID FORMS:** Bidders shall use this and attached forms in submitting bids. A photocopied bid may be submitted.

**3. SUBMITTING BIDS:** Envelopes containing bids must be sealed, marked, and addressed as shown in the example below. Do not put the ITB number and opening date on the envelope of a request for bid information. Envelopes with ITB numbers annotated on the outside will not be opened until the scheduled date and time.

**COMPLIANCE WITH ADA:** By signature of their bid the bidder certifies that they comply with the Americans with Disabilities Act of 1990 and the regulations issued thereunder by the federal government.

Services or activities furnished to the general public on behalf of the state must be fully accessible. This is intended to ensure that agencies are in accordance with 28 CFR Part 35 Section 35.130 and that services, programs or activities furnished to the public through a contract do not subject qualified individuals with a disability to discrimination based on the disability.

**PREFERENCE QUALIFICATION:** In order to qualify for an Alaska Veterans Preference, Employment Program Preference, or Alaskans with Disabilities Preference, a bidder must add value by actually performing, controlling, managing, and supervising the services provided, or a bidder must have sold supplies of the general nature solicited to other state agencies, governments, or the general public.

**CONTRACT PERFORMANCE LOCATION:** By signature on their bid, the bidder certifies that all services provided under this contract by the contractor and all subcontractors shall be performed in the United States.

If the bidder cannot certify that all work will be performed in the United States, the bidder must contact the procurement officer in writing to request a waiver at least 10 days prior to the deadline for receipt of bids.

The request must include a detailed description of the portion of work that will be performed outside the United States, where, by whom, and the reason the waiver is necessary.

Failure to comply with these requirements may cause the state to reject the bid as non-responsive, or cancel the contract.

**HUMAN TRAFFICKING:** By signature on their bid, the bidder certifies that the bidder is not established and headquartered or incorporated and headquartered in a country recognized as Tier 3 in the most recent United States Department of State's Trafficking in Persons Report.

The most recent United States Department of State's Trafficking in Persons Report can be found at the following website: <http://www.state.gov/g/tip/>

Failure to comply with this requirement will cause the state to reject the bid as non-responsive, or cancel the contract

**CONTRACT INTENT:** This Invitation to Bid (ITB) is intended to result in non-mandatory contract(s) for the as-needed purchase of airport runway lighting parts for use at various locations within Alaska for the Department of Transportation and Public Facilities.

**NOTICE OF INTENT TO AWARD:** After the responses to this ITB have been opened and evaluated, a tabulation of the bids will be prepared. This tabulation, called a Notice of Intent to Award, serves two purposes. It lists the name of each company or person that offered a bid and the price they bid. It also provides notice of the state's intent to award a contract(s) to the bidder(s) indicated. A copy of the Notice of Intent will be mailed to each company or person who responded to the ITB. Bidders identified as the apparent low responsive bidders are instructed not to proceed until a Purchase Order, Contract Award, Lease, or some other form of written notice is given by the contracting officer. A company or person who proceeds prior to receiving a Purchase Order, Contract Award, Lease, or some other form of written notice from the contracting officer does so without a contract and at their own risk.

**PAYMENT FOR STATE PURCHASES:** Payment for agreements under \$500,000 for the undisputed purchase of goods or services provided to a state agency, will be made within 30 days of the receipt of a proper billing or the delivery of the goods or services to the location(s) specified in the agreement, whichever is later. A late payment is subject to 1.5% interest per month on the unpaid balance. Interest will not be paid if there is a dispute or if there is an agreement that establishes a lower interest rate or precludes the charging of interest.

**Prompt Payment For State Purchases**

The state is eligible to receive a 5% discount for all invoices paid within 15 business days from the date of receipt of the commodities or services and/or a correct invoice, whichever is later. The discount shall be taken on the full invoice amount. The state shall consider payment being made as either the date a printed warrant is issued or the date an electronic funds transfer (EFT) is initiated

**CONTRACT ADMINISTRATION:** The administration of this contract is the responsibility of the Contracting Officer of record within the Department of Transportation & Public Facilities, Statewide Contracting & Procurement.

**SHIPPING DAMAGE:** The state will not accept or pay for damaged goods. The contractor must file all claims against the carrier(s) for damages incurred to items in transit from the point of origin to the ultimate destination. The state will provide the contractor with written notice when damaged goods are received. The state will deduct the cost of the damaged goods from the invoice prior to payment. The contractor must file all claims against the carrier(s) for reimbursement of the loss.

