SECTION 1. INTRODUCTION & INSTRUCTIONS

SEC. 1.01 PURPOSE OF THE ITB

The Department of Public Safety, Division of Administration Services, is soliciting bids for aircraft maintenance and repair services located in Fairbanks, Alaska.

SEC. 1.02 DEADLINE FOR RECEIPT OF BIDS

Bids must be received no later than 1:30 p.m. Alaska Time on June 8, 2022, at which time they will be publicly opened. Late bids or amendments will be disqualified and not opened or accepted for evaluation. The public opening shall be held via Microsoft Teams. Bidders must contact the procurement officer for a Microsoft Teams invitation to the meeting prior to June 8, 2022.

SEC. 1.03 PRIOR EXPERIENCE

In order for a bid to be considered responsive the bidder must meet these minimum prior experience requirements:

- Must meet the qualifications of FAR Part 43.7, Part 65, Subpart D & E, and/or Part 145 with appropriate ratings for the work required as specified in Title 14 of the Code of Federal Regulations, Subchapter H, Subpart B, paragraph 145.59.

Offerors must provide proof of meeting the prior experience requirements with their bid in order to be considered responsive. A bidder's failure to meet these minimum prior experience requirements will cause their bid to be considered non-responsive and rejected.

SEC. 1.04 INVITATION TO BID (ITB) REVIEW

Bidders shall carefully review this ITB for defects and questionable or objectionable material. Comments concerning defects and questionable or objectionable material in the ITB should be made in writing and received by the procurement officer at least ten days before the bid opening date. This will allow time for an amendment to be issued if one is required. It will also help prevent the opening of a defective bid, upon which award cannot be made, and the resultant exposure of bidders' prices.

SEC. 1.05 QUESTIONS PRIOR TO DEADLINE FOR RECEIPT OF BIDS

All questions must be in writing and directed to the procurement officer. The interested party must confirm telephone conversations in writing. Two types of questions generally arise. One may be answered by directing the questioner to a specific section of the ITB. These questions may be answered over the telephone. Other questions may be more complex and may require a written amendment to the ITB. The procurement officer will make that decision.

SEC. 1.06 SUBMITTING BIDS

Bidders must submit one complete copy of their bid via email. The bid must be emailed to dps.das.solicitations@alaska.gov and must contain the ITB number in the subject line of the email. The **maximum** size of a single email (including all text and attachments) that can be received by the state is **20mb (megabytes)**. If the email containing the bid exceeds this size, the bid must be sent in multiple emails that are each less than 20 megabytes and each email must comply with the requirements described above.

Please note that email transmission is not instantaneous. Similar to sending a hard copy bid, if you are emailing your bid, the state recommends sending it enough ahead of time to ensure the email is delivered by the deadline for receipt of bid.

It is the bidder's responsibility to contact the issuing agency at (907) 269-8493 to confirm that the bid has been received. The state is not responsible for unreadable, corrupt, or missing attachments.

SEC. 1.07 BID FORMS

Bidders shall use the front page of this ITB and any other forms identified in this ITB for submitting bids. All bids must be signed by an individual authorized to bind the bidder to the provisions of the ITB.

BIDDER'S CERTIFICATION

By signature on the bid, the bidder certifies that they comply with the following:

- the laws of the State of Alaska;
- the applicable portion of the Federal Civil Rights Act of 1964;
- the Equal Employment Opportunity Act and the regulations issued thereunder by the state and federal government;

- D. the Americans with Disabilities Act of 1990 and the regulations issued thereunder by the state and federal government;
- E. all terms and conditions set out in this ITB;
- F. the price(s) submitted was arrived at independently arrived and without collusion, under penalty of perjury; and
- G. that the bid will remain open and valid for at least 90 days.

If any bidder fails to comply with [a] through [g] of this paragraph, the state reserves the right to disregard the bid, terminate the contract, or consider the contractor in default.

