2023 SPORT FISH FRESHWATER VESSEL REGISTRATION INSTRUCTIONS

VESSEL REGISTRATION

The following applies to all powered and non-powered vessels being used to conduct guided sport fishing activities:

- For vessel registration purposes, a vessel is defined as any watercraft used or capable of being used as a means of transportation on water. REGISTRATION EXEMPTION: personal float tubes.
- Must have a current Vessel Registration Number as required by the Alaska Division of Motor Vehicles (DMV) and hold a current Vessel Registration Number, or hold a current U.S. Coast Guard (USCG) documentation number.
- Must be registered with the Alaska Department of Fish and Game (ADF&G) and display ADF&G sport fish guide vessel decals with the current year stickers.
- Vessels borrowed or purchased in-season must adhere to the above criteria and display ADF&G sport fish guide vessel decals and year stickers.
- Current ADF&G vessel decals and year stickers validate vessel registration for the season.

Upon registration, each vessel is issued two charter vessel decals (if necessary) and two current year stickers.

VESSEL DECALS/YEAR STICKERS

- One set of ADF&G decals will be issued per registered vessel (if necessary). Each vessel will also be issued two year stickers upon annual registration.
- Decals must be displayed and visible on each side of the vessel. Decals do not have to be applied directly to the hull of the vessel. Decals can be adhered to wood, fiberglass, or plexiglas® which in turn is secured to each side of the vessel.
- Decals can be transferred from one vessel to another, as long as the receiving vessel has a current AK registration number from DMV or a USCG documentation number and has been registered with ADF&G.
- Decals are designed to withstand several years of use. Year stickers will be issued as vessels are registered. Year stickers are to be adhered directly to the decal in the designated area.
