

Amendment #2 - Issued August 7, 2020
RFP 210000075 - AIDS Drug Assistance Program-Pharmacy Services

Response to Questions Received

| Question/ Answer# | Section Reference and/or Page Number | Questions Received / Responses Provided |
|----------------------|--|--|
| Q5 | 8.01 / pg. 37 | <p>Deliverable 2 - Is it acceptable for the pharmacy to make deliveries with our own delivery driver instead of using an outside courier? How should delivery cost be proposed in this case as direct costs for an employed driver are not as easily calculated as an outside contractor.</p> <p>The State has determined that the term "Courier Service" as defined in Amendment 1, Q2/A2, may be restrictive. We have updated and broadened this term to reflect as "Local Delivery", which is inclusive of all delivery service methods utilized separate from <u>United States Postal Services</u> shipping costs, that the pharmacy anticipates annually. Therefore, the cost proposal line item in Deliverable 2 is updated FROM "Use of Courier Services" TO "Local Delivery Service".</p> |