CONFLICT OF INTEREST

Each bid shall include a statement indicating whether or not the company or any individuals working on the contract has a possible conflict of interest (e.g., currently employed by the State of Alaska or formerly employed by the State of Alaska within the past two years) and, if so, the nature of that conflict. The procurement officer reserves the right to **consider a bid non-responsive and reject it** or cancel the award if any interest disclosed from any source could either give the appearance of a conflict or cause speculation as to the objectivity of the contract to be performed by the bidder.

SEC. 1.08 PRICES

The bidder shall state prices in the units of issue on this ITB. Prices quoted in bids must be exclusive of federal, state, and local taxes. If the bidder believes that certain taxes are payable by the state, the bidder may list such taxes separately, directly below the bid price for the affected item.

SEC. 1.09 ASSISTANCE TO BIDDERS WITH A DISABILITY

Bidders with a disability may receive accommodation regarding the means of communicating this ITB or participating in the procurement process. For more information, contact the procurement officer no later than ten days prior to the deadline for receipt of bids.

SEC. 1.10 AMENDMENTS TO BIDS

Amendments to or withdrawals of bids will only be allowed if acceptable requests are received prior to the deadline that is set for receipt of bids, in accordance with 2 AAC 12.140. No amendments or withdrawals will be accepted after the deadline unless the delay is due to an error of the contracting agency, in accordance with 2 AAC 12.160.

SEC. 1.11 AMENDMENTS TO THE ITB

If an amendment is issued, it will be provided to all who were notified of the ITB and to those who have registered with the procurement officer after receiving the ITB from the State of Alaska Online Public Notice website.

SEC. 1.12 ITB SCHEDULE

The ITB schedule set out herein represents the State of Alaska's best estimate of the schedule that will be followed. If a component of this schedule, such as the deadline for receipt of bids, is delayed, the rest of the schedule may be shifted accordingly. All times are Alaska Time.

ACTIVITY	DATE
Issue Date / ITB Released	May 25, 2022
Deadline for Receipt of Bids / Bid Due Date	June 8, 2022 by 1:30 pm AKST
Bid Evaluations Complete	June 8-10, 2022

Notice of Intent to Award	June 10, 2022
Contract Issued	June 21, 2022

This ITB does not, by itself, obligate the state. The state's obligation will commence when the contract is approved by the Commissioner of the Department of Public Safety, or the Commissioner's designee. Upon written notice to the contractor, the state may set a different starting date for the contract. The state will not be responsible for any work done by the contractor, even work done in good faith, if it occurs prior to the contract start date set by the state.

SEC. 1.13 ALTERNATE BIDS

Bidders may only submit one bid for evaluation. In accordance with 2 AAC 12.830 alternate bids (bids that offer something different than what is asked for) will be rejected.

SEC. 1.14 SUPPORTING INFORMATION

Bidders shall submit all required technical, specification, and other supporting information with their bid, so that a detailed analysis and determination can be made by the procurement officer that the product offered meets the ITB specifications and that other requirements of the ITB have been met. However, provided a bid meets the requirements for a definite, firm, unqualified, and unconditional offer, the state reserves the right to request supplemental information from the bidder, after the bids have been opened, to ensure that the products or services offered completely meet the ITB requirements. The requirement for such supplemental information will be at the reasonable discretion of the state and may include the requirement that a bidder will provide a sample product(s) so that the state can make a first-hand examination and determination.

A bidder's failure to provide this supplemental information or the product sample(s), within the time set by the state, will cause the state to consider the offer non-responsive and reject the bid.

SEC. 1.15 FIRM, UNQUALIFIED, AND UNCONDITIONAL OFFER

Bidders must provide enough information with their bid to constitute a definite, firm, unqualified and unconditional offer. To be responsive a bid must constitute a definite, firm, unqualified and unconditional offer to meet all the material terms of the ITB. Material terms are those that could affect the price, quantity, quality, or delivery. Also included as material terms are those which are clearly identified in the ITB and which, for reasons of policy, must be complied with at risk of bid rejection for non-responsiveness.

