RE: Project Name: Kotzebue Armory Emergency Backup Generator
Project Number: 02C0122010
Project Location: Kotzebue, Alaska

Addendum # Two (2)

This addendum forms a part of the contract documents and modifies the original drawings and/or specifications for the subject work. In case of conflicts between this addendum and previously issued documents, this addendum shall take precedence.

The following additions are required:

1. There are several errors in the ITB paperwork that need to be deleted.
 - In the General Conditions Part 1.02.C.5 it reads: "Generator set to include an onboard automatic battery charger, engine block heater, load bank and remote annunciation. The load bank requirement is to be deleted.
 - In the General Conditions Part 1.02.C.15 it reads: " Provide and install 800-amp, 120/240-volt, three phase automatic and manual transfer switch." **This should be changed to 120/208 Volt.**

Bidders are required to acknowledge receipt of this addenda on the proposal/bid form. If you do not acknowledge receipt of this addendum your bid will be considered non-responsive.

Please contact me if you have any questions.

Sincerely

Jay Friesen