**INDEMNIFICATION:** The contractor shall indemnify, hold harmless, and defend the contracting agency from and against any claim of, or liability for error, omission or negligent act of the contractor under this agreement. The contractor shall not be required to indemnify the

contracting agency for a claim of, or liability for, the independent negligence of the contracting agency. If there is a claim of, or liability for, the joint negligent error or omission of the contractor and the independent negligence of the Contracting agency, the indemnification and hold harmless obligation shall be apportioned on a comparative fault basis. "Contractor" and "Contracting agency", as used within this and the following article, include the employees, agents and other contractors who are directly responsible, respectively, to each. The term "independent negligence" is negligence other than in the Contracting agency's selection, administration, monitoring, or controlling of the contractor and in approving or accepting the contractor's work.

**INSURANCE:** Without limiting contractor's indemnification, it is agreed that contractor shall purchase at its own expense and maintain in force at all times during the performance of services under this agreement the following policies of insurance. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the contractor's policy contains higher limits, the state shall be entitled to coverage to the extent of such higher limits. Certificates of Insurance must be furnished to the contracting officer prior to beginning work and must provide for a notice of cancellation, non-renewal, or material change of conditions in accordance with policy provisions. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach of this contract and shall be grounds for termination of the contractor's services. All insurance policies shall comply with, and be issued by insurers licensed to transact the business of insurance under AS 21.

**Proof of insurance is required for the following:**

Workers' Compensation Insurance: The contractor shall provide and maintain, for all employees engaged in work under this contract, coverage as required by AS 23.30.045, and; where applicable, any other statutory obligations including but not limited to Federal U.S.L. & H. and Jones Act requirements. The policy must waive subrogation against the state.

Commercial General Liability Insurance: covering all business premises and operations used by the contractor in the performance of services under this agreement with minimum coverage limits of \$300,000 combined single limit per occurrence.

Commercial Automobile Liability Insurance: covering all vehicles used by the contractor in the performance of services under this agreement with minimum coverage limits of \$300,000 combined single limit per occurrence.

Failure to supply satisfactory proof of insurance within the time required will cause the state to declare the bidder non-responsible and to reject the bid.

**BRAND AND MODEL OFFERED:** Certain items may be designated brand specific. When an item is so designated, no substitutions for the brand and model specified will be allowed. In this ITB, all items are to be the brand and model specified, except where specifically allowed in the Bid Schedule.

**ANNOTATED LITERATURE:** Bidders must annotate their product literature to identify for the state the location of the supporting information regarding each product specification set out in this ITB. A bidder's failure to comply with this clause, within the time set by the state, will cause the state to consider the offer non-responsive and reject the bid.

**SUPPORTING INFORMATION:** The state strongly desires that bidders submit all required technical, specification, and other supporting information with their bid, so that a detailed analysis and determination can be made by the contracting officer that the product offered meets the ITB specifications and that other requirements of the ITB have been met. However, provided a bid meets the requirements for a definite, firm, unqualified, and unconditional offer, the state reserves the right to request supplemental information from the bidder, after the bids have been opened, to ensure that the products offered completely meet the ITB requirements. The requirement for such supplemental information will be at the reasonable discretion of the state and may include the requirement that a bidder will provide a sample product(s) so that the state can make a first-hand examination and determination.

A bidder's failure to provide this supplemental information or the product sample(s), within the time set by the state, will cause the state to consider the offer non-responsive and reject the bid.

**FIRM, UNQUALIFIED AND UNCONDITIONAL OFFER:** Bidders must provide enough information with their bid to constitute a definite, firm, unqualified and unconditional offer. To be responsive a bid must constitute a definite, firm, unqualified and unconditional offer to meet all of the material terms of the ITB. Material terms are those that could affect the price, quantity, quality, or delivery. Also included as material terms are those which are clearly identified in the ITB and which, for reasons of policy, must be complied with at risk of bid rejection for non-responsiveness.

**CONTRACT PERIOD:** The length of the contract will be from the date of award through June 30, 2021

**CONTRACT PRICES:**

- 1) The contract(s) resulting from this solicitation will provide pricing for items delivered to three destinations; Anchorage and Fairbanks, Alaska and Dockside Seattle, Washington. These areas are known as the Contract Designated Pricing Points (CDPP). CDPP's are further defined as:
  - a) the CDPP of Anchorage, Alaska is defined as prepared for further shipment and delivered at the DOT/PF facility, or the receiving yard of the state's specified carrier (water, surface or air carrier) in Anchorage, Alaska;
  - b) the CDPP of Fairbanks, Alaska is defined as prepared for further shipment and delivered at the Department of Transportation & Public Facilities Maintenance Station Yard at 2301 Peger Road, Fairbanks, Alaska, or the receiving yard of the state's specified carrier (water, surface or air carrier) in Fairbanks, Alaska;

