Item #2-. Rfp D has been replaced with an updated version of the document.

Item #3-. SOS Appendix B has been replaced with an updated version of the document.

QUESTIONS AND ANSWERS

Question #1: RFP 22074 indicates in several locations the scope focuses on AKEVWG facilitation, public education and outreach, and funding research and acquisition. However, Appendix B does include language that seems to overlap with RFP 22074. Specifically, page 2 of Appendix B states "By way of this RFP, the Authority is soliciting.... (d) support the Authority in development of a statewide plan for the strategic deployment of publicly available EV charging infrastructure; (e) assist the Authority in implementing the statewide EVSE plan;" The minimum qualifications includes two bullet points, the second and third, that also seem to relate more to RFP 22074.

- a. Can you confirm this language is intended for RFP 22074?
- b. If it is intended for the AKEVWG facilitation contract, can you clarify how these services under 22074 would differ from the services under 22074?

Answer #1: See the updated Appendix B.

Question #2: RFP 22074 indicates in several locations the scope focuses on Statewide EVSE Plan Development and Statewide EVSE Plan Implementation. However, Appendix B does include language

that seems to overlap with RFP 22074. Specifically, page 2 of Appendix B states "By way of this RFP, the Authority is soliciting. (a) facilitate the AKEVWG quarterly meetings and technical sessions; (b) develop quarterly newsletters; (c) support the Authority in conducting education and outreach activities related to the EV market; .. (f) support the Authority in preparing transportation electrification and EVSE grant applications." The minimum qualifications section also includes bullet points, the 4th and 5th ones, that include outreach and education related skill sets that seem more aligned with the RFP 22074.

- a. Can you confirm this language is intended for RFP 22074?
- b. If it is intended for the EVSE Planning and Implementation contract, can you clarify how these services under 22074 would differ from the services under 22074?

Answer #2: See the updated Appendix B.

Question #3: If Launch Alaska is a participant in a successful application and contract in response to RFP 22074, would it bar Launch Alaska portfolio companies from submitting proposals in response to RFPs issued by the agency as part of the EVSE Planning and Implementation?

Answer #3: Please check the attachment document included in this addendum named: 22074-EV Program Support-Addendum 2 - Part 2-2

Question #4: For RFP 22074 Part C, could AEA please clarify Section 4 (proposed staff) and Item 6 (Labor Billing Rates)? Section 4 identifies "EV-related Education" as a specific function, but this is not represented in the Labor Billing Rate categories. Please advise if a Labor Billing Rate is required for "EV-related Education" and what the total estimated labor of effort would be for that function for RFP 22074.

Answer #4: See updated Rfp-c.
