- Bidders must either be the direct manufacturer of the extraction technology or must be an authorized representative/reseller of the manufacture with three (3) years of experience prior to the bid close date.
- Bids must be accompanied by the names of three (3) laboratories that use the corresponding extraction technologies for high throughput SNP, microsatellite genotyping, and next generation (next gen) sequencing.

A bidder's failure to meet these minimum prior experience requirements will cause their bid to be considered non-responsive and rejected.

SEC. 1.04 INVITATION TO BID (ITB) REVIEW

Bidders shall carefully review this ITB for defects and questionable or objectionable material. Comments concerning defects and questionable or objectionable material in the ITB should be made in writing and received by the procurement officer at least ten days before the bid opening date. This will allow time for an amendment to be issued if one is required. It will also help prevent the opening of a defective bid, upon which award cannot be made, and the resultant exposure of bidders' prices.

SEC. 1.05 QUESTIONS PRIOR TO DEADLINE FOR RECEIPT OF BIDS

All questions must be in writing and directed to the procurement officer. The interested party must confirm telephone conversations in writing. Two types of questions generally arise. One may be answered by directing the questioner to a specific section of the ITB. These questions may be answered over the telephone. SEC. 2.10 SCOPE OF WORK AND SPECIFICATIONS

The Alaska Department of Fish and Game Gene Conservation Laboratory (GCL) is soliciting bids for DNA extraction kits to be used on Pacific and alleged Atlantic salmon liver, heart, muscle, scale epithelial cells, eyed-embryo, fin tissue; geoduck clam muscle and siphon epidermis tissue; sea cucumber muscle tissue; king crab hemolymph, muscle, hepatopancreas, eyed-embryo tissue; Northern Pacific kelp species tissues (and other issues with high amounts of PCR inhibitors); moose biopsy tissues; and bear hide, hair muscle, blood, saliva swabs and fecal swab samples. Although GCL cannot guarantee a minimum quantity of purchase, based on projections, GCL anticipates needing approximately 400 – 1,200 96-well plates and 250-500 single sample extractions each year.

All bids must meet the following minimum specifications:

1. Extractions in 96-well plates:

Method must be able to process at least 95 samples and one Non-Template Control (NTC) together, starting with cell lysis and ending with a final eluted, purified DNA product, in a single 96-well plate conforming to the ANSI/SLAS standard dimensions for a 96-well microplate (96-well plate).

Method must be based on silica technology and should not require any organic extraction (such as phenol or chloroform extraction) or a final DNA precipitation step. The silica membrane should have a binding capacity of at least 40 µg DNA per sample well.

The silica membrane must be incorporated in 96-well plates to facilitate isolation of genomic DNA from 190 samples and two NTCs simultaneously by a single lab technician. Purification of DNA from the plates must be completed in less than 2 hours after sample lyses.

Method must allow a single trained lab technician to process at least 190 samples and two NTCs to the cell lysis stage in less than two hours.

Method must be versatile enough to complete cell lysis of up to 25mg tissue in less than three hours, but also preserve DNA quality if tissues are left in the cell lysis solution overnight.

Method must be compatible with all tissues referenced above either freeze dried, dehydrated, or preserved in 100% ethanol, 100% Reagent Alcohol, 20% DMSO solution, Longmire's Solution, or frozen at -80°C, or on Whatman™ paper or scale cards.

Method must be able to yield an average of 40µg, but no less than 5µg of DNA (in 200µL elution buffer) per 25mg of salmon fin, heart, muscle, or eyed-embryo tissue, geoduck clam muscle or siphon epidermis tissue, sea cucumber muscle tissue, king crab hemolymph, muscle, or hepatopancreas tissue, 200µL mammal blood and 10mg of salmon liver tissue.

Method must be able to yield an average of 30µg, but no less than 1µg of DNA (in 200µL elution buffer) per 20-100mg of kelp tissue.