- c) the CDPP of Dockside, Seattle, Washington is defined as prepared for further shipment and delivered at the receiving yard of the state's specified water carrier in Seattle, Washington.
- 2) Some orders will require additional shipping by the Contractor from the CDPP's to other locations within the State of Alaska. In such cases, the Contractor must ship to the final destination and prepay any additional shipping from the designated CDPP. **The Contractor shall invoice the additional shipping costs as a separate item and provide actual cost receipts with the invoice.** In all instances where additional shipping occurs, the State reserves the right to determine the method of shipment based on need. Following are examples of shipping and delivery to the final destination other than the CDPP's:
- a) An order with a final destination of Palmer, Alaska will be ordered from the Contractor awarded the contract for that Lot and priced for the CDPP of Anchorage, Alaska. The Contractor will ship and deliver the items to the Palmer DOT/PF facility noted on the order. The State will be invoiced the price of the items listed for the CDPP of Anchorage, Alaska, plus the additional shipping from Anchorage to the Palmer DOT/PF facility as a separate item. **The Contractor must provide with their invoice, actual cost receipts for any additional shipping charges beyond the CDPP.**
  - b) An order with a final destination of Tok, Alaska, will be ordered from the Contractor awarded the contract for that Lot and priced for the CDPP of Fairbanks, Alaska. The Contractor will ship and deliver the items to the Tok DOT/PF facility noted on the order. The State will be invoiced the price of the items listed for the CDPP of Fairbanks, Alaska, plus the shipping from Fairbanks to the Tok DOT/PF facility as a separate item. **The Contractor must provide with their invoice, actual cost receipts for any additional shipping charges beyond the CDPP.**
  - c) An order with a final destination of Nome, Alaska will be ordered from the Contractor awarded the contract for that Lot and priced for the CDPP of Dockside Seattle Washington. The Contractor will ship and deliver the items to the Nome DOT/PF facility noted on the order. The State will be invoiced for the price of the items listed for the CDPP of Dockside Seattle, Washington, plus the shipping from Dockside Seattle to the Nome DOT/PF facility as a separate item. **The Contractor must provide with their invoice, actual cost receipts for any additional shipping charges beyond the CDPP.**
  - d) An order with a final destination of Kodiak, Alaska shall be ordered from the Contractor awarded the contract for that Lot and at the State's discretion, priced for the CDPP of Anchorage, Alaska OR from the CDPP Dockside Seattle, Washington. The Contractor will deliver the items to the final destination (Kodiak DOT/PF facility) noted on the order and invoice for the price of the items listed for the CDPP location selected by the State. **The additional shipping costs from the designated CDPP to the final destination shall be invoiced as a separate item. The Contractor must provide with their invoice, actual cost receipts for any additional shipping charges beyond the CDPP.**

**PRICE DECREASES:** During the period of the contract all price decreases experienced by the contractor must be passed on to the state. A contractor's failure to strictly and faithfully adhere to this clause, within the time required, will be considered in breach of contract.

**NEW EQUIPMENT:** Equipment offered in response to this ITB must be new equipment. New equipment means equipment that is currently in production by the manufacturer and is still the latest model, edition or version generally offered. The equipment must be warranted as new by the manufacturer and may not have been used for any purpose, other than display (not demonstration), prior to its sale to the state. The state will not accept remanufactured, used, or reconditioned equipment. It is the contractor's responsibility to ensure that each piece of equipment delivered to the state complies with this requirement. A contractor's failure to comply with this requirement will cause the state to seek remedies under breach of contract.

**BRAND SPECIFIC:** All items specified in this bid are designated brand specific. When an item is so designated no substitutions for the brand and model specified will be allowed.

**ALTERATIONS:** The contractor must obtain the written approval from the contracting officer prior to making any alterations to the specifications contained in this ITB. The state will not pay for alterations that are not approved in advance and in writing by the contracting officer.

**DISCONTINUED ITEMS:** In the event an item is discontinued by the manufacturer during the life of the contract, another item may be substituted, provided that the contracting officer makes a written determination that it is equal to or better than the discontinued item and provided that it is sold at the same price or less than the discontinued item.

**ITEM UPGRADES:** The state reserves the right to accept upgrades to models on the basic contract when the upgrades improve the way the equipment operates or improve the accuracy of the equipment. Such upgraded items must be at the same price as the items in the basic contract.

