INDEMNIFICATION: The contractor shall indemnify, hold harmless, and defend the contracting agency from and against any claim of, or liability for error, omission or negligent act of the contractor under this agreement. The contractor shall not be required to indemnify the contracting agency for a claim of, or liability for, the independent negligence of the contracting agency. If there is a claim of, or liability for, the joint negligent error or omission of the contractor and the independent negligence of the Contracting agency, the indemnification and hold harmless obligation shall be apportioned on a comparative fault basis. "Contractor" and "Contracting agency", as used within this and the following article, include the employees, agents and other contractors who are directly responsible, respectively, to each. The term "independent negligence" is negligence other than in the Contracting agency's selection, administration, monitoring, or controlling of the contractor and in approving or accepting the contractor's work.

INSURANCE: Without limiting contractor's indemnification, it is agreed that contractor shall purchase at its own expense and maintain in force at all times during the performance of services under this agreement the following policies of insurance. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the contractor's policy contains higher limits, the state shall be entitled to coverage to the extent of such higher limits. Certificates of Insurance must be furnished to the contracting officer prior to beginning work and must provide for a notice of cancellation, non-renewal, or material change of conditions in accordance with policy provisions. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach of this contract and shall be grounds for termination of the contractor's services. All insurance policies shall comply with, and be issued by insurers licensed to transact the business of insurance under AS 21.

Proof of insurance is required for the following:

Workers' Compensation Insurance: The contractor shall provide and maintain, for all employees engaged in work under this contract, coverage as required by AS 23.30.045, and; where applicable, any other statutory obligations including but not limited to Federal U.S.L. & H. and Jones Act requirements. The policy must waive subrogation against the state.

Commercial General Liability Insurance: covering all business premises and operations used by the contractor in the performance of services under this agreement with minimum coverage limits of \$300,000 combined single limit per occurrence.

Commercial Automobile Liability Insurance: covering all vehicles used by the contractor in the performance of services under this agreement with minimum coverage limits of \$300,000 combined single limit per occurrence.

Failure to supply satisfactory proof of insurance within the time required will cause the state to declare the bidder non-responsible and to reject the bid.

FIRM, UNQUALIFIED AND UNCONDITIONAL OFFER: Bidders must provide enough information with their bid to constitute a definite, firm, unqualified and unconditional offer. To be responsive a bid must constitute a definite, firm, unqualified and unconditional offer to meet all of the material terms of the ITB. Material terms are those that could affect the price, quantity, quality, or delivery. Also included as material terms are those which are clearly identified in the ITB and which, for reasons of policy, must be complied with at risk of bid rejection for non-responsiveness.

NONDISCLOSURE AND CONFIDENTIALITY: Contractor agrees that all confidential information shall be used only for purposes of providing the deliverables and performing the services specified herein and shall not disseminate or allow dissemination of confidential information except as provided for in this section. The contractor shall hold as confidential and will use reasonable care (including both facility physical security and electronic security) to prevent unauthorized access by, storage, disclosure, publication, dissemination to and/or use by third parties of, the confidential information. "Reasonable care" means compliance by the contractor with all applicable federal and state law, including the Social Security Act and HIPAA. The contractor must promptly notify the state in writing if it becomes aware of any storage, disclosure, loss, unauthorized access to or use of the confidential information.

Confidential information, as used herein, means any data, files, software, information or materials (whether prepared by the state or its agents or advisors) in oral, electronic, tangible or intangible form and however stored, compiled or memorialized that is classified confidential as defined by State of Alaska classification and categorization guidelines (i) provided by the state to the contractor or a contractor agent or otherwise made available to the contractor or a contractor agent in connection with this contract, or (ii) acquired, obtained or learned by the contractor or a contractor agent in the performance of this contract. Examples of confidential information include, but are not limited to: technology infrastructure, architecture, financial data, trade secrets, equipment specifications, user lists, passwords, research data, and technology data (infrastructure, architecture, operating systems, security tools, IP addresses, etc).

If confidential information is requested to be disclosed by the contractor pursuant to a request received by a third party and such disclosure of the confidential information is required under applicable state or federal law, regulation, governmental or regulatory authority, the contractor may disclose the confidential information after providing the state with written notice of the requested disclosure (to the extent such notice to the state is permitted by applicable law) and giving the state opportunity to review the request. If the contractor receives no objection from the state, it may release the confidential information within 30 days. Notice of the requested disclosure of confidential information by the contractor must be provided to the state within a reasonable time after the contractor's receipt of notice of the requested disclosure and, upon request of the state, shall seek to obtain legal protection from the release of the confidential information.

The following information shall not be considered confidential information: information previously known to be public information when received from the other party; information freely available to the general public; information which now is or hereafter becomes publicly known by other than a breach of confidentiality hereof; or information which is disclosed by a party pursuant to subpoena or other legal process and which as a result becomes lawfully obtainable by the general public.

CONTRACT PERIOD: The length of the contract will be from **date of award** through **July 31, 2023** with the option to renew for one (1) additional one (1) year term. **Renewals are to be exercised solely by the State of Alaska.**

CONTRACT RENEWAL/PRICE ADJUSTMENTS: The contractor may request a 3% Percentage Price Increase adjustment, in writing, 30 days prior to the contract renewal date. If a contractor fails to request a Percentage Price Increase adjustment 30 days prior to the renewal date, the adjustment will be effective 30 days after the state receives their written request.

