

STATE OF ALASKA
DEPARTMENT OF NATURAL RESOURCES
Division of Mining, Land and Water

Northern Region Land Office,
Fairbanks
(907) 451-2740

Southcentral Region Land Office,
Anchorage
(907) 269-8503

Southeast Region Land Office,
Juneau
(907) 465-3400

The Department of Natural Resources, Division of Mining, Land and Water's (DMLW) regional land offices are responsible for managing state land and resources. Certain activities on state land require a land use permit, while other activities are considered "generally allowed" or require other authorizations. Commercial recreation facilities that remain no longer than 14 days in any one site may obtain a commercial recreation permit rather than a land use permit. Additional information and forms are available online or at any Division of Mining, Land and Water regional land office and the Public Information Centers in Anchorage and Fairbanks. The following text describes information that is required to be filled out by applicants for your application to be considered complete.

Land Use Permits:

- Authorize the temporary use of state land or resources;
- can be issued for up to five years;
- do not convey any interest in state land;
- are revocable with or without cause;
- are not transferable; and
- do not constitute waiver of any other state, federal, or local laws.

Complete Land Use Permit Application Packages include the following documents:

- A Land Use Permit application form completed and signed by the applicant;
- A completed Supplemental Questionnaire for Use of State-Owned Uplands if the use or activity includes use of state-owned uplands - **including a Site Development Diagram**;
- A completed Supplemental Questionnaire for Off-Road Travel if the use or activity includes travel by or with means that exceed those that are generally allowed; and/or
- A completed Supplemental Questionnaire for Use of State-Owned Waters (Shorelands, Tidelands, and Submerged Lands) if the use or activity includes uses on tide and submerged lands below the mean high tide line in marine environments or uses on state-owned shorelands below the ordinary high-water line in freshwater environments - **including a Site Development Diagram**.
- A Site Development Diagram showing each item labeled so that it corresponds with your description in the Questionnaire. The Site Development Diagram must include:
 - **Location** - Section, Township, and Range lines; North arrow; scale; title; and include a legend (these items may be attached if necessary).
 - **Boundaries** – Boundaries and dimensions of proposed area of use and their relation to geographic features, including water bodies, and existing trails or rights-of-way.
 - **Structures and Storage** - Location and dimensions of buildings, tent platforms, out-buildings and other improvements, and of equipment parking and storage areas, including snow storage areas.
 - **Hazardous substances** – Location and dimensions of storage facilities for hazardous substances, including but not limited to oil, lubricants, fuel oil, gasoline, solvents, and diesel fuel. Include method and dimensions of storage (tank, drum, etc.).

Other items that must accompany the application package include:

- **Map** - a topographic map or aerial photo of sufficient scale to show the location of the proposed activity.
- **Filing Fees** - A non-refundable filing fee required by regulation (11 AAC 05.010(5)(B)). See the current Director's Fee Order for applicable fees. Make checks payable to the "State of Alaska".
- **Other Miscellaneous Items:** Items specifically identified and required in any of the supplemental questionnaires.

Completed Land Use Permit Applications must be submitted electronically to an email address below or mailed to one of the following offices closest to the proposed use or activity on state lands:

Northern Region Land Office
3700 Airport Way
Fairbanks, AK 99709-4699
(907) 451-2740
nro.lands@alaska.gov

Southcentral Region Land Office
550 West 7th Ave, Suite 900C
Anchorage, AK 99501-3577
(907) 269-8503
dnr.scro.permitting@alaska.gov

Southeast Region Land Office
P. O. Box 111020
Juneau, AK 99811-1020
(907) 465-3400
sero@alaska.gov

Statewide TTY – 771 for Alaska Relay or 1-800-770-8973

Prior to issuance of a permit, an applicant is required to submit one or more of the following:

- **Use Fees** - The use fee depends on the type of activity, length of use and the acreage authorized for use. See the current Director's Fee Order or contact your regional office for applicable fees.
- **Performance Guaranty (Bond)** - A performance guaranty is held by the state to incentivize performance and to pay for corrective action if the use of state land fails to comply with the requirements of the permit. Acceptable types of performance guaranties include:
 - cash or check made out to the State of Alaska;
 - a Certificate of Deposit (CD) in the state's name; or
 - a corporate surety bond.
- **Insurance** – Proof of insurance to protect you and the state from liabilities incurred through the use of state land.
- **Survey and Location** - Surveys are generally not required for land use permits. Many authorizations require a Global Positioning System (GPS) to determine the location of the project. If we determine a survey is required, we will contact you.