SECTION 2. CONTRACT INFORMATION

SEC. 2.01 CONTRACT TERM

The length of the contract will be a one-year initial term beginning approximately July 1, 2022, with five, one-year renewal options to be exercised at the sole discretion of the state.

SEC. 2.02 CONTRACT ADMINISTRATION

The administration of this contract is the responsibility of the procurement officer or person appointed by the Department of Public Safety, Division of Administration.

SEC. 2.03 CONTRACT FUNDING

Approval or continuation of a contract resulting from this ITB is contingent upon legislative appropriation.

SEC. 2.04 CONTRACT EXTENSION

Unless otherwise provided in this ITB, the state and the successful bidder/contractor agree: (1) that any extension of the contract excluding any exercised renewal options, will be considered as a month-to-month extension, and all other terms and conditions shall remain in full force and effect and (2) the procurement officer will provide written notice to the contractor of the intent to cancel the month-to-month extension at least thirty (30) days before the date of cancellation. A month-to-month extension may only be executed by the procurement officer via a written contract amendment.

SEC. 2.05 CONTRACT CHANGES – UNANTICIPATED AMENDMENTS

During the course of this contract, the contractor may be required to perform additional work. That work will be within the general scope of the initial contract. When additional work is required, the state will provide the contractor a written description of the additional work and request the contractor to submit a firm time schedule for accomplishing the additional work and a firm price for the additional work. Cost and pricing data must be provided to justify the cost of such amendments per AS 36.30.400.

The contractor will not commence additional work until the procurement officer has secured required state approvals necessary for the amendment and issued a written contract amendment.

SEC. 2.06 SUBCONTRACTORS

Subcontractors may be used to perform work under this contract for specialized maintenance which the Contractor cannot perform. All subcontractors must have approval by the state prior to use. All subcontractors shall meet the same qualifications under this contract as the Contractor. If a bidder intends to use subcontractors, the bidder must identify in the bids the names of the subcontractors and the portions of the work the subcontractors will perform.

Subcontractor experience shall not be considered in determining whether the bidder meets the requirements set forth in SEC. 1.03 PRIOR EXPERIENCE.

If a bid with subcontractors is selected, the bidder must provide the following information concerning each prospective subcontractor within five working days from the date of the state's request:

- complete name of the subcontractor;
- complete address of the subcontractor;
- type of work the subcontractor will be performing;

- percentage of work the subcontractor will be providing;
- evidence that the subcontractor holds a valid Alaska business license; and
- a written statement signed by each proposed subcontractor that clearly verifies that the subcontractor is committed to render the services required by the contract.

A bidder's failure to provide this information, within the time set, may cause the state to consider their bid non-responsive and reject it. The State will reimburse the Contractor for the actual rate paid for any subcontracted work. When the Contractor is reimbursed by the State for work conducted by a subcontractor, non-payment by the Contractor to the subcontractor constitutes default of this contract.

Note that if the subcontractor will not be performing work within Alaska, they will not be required to hold an Alaska business license.

SEC. 2.07 JOINT VENTURES

Joint ventures will not be allowed.

SEC. 2.08 CONTRACT PERFORMANCE LOCATION

The location the work is to be performed, completed, and managed is at Fairbanks International Airport in Fairbanks, Alaska.

The state will not provide workspace for the contractor. The contractor must provide its own workspace.

By signature on their bid, the bidder certifies that all services provided under this contract by the contractor and all subcontractors shall be performed in the United States.

If the bidder cannot certify that all work will be performed in the United States, the bidder must contact the procurement officer in writing to request a waiver at least 10 days prior to the deadline for receipt of bids.

The request must include a detailed description of the portion of work that will be performed outside the United States, where, by whom, and the reason the waiver is necessary.

Failure to comply with these requirements may cause the state to reject the bid as non-responsive, or cancel the contract.

SEC. 2.09 RIGHT TO INSPECT PLACE OF BUSINESS

At reasonable times, the state may inspect those areas of the contractor's place of business that are related to the performance of a contract. If the state makes such an inspection, the contractor must provide reasonable assistance.

