RE: **Project Name:** Fairbanks Armory Emergency Backup Generator
 Project Number: 02B0520027
 Project Location: Fairbanks, Alaska

Addendum # Two (2)

This addendum forms a part of the contract documents and modifies the original drawings and/or specifications for the subject work. In case of conflicts between this addendum and previously issued documents, this addendum shall take precedence.

The following additions are required:

- In the General Conditions Part 1.02.C.5 it reads: "Generator set to include an onboard automatic battery charger, engine block heater, and load bank." **The load bank requirement is to be deleted.**
- In the General Conditions Part 1.02.C.15 it reads: "Provide and install 1000-amp, 120/240-volt, three phase automatic and manual transfer switch for Armory Building and Install 200 120/240 volt Automatic and manual transfer switch for the FMS building located behind the Armory." **The voltage should read 120/208 for both facilities.**
- There will be a minimum of 4 bollards to protect the generator. They will be minimum 4' below grade and 4' above grade and minimum 6" in diameter. They shall be Hazard Yellow in color.

Bidders are required to acknowledge receipt of this addenda on the proposal/bid form. If you do not acknowledge receipt of this addendum your bid will be considered non-responsive.

Please contact me if you have any questions.

Sincerely

Jay Friesen