ONLY COMPLETE APPLICATIONS WILL BE ACCEPTED

STATE OF ALASKA DEPARTMENT OF NATURAL RESOURCES
Division of Mining, Land and Water

LAND USE PERMIT APPLICATION
AS 38.05.850

Applicants must complete all sections of this application. In addition, applicants proposing:

- the use of the uplands must also complete the Supplemental Questionnaire for Use of State-Owned Uplands accompanying this application;
- off-road travel must also complete the Supplemental Questionnaire for Off-Road Travel accompanying this application; and/or
- the use of shorelands, tidelands, and submerged lands must also complete the Supplemental Questionnaire for Use of State-Owned Waters accompanying this application.

Other items that must accompany the completed application are:

- a (non-refundable) application fee; see current Director's Fee Order or contact your regional office for applicable fees;
- a topographic map or aerial photo showing the location of the proposed activity;
- additional items identified and required in any supplemental questionnaire(s) to this application; and
- additional pages if more space is necessary to answer the questions completely.

Completed Land Use Permit Applications should be submitted electronically or mailed to one of the following offices:

Northern Region Land Office
3700 Airport Way
Fairbanks, AK 99709-4699
(907) 451-2740
nro.lands@alaska.gov

Southcentral Region Land Office
550 West 7th Ave, Suite 900C
Anchorage, AK 99501-3577
(907) 269-8503
dnr.scro.permitting@alaska.gov

Southeast Region Land Office

(Applicant please provide if known)

Applicant Information:

Name: BP America Production Company

Doing Business As: BP America Production Company

Mailing Address: [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

Email Address: [REDACTED]

Date of Birth: _____

Business License #: [REDACTED]

EIN: _____

Contact Person: [REDACTED]

Home Phone: N/A

Work Phone: [REDACTED]

Cell Phone: N/A

Fax: _____

LAS #: 34343

If you are applying for a corporation, give the following information:

Name, address and place of incorporation:

BP America Production Company, [REDACTED]

Is the corporation qualified to do business in Alaska? Yes No

If yes, provide name, address and phone number of the resident agent:

C T Corporation System
[REDACTED]

Type of User (Select One): Private non-commercial (personal use) Commercial Recreation or Tourism
 Public Non-profit including Federal, State, Municipal Government Agency Other commercial or industrial

Duration of Project: The proposed activity will require the use of state land for: (Check one)

A single term of less than one year. Beginning month: _____ Ending month: _____
 A multi year term for up to 5 years. Beginning year: 2022 Ending year: 2027

If multi year and seasonal, mark months of use in each year.

Jan, Feb, Mar, Apr, May, Jun, Jul, Aug, Sept, Oct, Nov, Dec

Project Location:

Latitude/Longitude or UTM: 70.2873 N, 147.9082 W or

Section: 19 & 30 Township: 11 N Range: 17 E Meridian: Umiat

Section: 25 Township: 11 N Range: 16 E Meridian: Umiat

Proposed project will require the use of up to 17.6 acres.

(Please add additional sheets for this section as necessary)

LAS #: 34343

Project Description: Describe in detail your intended use of state land. (State land also includes all tide and submerged lands beneath coastal waters and all shorelands beneath other navigable waterbodies of the state.) Discuss development and activities. (Attach additional pages as necessary.)

Corrective Action is required under Alaska Department of Environmental Conservation (ADEC) regulations and will be performed in accordance with an ADEC-approved corrective action plan. Foggy Island Bay State No.1 is a gravel pad that was constructed for oil and gas exploration activities in 1975. Corrective action is being performed within the approximately 8-acre pad area to support closure of the inactive reserve pit, burn pit, sewer pit, lined fuel storage area, and cellar drain pit. The objective of the work is to restore the site to conditions that meet the requirements of the Alaska Department of Natural Resources (ADNR, the landowner), ADEC, and other stakeholders. See supplemental information for details.

Should a portion of the permitted area be closed to the general public? Yes No .

If yes, explain which portion and provide justification for exclusive use.

Restrictions are in place for the existing oil and gas production facilities, including access to the Endicott Road where the Project site would be accessed from. These restrictions will not be expanded as a result of the Project.

Site Description: Briefly describe the current condition of the proposed site of use, noting any trash, garbage, debris or signs of possible site contamination. (If significant, we recommend you provide pictures to establish initial conditions.)