SEC. 2.10 SCOPE OF WORK AND SPECIFICATIONS

Except as otherwise provided in the contract, the Contractor shall furnish all necessary material, labor, supervision, services, equipment, tools, supplies, power, accessories, facilities, shipping and other items and services necessary for accomplishing the work to include any necessary inspections and return aircraft serviceable and airworthy. All items are subsidiary and incidental to the contract and no additional payment will be made. Wherever the contract provides that certain work is subsidiary, or it is without extra compensation, the payment for that work is included in the payment for the pay item and no further or additional payment shall be made for that work.

Maintenance/repair services to include:

- routine, scheduled and non-scheduled maintenance;
- scheduled maintenance, servicing and inspections;
- airframe engine, propeller, and time component changes;
- component/parts repairs as allowed and as applicable below;
- landing gear changes as needed
- ski maintenance, float maintenance, tire maintenance;
- repairs in the field;
- overhauls, restoration and conformity checks.

The Alaska Department of Public Safety (DPS) is a full-service state police organization which conducts both law enforcement and wildlife enforcement duties across the entirety of the state of Alaska. Because of the vast spans of wilderness in the last frontier separate 82% of our communities from the road system, creating a challenge totally unique to our state. The department operates a multitude of fixed wing and rotary wing aircraft to meet various mission requirements. These aircraft primarily support wildlife enforcement, search and rescue efforts and numerous other law enforcement related missions.

The DPS primary maintenance and logistics headquarters is located at Lake Hood Airport (LHD/PALH) in Anchorage, Alaska. This facility serves as the primary maintenance and logistics facility for the department's entire state-wide flight operation with a secondary facility at Fairbanks International Airport (FAI/PAFA) in Fairbanks, Alaska. It is imperative that vendors are located within a reasonable distance from the DPS FAI facility. The department has considered critical elements such as logistics support and travel times involved conducting site visits, quality assurance inspections and mandatory return to service flights when establishing the proximity requirement. The Contractor's facility shall be located within 35 nautical miles of the DPS FAI hangar facility. The Contractor shall have ownership of, or an established term lease of a maintenance and hangar facility with both ramp and building capable of safely accommodating DPS aircraft. If the Contractor has a lease, the time remaining on the lease, at the time of the award of this contract, shall be no less than one year. Hangar facility leases may be established after award of this contract; however, the lease shall be completely established within fifteen days of final award. Hangar facilities must be fully operational and available for inspection upon expiration of this fifteen-day period. If the Contractor has the appropriate liability insurances, there may be occasions where working in our hangars and with our tools is a possibility with advanced approval of the Aircraft Section.

The DPS Aircraft Section, LHD office, sometimes provides aircraft parts and supplies for DPS aircraft that are being serviced, maintained and or being repaired. The DPS parts and stock section is located at this LHD office. If parts or stock items are needed from this office arrangements will need to be made to have items shipped to the vendor or repair location. Those arrangements will be coordinated with the Aircraft Section.

Test/ferry flights will be conducted by DPS or approved DPS agents of the state. The Contractor is not authorized to fly any DPS aircraft unless that contract pilot has received training and is checked out from DPS and each occurrence is approved by the Aircraft Section Program Manager. If ground movement is required, the Contractor may tow the aircraft.

DPS will periodically conduct an on-site inspection of the Contractor's facility to ensure compliance with the safety, terms, conditions, and specifications contained in this Invitation to Bid (ITB). The Contractor shall have available for inspection all required certificates, licenses, manuals, work logs, etc. at time of inspection. Failure to comply with the terms, conditions, and specifications of this ITB and/or furnish a hangar facility, as specified herein will cause the State to declare the Contractor in default of any contract resulting from this ITB.

Services will not be complete and the equipment will not be considered serviced, repaired, or acceptable until it performs in compliance with the manufacturer's published performance specifications. All maintenance record entries must be complete, accurate and follow the requirements of Title 14 of the Code of Federal Regulations (CFR).