Said price increase may not, under any circumstances, exceed three (3) percent of the unit price of the contract for the preceding 12 months. No retroactive contract price adjustments will be allowed.

The contractor may be required to provide the procurement officer clear and convincing evidence, satisfactory to the state, that all of the following conditions exist:

1. the increase is the result of increased costs at the manufacturer's level and not costs under the contractor's control, and that;
2. the increase will not produce a higher profit margin for the contractor than that on the original contract, and that;
3. the increase affects only certain items that are clearly identified by the contractor.

Some acceptable forms of the evidence referred to above may take the form of a certified invoice from the manufacturer. The price increase evidence provided by the contractor shall be independently verified and approved by the procurement officer or contract administrator prior to the effective date of the price increase.

ALTERATIONS: The contractor must obtain the written approval from the contracting officer prior to making any alterations to the specifications contained in this ITB. The state will not pay for alterations that are not approved in advance and in writing by the contracting officer.

METHOD OF MEASUREMENT: Measurement will be computed by firm fixed price **per occurrence** for snow plowing & snow/ice removal services at each specified location. All costs for snow hauling and dumping associated with the removal services will be included in the firm fixed price per occurrence for snow plowing & removal services. This firm fixed price will be paid for all service occurrences for each awarded location/Lot for that month. Fuel, transportation of equipment, personnel, wages, supplies, tools, dump fees, and all other incidentals necessary for snow plowing, and snow/ice removal per occurrence should be **factored in with your bid price** for each individual location/Lot and for each different snow accumulation of 2" – 4" and 4.1" + .

Sanding and materials used for sanding shall be measured by occurrence at each specified location. All sanding will be paid per occurrence at the price listed on the bid schedule for that specified location. The Per occurrence price shall include all sand, equipment, incidentals, and personnel necessary to conduct sanding operations for each awarded location/Lot and **must meet sand specifications**. This firm fixed price will be paid for all service occurrences for each awarded location/Lot for that month. **Sanding is on a call-out basis per project manager.**

BASIS OF PAYMENT: Upon receipt of a monthly invoice, determined by Method of Measurement, shall be paid for at the firm fixed contract price per location and **per occurrence** for the pay items shown in the Bid Schedule for each location/Lot awarded to the contractor. As soon as practical after each month's service, the Contractor will furnish the State with an itemized invoice by parking lot location for payment.

QUANTITY: As-Needed.

ESTIMATED QUANTITIES: The quantities referenced in this ITB are the state's estimated requirements and may vary more or less from the quantities actually purchased. The state will use the estimated use numbers for the evaluation and award of the ITB but the state does not guarantee any minimum or maximum quantity/service.

INVOICES: Invoices must be sent directly to the ordering agency's address shown on the Contract Award. The ordering agency will only make payment after it receives the service and the invoice. Questions concerning payment must be addressed to the ordering agency. Send to: State of Alaska, DOT & PF, Central Region, M&O Facilities, 5848 East Tudor Road, Anchorage, Alaska 99507 see Appendix C for detailed instructions.

THIRD-PARTY FINANCING AGREEMENTS NOT ALLOWED: Because of the additional administrative and accounting time required of state agencies when third party financing agreements are permitted, they will not be allowed under this contract.

WORKMANSHIP & MATERIALS: All work must be performed in a thorough and workmanlike manner and in accordance with current industry practices. The contractor will be held responsible for the quality of the finished item. The state will reject any item that does not meet the specifications of the ITB. Rejected items will be returned to the contractor at the contractor's risk and expense.

SERVICE CONTRACT DEFICIENCIES: The contractor's failure to provide a service required by this contract will be grounds for the state to issue a Service Deficiency Claim (SDC) to the contractor. The SDC will be provided to the contractor in writing. The contractor will advise the state, in writing, of the corrective action being taken. If a deficiency is not corrected within one (1) business from the time it is issued, the state may issue another SDC and procure, from another contractor, the services necessary to correct the problem. The contractor will then be obligated to reimburse the state for the amount required to correct the problem. If a contractor gets more than two substantiated SDCs in a 30-day period or a total of four substantiated SDCs in a 60-day period, it will be grounds for the state to declare the contractor in default.

CONTINUING OBLIGATION OF CONTRACTOR: Regardless of the terms and conditions of any third-party financing agreement, the contractor agrees that none of its responsibilities under this contract are transferable and that the contractor alone will continue to be solely responsible until the expiration date of the contract. Such responsibilities include, but are not limited to, the provision of equipment, training, warranty service, maintenance, parts and the provision of consumable supplies. By signature on the face page of this ITB the bidder acknowledges this requirement and indicates unconditional acceptance of this continuing obligation clause.

CONTRACT CANCELLATION: The State reserves the right to cancel the contract at its convenience upon thirty (30) calendar day's written notice to the contractor. The State is liable only for payment in accordance with the payment provisions of this contract for services or supplies provided before the effective date of termination.

METHOD OF AWARD: Award will be made by Lot to the lowest responsive and responsible bidder. There are Two (2) Lots. In order to be considered responsive for a Lot, bidders must bid on all items within that Lot.