See supplemental information for details.

LAS #: 34343

Are there improvements or materials on the site now? Yes No If yes, briefly describe the improvements, their approximate value, and who owns them. (We recommend you provide pictures of improvements.)

See supplemental information for details.

Describe the natural vegetation – ground cover, trees, shrubs – and any proposed changes. Describe the location of any estuarine, riparian, or wetlands and any noticeable animal use of area.

See supplemental information for details.

Site Access: Describe how you plan to access the site, and your mode of transportation.

Access to the site will be via boat or ice road from the Endicott road, depending on the time of year and availability.

If your access is by aircraft, specify the type and size of aircraft:

N/A

To access the site, the aircraft is equipped with floats wheels skis .

Number of people:

1. Indicate the number of employees and supervisors who will be working on the site. See suppl.
2. Indicate the number of customers who will be using the site per year or season. 0
3. Indicate the number of days the site will be used per year or season. See suppl.

LAS #: 34343

Environmental Risk / Hazardous Substances: In the course of your proposed activity will you generate, use, store, transport, dispose of, or otherwise come in contact with toxic and/or hazardous materials, and/or hydrocarbons?

Yes No . If yes, please describe:

Corrective action will require the removal and disposal of contaminated materials, including drilling waste and hydrocarbon-impacted material, crude-oil impacted material, and potentially gravel. A layer of foam board insulation (geofoam) underlays the pad and will be removed. These activities will be conducted in accordance with ADEC Contaminated Sites Program and Solid Waste Management Program approvals.

The types and volumes of fuel or other hazardous substances present or proposed:

Drilling waste and associated hydrocarbon-impacted material is estimated at approximately 4,600 loose cubic yards (LCY). Crude-oil impacted material is estimated at 6,800 LCY. Approximately 9,900 LCY of foam board is estimated to be removed from the site, the contaminated volume will be determined during site activities. Additionally, about 9,400 LCY of clean or conditional-use gravel will be used to restore areas excavated below tundra grade and provide a final surface elevation for the site.

The specific storage location(s):

Contaminated material will be hauled offsite to the Grind and Inject facility for disposal. Foam board insulation will be hauled to the North Slope Borough Oxbow Landfill for disposal.

The spill plan and prevention methods:

See supplemental information for details.

If you plan to use either above or below ground storage containers (like tanks, drums, or other containers) for hazardous material storage, answer the following questions for each container:

Where will the container be located?

N/A. Storage containers for hazardous materials will not be used on site. All material will be transported to North Slope Borough Oxbow Landfill and the Grind and Inject facility for disposal. Fuel storage on site is discussed in the supplemental information in Section 5. Spill Plan and Prevention Methods.

What will be stored in the container?

N/A

What will be the container's size in gallons? N/A

LAS #: 34343

Give a description of any secondary containment structure, including volume in gallons, the type of lining material, and configuration:

N/A

Will the container be tested for leaks? Yes No .

Will the container be equipped with leak detection devices? Yes No . If no, describe:

N/A

Do you have any reason to suspect, or do you know if the site may have been previously contaminated?

Yes No . If yes, please explain:

Contaminated soil at the site has been characterized in accordance with 18 AAC 75.335. Contamination will be cleaned up in accordance with 18 AAC 75.360.

APPLICANT ENVIRONMENTAL RISK QUESTIONNAIRE

The purpose of this questionnaire is to help clarify the types of activities you propose to undertake. The questions are meant to help identify the level of environmental risk that may be associated with the proposed activity. The Division of Mining, Land and Water's evaluation of environmental risk for the proposed activity does not imply that the parcel or the proposed activity is an environmental risk from the presence or use of hazardous substances.

Through this analysis, you may become aware of environmental risks that you did not know about. If so, you may want to consult with an environmental engineer or an attorney.

BP America Production Company

Applicant's Name	Doing Business As		
[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
Address	City	State	Zip
()	[REDACTED]	[REDACTED]	[REDACTED]
Message Phone	Work Phone	Email	Contact Person

Describe the proposed activity:

Proposed activities are designed to address environmental concerns posed by the current condition of the site. Corrective action is being performed within the approximately 8-acre pad area to support closure of the inactive reserve pit, burn pit, sewer pit, lined fuel storage area, and cellar drain pit. The objective of the work is to restore the site to conditions that meet the requirements of Alaska Department of Natural Resources (ADNR, the landowner), ADEC, and other stakeholders. The site will be accessed via ice road for winter activities. See supplemental information for details.

