**ITB OPENING DATE AND TIME: 2/3/2022 @ 2:00 PM**

This amendment is being issued to address a submitted question and answer shown below.

**Q:** Per my factory Milestone Rep, it appears based on your SLC#, you currently have 71 device licenses (PN: XPPPLUSDL) on your existing system. Forty-one of those licenses are in use, and 30 each are unused. Are you using 43 or 41 cameras? Can you please check with your system admins to verify? If there is no master plan for those unused 30 licenses, there should be no reason for you to purchase new licenses (PN: XPPPLUSDL) on the ITB unless you want a few spare ones to have on hand.

**A:** The PMCF Milestone system has unused camera license for already procured cameras and will be used when these cameras are installed. DOC still requires 30 camera licenses for this procurement as specified in the solicitation.

**In order for your bid to be considered responsive this amendment, in addition to your original bid, must be received by the issuing office prior to the time set for the bid opening.**