DPS aircraft must be maintained in airworthy condition by use of practices outlined under 14 CFR Part 43, 14 CFR Part 91, Subpart E, Maintenance, Preventative Maintenance, and Alterations. Aircraft must also be maintained as specified by the manufacturer's maintenance schedule and inspection/service schedules and/or applicable Service Bulletins and Service Letters. The Contractor is responsible for review of and compliance with Airworthiness Directives that may pertain to the aircraft and/or equipment being serviced. Contractor shall designate one certified and fully qualified Airframe and Powerplant (A&P) mechanic to ensure responsibility for the maintenance task being performed for each aircraft.

Inspection/service forms shall be provided by the Contractor and approved by DPS for the 100-hour, annual inspections and any special inspection or directive. Contractor shall fill out the forms to verify completion of each item in the inspection and provide a copy to DPS for each aircraft. All repairs shall be preapproved by the DPS Aircraft Section. Parts may be provided by the State or the State will approve the purchase of parts by the Contractor. DPS may provide parts, components, assemblies, or special tools for completion of certain repairs.

The Aircraft Section will provide a "work package" to the vendor along with the delivery of the aircraft. This work package will include the following documents:

- a. Airframe/engine/propeller/component current times or since last inspection.
- b. Individual or inspection items that need to be addressed during this inspection.
- c. Any additional documentation regarding the aircraft that will need to be accomplished during the inspection.

Upon completion of the maintenance project the Contractor shall forward to the DPS Aircraft Section the following documents through in person delivery, the Aircraft Maintenance email address aircraft.maintenance@alaska.gov and/or mail:

- a. Maintenance log entries for airframe, propeller, engine and components as applicable.
- b. List of maintenance discrepancies, and corrective action taken.
- c. Any additional documentation as requested by DPS Aircraft Section for that specific project.

DPS will give at least five days' notice prior to scheduled maintenance. Contractor shall complete routine inspections and repairs in four working days for the Piper Cubs (PA-18) and five working days for the Cessna 172, 182, 185 and 206. Seasonal landing gear changes shall be completed in one day. Allowances will be made for parts unavailability. Extensions due to unanticipated maintenance delays will be dealt with on a case-by-case basis.

There may be occasion for the successful Contractor to provide deep level repair and rebuild type servicing of light fixed wing aircraft. If these requests are made, they will be based on the Contractor's capabilities and only when mutual time schedules, project man-hours and project cost estimates are mutually agreed upon.

At times, DPS may need remote area support for an aircraft that has a maintenance issue away from its base. DPS will coordinate with the Contractor to transport an A&P mechanic or request the Contractor to travel, if able, to the disabled aircraft and assist in recovery to a maintenance facility to complete a return to service as required. DPS will occasionally require expeditious repairs. The Contractor shall make DPS aircraft priority and shall take immediate action to repair the aircraft, unless mutually agreed upon by the Contractor and DPS.

8:00am – 6:00pm: The Contractor shall inspect an aircraft within 3 hours of DPS notification. After 6:00pm: The Contractor shall inspect the aircraft by 11:00am the following day unless the Aircraft Section deems necessary for mission capability. No work is required on weekends and State recognized holidays unless mutually agreed upon by the Contractor and DPS. The Contractor must make arrangements that permit the state to contact the service technician. If the Contractor's service technician cannot perform the services within the scheduling/deadline and budgetary requirements, DPS will request services from the next contractor as outlined in section 4.10.

If, in the opinion of DPS, the problem does not require immediate action, the Contractor may perform the required service that night, or, if approved by DPS, at a later date.

Service bulletins, airworthiness directives and all other repairs will be performed in accordance with the manufacturer's recommended procedure.

Aircraft maintenance and repair services are as needed. The State does not guarantee a minimum number of hours.

The state shall have first right of refusal on all salvage parts that come from Department of Public Safety aircraft.