Method must be able to yield an average of 4µg, but no less than 0.5µg, of DNA (in 75µL elution buffer) per single dried salmon scale sample, crab eyed-embryo sample, or mammal hair follicle sample.

Method must be able to yield an average of 6µg, but no less than 0.5µg, of DNA per single OmniSwab collected salmon fry epithelial cells.

Method must provide a final product of high-quality DNA in a transparent medium without any occluding precipitates that is suitable for PCR analysis, real time PCR analysis, SSR (STR) analysis, restriction digest or AFLP analysis, SNP genotyping, next gen sequencing, and RAD sequencing. DNA and medium should also be compatible with Standard BioTools' (formally Fluidigm's) integrated fluidic circuits (IFCs) for genotyping and pre-amplification in their 96.96 and 192.24 formats, ThermoFisher Scientific's (formally Life Technologies') QuantStudio 12K flex SNP genotyping platform, and Illumina's NextSeq next-gen sequencer.

Bids must include all chemicals and plastics (excluding pipette tips) required during the extraction process, including (but not limited to) cell lysis plates and a final DNA elution 96-well plate, even if any of those items are from a third-party vendor.

2. Extractions in single tubes:

Method must be based on silica technology and should not require any organic extraction (such as phenol or chloroform extraction) or a final DNA precipitation step. The silica membrane should have a binding capacity of at least 40 µg DNA per sample well.

The silica membrane must be incorporated in a capped tube capable of fitting inside a standard capped-1.5mL tube and a collection tube for discarding filter column waste. Purification of DNA from 24 samples must be completed in less than 2 hours after sample lyses.

Method must allow a single trained lab technician to process at least 50 samples to the cell lysis stage in less than two hours.

Method must be versatile enough to complete cell lysis of up to 25mg tissue in less than three hours, but also preserve DNA quality if tissues are left in the cell lysis solution overnight.

Method must be compatible with all tissues referenced in the opening paragraph and either freeze dried, dehydrated, or preserved in 100% ethanol, 100% Reagent Alcohol, 20% DMSO solution, Longmire's Solution, or frozen at -80°C, or on Whatman™ paper or scale cards.

Method must be able to yield an average of 40µg, but no less than 5µg of DNA (in 200µL elution buffer) per 25mg of salmon fin, heart, muscle, or eyed-embryo tissue, geoduck clam muscle or siphon epidermis tissue, sea cucumber muscle tissue, king crab hemolymph, muscle, or hepatopancreas tissue, 200µL mammal blood, and 10mg of salmon liver tissue

Method must be able to yield an average of 30µg, but no less than 1µg of DNA (in 200µL elution buffer) per 20-100mg of kelp tissue.

Method must be able to yield an average of 4µg, but no less than 0.5µg, of DNA (in 75µL elution buffer) per single dried salmon scale sample, crab eyed-embryo sample, or mammal hair follicle sample.

Method must be able to yield an average of 6µg, but no less than 0.5µg, of DNA per single OmniSwab collected salmon fry epithelial cells, mammal saliva, or mammal feces.

Method must provide a final product of high-quality DNA in a transparent medium without any occluding precipitates that is suitable for PCR analysis, real time PCR analysis, SSR (STR) analysis, restriction digest or AFLP analysis, SNP genotyping, next gen sequencing, and RAD sequencing. DNA and medium should also be compatible with Standard BioTools' (formerly Fluidigm's) integrated fluidic circuits (IFCs) for genotyping and pre-amplification in their 96.96 and 192.24 formats, ThermoFisher Scientific's (formerly Life Technologies') QuantStudio 12K flex SNP genotyping platform, and Illumina's NextSeq next-gen sequencer.

The contractor must file all claims against the carrier(s) for damages incurred to items in transit from the point of origin to the ultimate destination. The state will provide the contractor with written notice when damaged goods are received. The state will deduct the cost of the damaged goods from the invoice prior to payment. The contractor must file all claims against the carrier(s) for reimbursement of the loss.

