Re: Amendment 1
ITB 22-VSW-MTM-008
Water Pipe and Accessories
Metlakatla, Alaska
ITB Due Date: August 11, 2021 @ 10:00 AM Alaska Time

The following are questions from interested parties and the department's response:

1. Vendor: With all the global supply chain issues, there is not one single item that would be even available to ship from the factory by your date, let alone getting it to the jobsite.

Most of the materials have a factory lead time of 5-9 weeks, 2-3 months for PVC pipe.

If the contract dates can change for the required delivery date, please let me know. We are interested in quoting/supplying the project, but these dates cannot be met.

Department: The department has amended ITB section 2.13 Delivery Time to November 15, 2021.
