Amendment number two (2) serves to:

- Provides answers to questions received regarding this ITB.

Question 1- LOT #1 Item 9 “Face Piece Voice Amplifier must be compatible with other SCBA components” (The MSA G1’s voice amp is integrated through the second stage regulator not the face piece, and is fully compatible with the SCBA)

ANSWER: Understood. Voice piece amplifier must be compatible for SCBA

Question 2- LOT # 1 Item 11 “SCBA Mask with communication bracket on right side of mask” (The MSA G1’s Face piece does not have any attachments on the face piece, the speaker for the voice amp is shoulder mounted)

We would ask that both of these items be removed, and item 8 of LOT 1 “MSA G1 SCBA Self Contained Breathing Apparatus (SCBA) with fixed connector”, be update to state “with voice amp”

ANSWER: Understood. Voice piece amplifier must be compatible for SCBA

ANSWER: Fire Fighting Gloves must meet Buy American and Berry Compliance. The brand listed is only given as an example of what we are looking for and is not required to be the specific brand listed.

Question 4- LOT #1 24 “Cutter S377 E2 / cordless/battery operated or state approved equivalent” this tool is no longer available. We would suggest the S378 E2 as the alternative.