SEC. 2.11 COMPONENTS, PARTS, AND TOOLS

Only parts designed for the purpose they are being used and warranted as new may be used in the repair of state equipment. DPS may provide parts, components, assemblies, or special tools for completion of certain repairs. In the event there may be a part required that may be unavailable locally, the Contractor shall contact the DPS Aircraft Maintenance Inspector to see if parts may be available within the DPS Aircraft Section. All parts removed or installed in the aircraft will be coordinated with the DPS Stock and Parts using appropriate reporting to ensure serviceable status, accountability and inventory control.

The Contractor shall be responsible for replacement of lost or damaged property furnished by DPS, except for reasonable wear and tear, and to the extent that such property is normally consumed in DPS aircraft operation.

Title to State-furnished property will remain with DPS. The Contractor shall maintain adequate property control records in accordance with industry standards to ensure that State parts are not utilized for other purposes. Federal Excess Property in use under this contract may not be sold by either the State or the Contractor.

Unless otherwise specified, the Contractor shall provide all repairs, services, and replacement parts necessary to maintain the specified aircraft at the designated base during extended periods of heavy use, regardless of the amount or frequency of hours flown.

The Contractor shall have the availability of a lifting hoist, minimum 2-ton capability, and a fixture to lift the Piper Cub and Cessna 172, 182, 185 or 206 for landing gear maintenance, change and removal. The lifting fixture shall lift the aircraft in such a way to prevent damage/bending of the aircraft.

If the Contractor provides float services, they shall have a method of transporting the float planes between the float pond located at their facility to the vendors maintenance area.

All parts removed may be required by the Aircraft Section to be returned to the DPS Aircraft Section and shall be identified serviceable/unserviceable with the appropriate tag with the required information listed prior to the project being completed.

SEC. 2.12 PARTS BOOKS AND MAINTENANCE MANUALS

The state may require parts books and maintenance manuals as necessary. If they are requested, they must be provided at the same time that the equipment is delivered. The cost of the parts books and maintenance manuals must be included in the bid price of the equipment.

SEC. 2.13 CONTRACTOR QUALIFICATIONS

The contractor shall meet the qualifications of FAR Part 43.7, Part 65, Subpart D & E, and/or Part 145 with appropriate ratings for the work required as specified in Title 14 of the Code of Federal Regulations, Subchapter H, Subpart B, paragraph 145.59. The contractor must have the tools and support equipment to perform routine maintenance.

Bids will be accepted from certified and non-certified repair stations; however, all maintenance personnel working on State aircraft shall be FAA certified/licensed airframe and power plant mechanics meeting the requirement of FAR 65, Subpart D, and non-certified repair stations shall employ a full-time FAA Authorized Inspector (IA) meeting the requirements of FAR 43.7. The successful contractor shall provide evidence of FAA licensed mechanics/IA within ten days after receipt of the Notice of Intent to Award a Contract. In addition, evidence/certificates shall be provided prior to commencing any work or repairs. Failure to provide this evidence within the time requested shall be cause for rejection of the bid.

The successful contractor shall have documented evidence that maintenance work was accomplished within the previous 24 months on aircraft similar to DPS aircraft listed in this document. The contractor shall provide the documented evidence upon written request from DPS.

The contractor shall have an approved drug-testing program in place for maintenance personnel which meet FAR 135 requirements.

The contractor's employees may be required to undergo a background and fingerprint check by DPS.

SEC. 2.14 ADMINISTRATIVE REQUIREMENTS

Coordinate with the DPS Aircraft Section through the Aircraft Maintenance email address aircraft.maintenance@alaska.gov, by phone, or in person.

In the event field repairs are necessary, the State will provide transportation from the Contractor's facility to the field site and return. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the contractor's policy contains higher limits, the state shall be entitled to coverage to the extent of such higher limits.

Certificates of Insurance must be furnished to the procurement officer prior to contract approval and must provide for a notice of cancellation, non-renewal, or material change of conditions in accordance with policy provisions. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach of this contract and

Proof of insurance is required for the following:

To take advantage of these preferences, a business or individual must be on the appropriate Division of Vocational Rehabilitation list prior to the time designated for receipt of proposals.
