

DMVA INSTALLATION SPILL CONTINGENCY PLAN

CAN YOU CLEAN UP WITH THE MATERIALS AND PERSONNEL YOU HAVE ON HAND?

This includes a leak, fuel spill, or a finding of fuel-stained soil.

YES

Incidental Release

Put on personal protective equipment, such as gloves and goggles, found in the spill response kits.

Remove ignition sources and avoid vapors.

Stop flow of spill by closing valves, up-righting container, or creating a berm with boom, dirt, or snow. (See page 3 for location of piping shut-off valves.)

Place pooled material and contaminated sorbent, snow, soil, and debris into 55-gallon drum(s) or onto plastic sheeting using non-sparking tools. This should be done as quickly as is feasible after a spill to prevent further migration of oil.

Label drum(s). Example:

POL Spill Residue
October 2018

Contact AKARNG/DMVA Environmental Office to arrange for disposal: (907) 428-7182.

Use the adjacent notification chart for spill reporting once the spill response is complete.

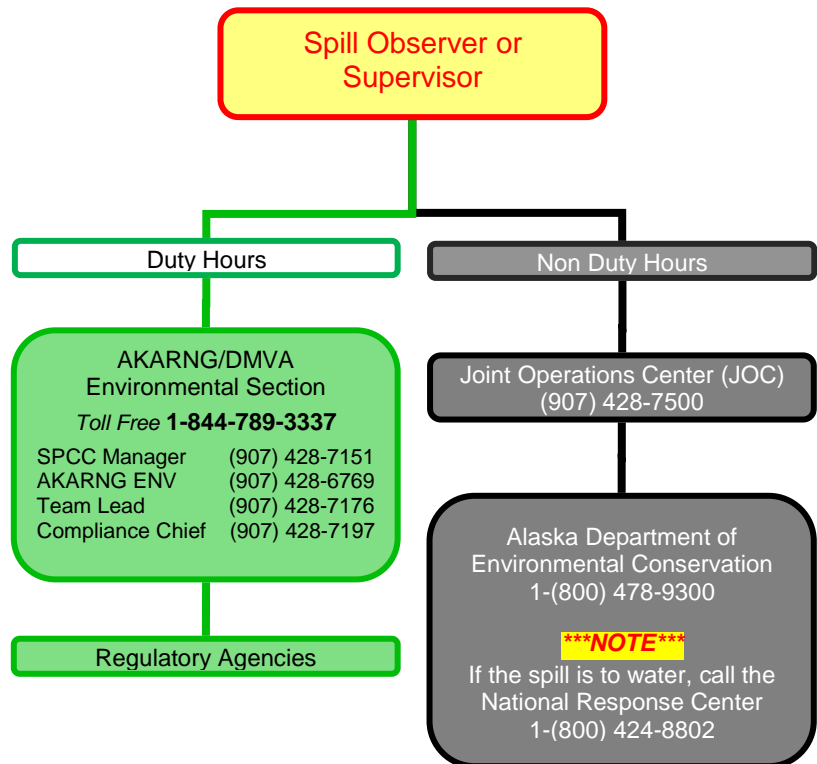

NO

Uncontrolled Release

Evacuate Personnel if Necessary.

Use the following flow chart to notify Chain of Command and Environmental Section.

Do not leave only a voice mail. Notification is not complete until speaking with a person.

AKARNG Environmental Office will contract outside resources for cleanup when necessary.