In the course of your proposed activity will you generate, use, store, transport, dispose of, or otherwise come in contact with toxic and/or hazardous materials, and/or hydrocarbons? Yes No. If yes, please list the substances and the associated quantities. Use a separate sheet of paper, if necessary.

Corrective action will require the removal and disposal of contaminated materials, including drilling waste and associated hydrocarbon-impacted material, crude-oil impacted material, and potentially gravel. The pad was constructed with an underlying layer of foam board insulation (geofoam), which will be removed. See supplemental information for approximate quantities of each type. Additionally, a 4,000-gallon fuel truck will transport fuel to the site for on-site equipment refueling.

ADL # 34343

If the proposed activities involve any storage tanks, either above or below ground, address the following questions for each tank. Please use a separate sheet of paper, if necessary, and, where appropriate, include maps or plats:

a. Where will the tank be located?

N/A. Fuel storage on site is discussed in the supplemental information in Section 5. Spill Plan and Prevention Methods.

b. What will be stored in the tank?

N/A. Fuel storage on site is discussed in the supplemental information in Section 5. Spill Plan and Prevention Methods.

c. What will be the tank's size in gallons? N/A. Fuel storage on site is discussed in the supplemental information.

d. What will the tank be used for? (Commercial or residential purposes?)

N/A. Fuel storage on site is discussed in the supplemental information in Section 5. Spill Plan and Prevention Methods.

e. Will the tank be tested for leaks? N/A

f. Will the tank be equipped with leak detection devices? Yes No. If yes, describe:

N/A

Do you know or have any reason to suspect that the site may have been previously contaminated? Yes No.

If yes, please explain:

Contaminated soil at the site has been characterized in accordance with 18 AAC 75.335. Contamination will be cleaned up in accordance with 18 AAC 75.360.

I certify that due diligence has been exercised and proper inquiries made in completing this questionnaire, and that the foregoing is true and correct to the best of my knowledge.

ADL # 34343

Applicant Environmental Risk Questionnaire Form 102-4008A (Rev. 09/21)

**LAND USE PERMIT APPLICATION SUPPLEMENTAL QUESTIONNAIRE FOR:
Off Road Travel**

Answer the following questions if your proposed activity includes off-road travel:

Terrain: Check the following terrain type(s) that best describes your route of travel:

- Wetlands
- Open, non-tundra or wetland areas
- Rivers or other waterbodies
- Wooded areas with trees of 6" or greater diameter (at breast height)
- Tundra areas

Vehicles and Weight: List the number and kinds of vehicles to be used for motorized travel, the weight of each vehicle and the weight of each trailer or sled (including loaded weight) to be carried by that vehicle:

Off-road travel will occur in winter using DMLW-approved equipment for pre-packing and ice road construction. The following equipment are anticipated for use in ice road and pad construction; however, specific equipment will be described in the site-specific approval request once conditions warrant travel (e.g., snow depth and soil temperature conditions are met).

- Tucker Sno-Cat
- AgChem TerraGator
- CAT 966 Loader
- Water Buffalo
- Roto Trimmer (to harvest ice chips)
- Rock Truck (to transport ice chips)
- Pump House
- 14G Motor Grader
- 275/325 BBL Water Tanker

Once the ice road is constructed, it will be used for heavy equipment including dump trucks and excavators. The largest piece of equipment to be mobilized over the ice road will be a work over rig weighing 175 tons.

Mileage:

- State the average total miles traveled in one round trip: 2.2 miles
- State the number of trips proposed: Multiple

Season: Proposed date(s) of travel will be: **From:** November/December 2022 **To:** approx. early May 2023

Stream and Waterbody Crossings: Note who you contacted in the ADF&G, Division of Habitat:

Date: N/A - no crossings Person: _____

Fuel and Hazardous Substance Factor: The volume of fuel and hazardous substances to be used is the total volume in gallons to be carried on one vehicle and any trailers or sleds that vehicle is towing.

- Maximum volume of fuel (in gallons) that is being transported by one vehicle and any trailers or sleds it is towing: 4,000 gallons.
- Hazardous substances other than fuel:

Substance: N/A

Substance: N/A

LAS # 34343

Page 1 of 2

- Do you have an Oil Discharge Prevention and Contingency Plan approved by the Alaska Department of Environmental Conservation? Yes No
 - Do you have either a trained spill response team or a contract with a spill response company? Yes No
-
