## Responses to Questions Received by Offerors

**Question 1:** Just checking does the end user need to have microphones. The radios ordered as is do not come with mics, u must order them. The Part number is KAA-0290.

**Answer:** Yes, that should be standard equipment with mobile radios. I recommend that you include the new microphones as part of this order. See Changes to RFQ

**Question 1:** Is this a Brand Name only requirement, or may we offer an alternate brand that meets or exceeds the specifications listed in the RFQ?

**Answer:** Alternate brands will not be accepted. Forestry's existing radio fleet is BK so it is wise to continue using the same manufacturer unless you plan on replacing *all* of the radios with a different manufacturer. From a radio programming and management standpoint, ideally you want to keep things consistent and not have a variety of radios and code plugs to deal with. From an end user standpoint, it's also best to remain consistent with a familiar radio as well.