**DELIVERY:** Indicate, in the space provided under "Bid Schedule", the time required to make delivery after the receipt of an order. Failure to make an entry in the space provided will be construed as an offer to deliver within sixty (60) calendar days after the receipt of an order. Bids that specify deliveries in excess of sixty (60) calendar days after the receipt of an order will be considered non-responsive and the bids will be rejected.

**ADVANCE NOTICE OF DELIVERY:** The contractor must notify the freight company that delivers the order that the state facility receiving the order requires 24 hours advance notice of delivery.

**F.O.B. POINT:** The F.O.B. point for all items purchased under this contract is the final destination anywhere within the State of Alaska. Ownership of, and title to, the ordered items remain with the contractor until the items have been delivered to their final destination and are accepted by the State.

STATE OF ALASKA ITB # 2520H026  
Airport Runway Lighting

The State reserves the right to select the Contract Destination Pricing Points (CDPP) when placing the order. The cost of shipping and delivery to the CDPP is to be included in the bid price. The cost of shipping and delivery for orders beyond a CDPP will be handled as follows:

The contractor will prepay the shipping and delivery charges to any destination named by the State in its order. The contractor will charge-back those actual shipping and delivery charges to the State as a separate item on the State's invoice. In all instances where additional shipping occurs, the State reserves the right to determine the method of shipment based on cost or need.

**VOLUME REPORT:** Thirty (30) calendar days prior to the expiration date of the contract, the contractor must furnish a volume report of the past year's use by location. The report shall be electronically submitted by email to the Procurement Officer; [chris.hunt@alaska.gov](mailto:chris.hunt@alaska.gov).

**INVOICES:** Invoices must be sent directly to the ordering Region's address shown on the individual Purchase Order. Any order for shipment beyond the CDPP, must identify the additional freight charge as a separate line item on the invoice and the shipper's bill of lading must be attached. The ordering Region will only make payment after receipt of the merchandise and the invoice. Question concerning payment must be addressed to the ordering Region.

**THIRD-PARTY FINANCING AGREEMENTS NOT ALLOWED:** Because of the additional administrative and accounting time required of state agencies when third party financing agreements are permitted, they will not be allowed under this contract.

**CONTINUING OBLIGATION OF CONTRACTOR:** Regardless of the terms and conditions of any third-party financing agreement, the contractor agrees that none of its responsibilities under this contract are transferable and that the contractor alone will continue to be solely responsible until the expiration date of the contract. Such responsibilities include, but are not limited to, the provision of equipment, training, warranty service, maintenance, parts and the provision of consumable supplies. By signature on the face page of this ITB the bidder acknowledges this requirement and indicates unconditional acceptance of this continuing obligation clause.

**PACKAGING:** The cost of all packaging must be included in the price bid. All packaging must be new and suitable for shipment and short-term warehouse storage.

**QUANTITIES:** The quantities referenced in this ITB are sample representative lots and are only for the purpose of evaluation. The state does not guarantee any minimum purchase. Orders will be issued throughout the contract period on an as-needed basis.

**WARRANTY:** The contractor warrants every unit purchased against faulty materials and workmanship for a minimum period of at five (5) years. If, during this period, faults develop with the unit or components of the unit, they will be repaired or replaced without any cost, including any transportation or freight cost, to the state. Bids, which include supplemental warranties, will be accepted, but supplemental warranties that conflict with or diminish the state's rights under this warranty clause will be considered null and void. The state is not responsible for identifying conflicting warranty conditions before issuing a contract award. After award of the contract:

1. if a conflict arises between the supplemental warranty and the warranty in this ITB, the warranty in the ITB will prevail; and
2. if the state's rights are diminished as a result of application of the supplemental warranty, the supplemental warranty will be considered null and void and the ITB warranty will prevail.

By signature on the face page of this ITB the bidder acknowledges this requirement and indicates unconditional acceptance of this warranty clause.

**WORKMANSHIP & MATERIALS:** All work must be performed in a thorough and workmanlike manner and in accordance with current industry practices. The contractor will be held responsible for the quality of the finished item. The state will reject any item that does not meet the specifications of the ITB. Rejected items will be returned to the contractor at the contractor's risk and expense.

**METHOD OF AWARD:** Lots 1 & 2 will be awarded by lot to the lowest responsive and responsible bidder. In order to be considered responsive for either lot, bidders must bid on all items within the lot. Lot 3 will be awarded by manufacturer to the lowest responsive and responsible bidder. Multiple awards may result for Lot 3. Bidders may bid one or more manufacturer within Lot 3, but all items supplied by that manufacturer must be bid in order to be considered responsive.