SEC. 2.13 DELIVERY TIME

The elapsed time between the time the state places an order and the time that order is actually shipped from the contractor's place of business must be entered in the space provided on the Bid Schedule. This processing time shall remain constant throughout the life of the contract(s).

The state may employ all reasonable means to ensure that the work is progressing and being performed in compliance with the contract. The state may instruct the contractor to make corrections or modifications if needed in order to accomplish the contract's intent. The contractor will not unreasonably withhold such changes.

Substantial failure of the contractor to perform the contract may cause the state to terminate the contract. In this event, the state may require the contractor to reimburse monies paid (based on the identified portion of unacceptable products or work received) and may seek associated damages.

SEC. 2.15 CONTINUING OBLIGATION OF CONTRACTOR

Notwithstanding the expiration date of a contract resulting from this ITB, the contractor is obligated to fulfill its responsibilities until warranty, guarantee, maintenance, and parts availability requirements have completely expired.

SEC. 2.16 ESTIMATED QUANTITIES

The estimated annual use quantities referenced in this ITB are only estimates and may vary more or less from the quantities actually purchased. The state will use the estimated annual use numbers for the evaluation and award of the ITB but the state does not guarantee any minimum purchase. Orders will be issued throughout the contract period by various state agencies on an as-needed basis.

SEC. 2.17 CONTRACT PRICE ADJUSTMENTS

A contract resulting from this ITB will include the following price adjustment clause:

The contractor may request a Percentage Price Increase adjustment, in writing, 30 days prior to the contract renewal date and then annually after the initial contract renewal. If a contractor fails to request a Percentage Price Increase adjustment 30 days prior to the renewal date, the adjustment will be effective 30 days after the state receives their written request.

Said price increase may not, under any circumstances, exceed 2.5 percent of the price of the contract for the preceding 12 months. No retroactive contract price adjustments will be allowed.

All price adjustments must be approved by the procurement officer prior to the implementation of the adjusted pricing. Approval shall be in the form of a contract amendment issued by the procurement officer.

SEC. 2.19 INDEMNIFICATION

The contractor shall indemnify, hold harmless, and defend the contracting agency from and against any claim of, or liability for error, omission or negligent act of the contractor under this agreement. The contractor shall not be required to indemnify the contracting agency for a claim of, or liability for, the independent negligence of the contracting agency. If there is a claim of, or liability for, the joint negligent error or omission of the contractor and

the independent negligence of the contracting agency, the indemnification and hold harmless obligation shall be apportioned on a comparative fault basis.

“Contractor” and “contracting agency”, as used within this and the following article, include the employees, agents and other contractors who are directly responsible, respectively, to each. The term “independent negligence” is negligence other than in the contracting agency’s selection, administration, monitoring, or controlling of the contractor and in approving or accepting the contractor’s work.

SEC. 2.20 INSURANCE

Without limiting the contractor's indemnification, it is agreed that the contractor shall purchase at its own expense and maintain in force at all times during the performance of services under this agreement the following policies of insurance. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the contractor's policy contains higher limits, the state shall be entitled to coverage to the extent of such higher limits.

Certificates of Insurance must be furnished to the procurement officer prior to contract approval and must provide for a notice of cancellation, non-renewal, or material change of conditions in accordance with policy provisions. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach of this contract and shall be grounds for termination of the contractor's services. All insurance policies shall comply with and be issued by insurers licensed to transact the business of insurance under AS 21.

Proof of insurance is required for the following:

- Workers' Compensation Insurance: The contractor shall provide and maintain, for all employees engaged in work under this contract, coverage as required by AS 23.30.045, and; where applicable, any other statutory obligations including but not limited to Federal U.S.L. & H. and Jones Act requirements. The report must contain at least the following information: purchasing entity, description of items and/or services purchased, date of purchase, contract price, retail price, extended contract and retail price, and savings.

These reports are due 30 days after the end of each quarter. The contractor’s failure to provide these reports as required may result in contract default action.

<u>Reporting Period</u>	<u>Due Date</u>
State Fiscal Quarter 1 (Jul 1 - Sept 30):	Oct 31
State Fiscal Quarter 2 (Oct 1 - Dec 31):	Jan 31
State Fiscal Quarter 3 (Jan 1 - Mar 31):	Apr 30

A late payment is subject to 1.5% interest per month on the unpaid balance. Interest will not be paid if there is a dispute or if there is an agreement that establishes a lower interest rate or precludes the charging of interest.

Any single contract payments of \$1 million or higher must be accepted by the contractor via Electronic Funds Transfer (EFT).

SEC. 3.03 THIRD-PARTY FINANCING AGREEMENTS NOT ALLOWED

Because of the additional administrative and accounting time required of the state when third party financing agreements are permitted, they will not be allowed under this contract.

An evaluation may not be based on discrimination due the race, religion, color, national origin, sex, age, marital status, pregnancy, parenthood, disability, or political affiliation of the bidder.

ACCEPTANCE TEST:

A proof of concept will be required using samples from GCL and performed by GCL staff before contract is completed. Within 14 calendar days of the award, the contractor will be required to submit samples of the items offered for inspection and evaluation. The State may conduct an acceptance test. If so, the test will use appropriate means to determine if the product offered meets the solicitation specifications. The vendor will be allowed to observe the tests.

If the product fails to meet the solicitation specifications the State will, at its option, reject the response, cancel the contract, allow the contractor to repair the defective product or allow the contractor to replace the defective product. In no instance will the State pay any cost associated with the remedy for the defective product. The State's acceptance tested product may not be interpreted as evidence that the product is in perfect working order. The terms of the warranty will continue to apply.

SEC. 4.02 APPLICATION OF PREFERENCES

Certain preferences apply to all state contracts, regardless of their dollar value. The Alaska Bidder and Alaska Veteran preferences are the most common preferences involved in the ITB process. Additional preferences that may apply to this procurement are listed below. Guides that contain excerpts from the relevant statutes and codes, explain when the preferences apply and provide examples of how to calculate the preferences are available at the following website:

<http://doa.alaska.gov/dgs/pdf/pref1.pdf>

- Alaska Products Preference - AS 36.30.332
- Recycled Products Preference - AS 36.30.337

To take advantage of these preferences, a business or individual must be on the appropriate Division of Vocational Rehabilitation list prior to the time designated for receipt of proposals. Bidders must attach a copy of their certification letter to the proposal. **A bidder's failure to provide this certification letter with their proposal will cause the state to disallow the preference.**

SEC. 4.03 ALASKA BIDDER PREFERENCE

An Alaska Bidder Preference of 5% will be applied to the total bid price. The preference will be given to a bidder who:

- 1) holds a current Alaska business license prior to the deadline for receipt of bids;
- 2) submits a bid for goods or services under the name appearing on the bidder's current Alaska business license;
- 3) has maintained a place of business within the state staffed by the bidder, or an employee of the bidder, for a period of six months immediately preceding the date of the bid;

Alaska Bidder Preference Certification Form

In order to receive the Alaska Bidder Preference, the bid must include the Alaska Bidder Preference Certification Form attached to this ITB. A bidder does not need to complete the Alaska Veteran Preference questions on the form if not claiming the Alaska Veteran Preference. A bidder's failure to provide this completed form with their bid will cause the state to disallow the preference.

SEC. 4.04 ALASKA VETERAN PREFERENCE

To qualify for the preference, the product must have received certification from DCCED, be listed in the current published edition of the Alaska Products Preference List, and the bidder must provide the qualified product on a 100% basis. There are no provisions under Alaska Statutes or Regulations that allow for a product exchanges/substitutions or permit the product to be co-mingled with other products. Rather, AS 36.30.330 provides for a penalty for failing to use the designated Alaska products.

Products are classified in one of three categories:

- Class I products receive a 3% preference.
- Class II products receive a 5% preference.
- Class III products receive a 7% preference.

When the bids are evaluated, the preference percentage will be deducted from the product price. If a bidder fails to specify the brand being offered, no preference will be given. For more information on the Alaska Product Preference and to see the list of products currently on the Alaska Product Preference List, use the following web link:

<https://www.commerce.alaska.gov/web/dcra/AlaskaProductPreferenceProgram.aspx>

If offering a product that qualifies for the Alaska Product Preference, the bidder must indicate the brand of product they intent to provide. If a bidder is not offering a product that qualifies for the Alaska Product Preference, the bidder does not need to indicate a product brand.

Brand of Product Changes

During the course of the contract including all renewal options, a contractor that offered a product that qualified for the Alaska Product Preference wishes to change the product brand, the contractor must first provide a written request, along with evidence that the replacement brand also qualifies for the Alaska Product Preference, for approval by the procurement officer. A contract amendment must be issued by the procurement officer to authorize the change.

If a bidder offers a product brand in the original bid that does not qualify for the Alaska Product Preference, a change in the product brand may be made at any time during the course of the contract, including all renewals, as long as the product band continues to meet the required specifications. A contract amendment is not required if the product brand originally offered did not qualify for the Alaska Product Preference.

SEC. 4.08 EMPLOYMENT PROGRAM PREFERENCE

If a bidder qualifies for the Alaska Bidder Preference and is offering goods or services through an employment program as defined under AS 36.30.990(12), an Employment Program Preference of 15% will be applied to the total bid price.

As evidence of a company's right to the preferences, the Division of Vocational Rehabilitation will issue a certification letter. To take advantage of the preferences, a bidder must be on the appropriate Division of Vocational Rehabilitation list at the time the bid is opened and must attach a copy of their certification letter to their bid. The bidder's failure to provide this certification letter with their bid will cause the state to disallow the preference.

SEC. 4.11 EXTENSION OF PRICES

In case of error in the extension of prices in the bid, the unit prices will govern; in a lot bid, the lot prices will govern.

SEC. 4.12 METHOD OF AWARD

Award will be made to the lowest responsive and responsible bidder. In order to be considered responsive, bidders must bid on all items.

SEC. 4.13 CONTRACTOR SELECTION PROCESS

Once the contracts are established this selection process will be used. When the state needs security services the lowest priced contractor for that location will be contacted first. If, for any reason, the lowest contractor is not available to perform the needed service, the state will contact the next lowest priced contractor for that location. This process will continue until a contractor who can perform the service is located. The location of the contractor initially contacted will be determined by the starting location of the call-out. For instance, if there was a need to transport a person from Anchorage to Fairbanks and then guard the person for two days in Fairbanks, the agency would contact Anchorage contractors, even though a substantial portion of the actual service would be performed in Fairbanks.

SEC. 4.14 NOTICE OF INTENT TO AWARD

After the responses to this ITB have been opened and evaluated, a tabulation of the bids will be prepared. This tabulation, called a Notice of Intent to Award, serves two purposes. It lists the name of each company or person

that offered a bid and the price they bid. It also provides notice of the state's intent to award a contract(s) to the bidder(s) indicated. A copy of the Notice of Intent will be mailed to each company or person who responded to the ITB. Bidders identified as the apparent low responsive bidders are instructed not to proceed until a Purchase Order, Contract Award, Lease, or some other form of written notice is given by the procurement officer. A company or person who proceeds prior to receiving a Purchase Order, Contract Award, Lease, or some other form of written notice from the procurement officer does so without a contract and at their own risk.

SECTION 5. GENERAL PROCESS AND LEGAL INFORMATION

SEC. 5.01 ALASKA BUSINESS LICENSE AND OTHER REQUIRED LICENSES

Prior to the award of a contract, a bidder must hold a valid Alaska business license. However, in order to receive the Alaska Bidder Preference and other related preferences, such as the Alaska Veteran Preference and Alaskans with Disabilities Preference, a bidder must hold a valid Alaska business license prior to the deadline for receipt of bids. Bidders should contact the **Department of Commerce, Community and Economic Development, Division of Corporations, Business, and Professional Licensing, PO Box 110806, Juneau, Alaska 99811-0806**, for information on these licenses. SEC. 5.05 SPECIFICATIONS

Unless otherwise specified in this ITB, product brand names or model numbers specified in this ITB are examples of the type and quality of product required, and are not statements of preference. If the specifications describing an item conflict with a brand name or model number describing the item, the specifications govern. Reference to brand name or number does not preclude an offer of a comparable or better product, if full specifications and descriptive literature are provided for the product. Failure to provide such specifications and descriptive literature may be cause for rejection of the offer.

SEC. 5.06 ORDER DOCUMENTS

Except as specifically allowed under this ITB, an ordering agency will not sign any vendor contract. The state is not bound by a vendor contract signed by a person who is not specifically authorized to sign for the state under this ITB. Unless otherwise specified in this ITB, the State of Alaska Purchase Order, Contract Award and Delivery Order are the only order documents that may be used to place orders against the contract(s) resulting from this ITB.

SEC. 5.08 RIGHT OF REJECTION

Bidders must comply with all of the terms of the ITB, the State Procurement Code (AS 36.30), and all applicable local, state, and federal laws, codes, and regulations. The procurement officer may reject any bid that does not comply with all of the material and substantial terms, conditions, and performance requirements of the ITB.

Bidders may not qualify the bid nor restrict the rights of the state. If a bidder does so, the procurement officer may determine the bid to be a non-responsive counter-offer and the bid may be rejected.

Minor informalities that:

- do not affect responsiveness;
- are merely a matter of form or format;
- do not change the relative standing or otherwise prejudice other offers;
- do not change the meaning or scope of the RFP;
- are trivial, negligible, or immaterial in nature;
- do not reflect a material change in the work; or
- do not constitute a substantial reservation against a requirement or provision;

may be waived by the procurement officer.

The state reserves the right to refrain from making an award if it determines that to be in its best interest.

A bid from a debarred or suspended bidder shall be rejected.

SEC. 5.09 STATE NOT RESPONSIBLE FOR PREPARATION COSTS

The state will not pay any cost associated with the preparation, submittal, presentation, or evaluation of any bid.

SEC. 5.10 DISCLOSURE OF BID CONTENTS

If the offeror does not do these things, the information will become public after the Notice of Intent to Award is issued. If the offeror does these things, OPPM or their designee will evaluate the offeror's assertion upon receiving a request for the information. If OPPM or their designee reject the assertion, they will, to the extent permitted by federal and State of Alaska law, undertake reasonable measures to give the offeror an opportunity to object to the disclosure of the information.

SEC. 5.11 ASSIGNMENTS

Per 2 AAC 12.480, the contractor may not transfer or assign any portion of the contract without prior written approval from the procurement officer. Bids that are conditioned upon the state's approval of an assignment will be rejected as non-responsive.

SEC. 5.15 SEVERABILITY

If any provision of the contract or agreement is found to be invalid or declared by a court to be illegal or in conflict with any law, the validity of the remaining terms and provisions will not be affected; and, the rights and obligations of the parties will be construed and enforced as if the contract did not contain the particular provision held to be invalid.

SEC. 5.16 CONTRACT CANCELLATION

If the bidder leases services or supplies or acts as a broker or agency in providing the services or supplies in order to meet these requirements, the procurement officer may not accept the bidder as a qualified bidder under AS 36.30.

SEC. 5.20 FEDERALLY IMPOSED TARIFFS

- **Notification of Changes:** The contractor must promptly notify the procurement officer in writing of any new, increased, or decreased federal excise tax or duty that may result in either an increase or decrease in the contract price and shall take appropriate action as directed by the procurement officer.
