

# SITKA SEAWALK-PHASE 2 PROJECT SCOPING MEETING

**Wednesday, November 30, 2022 @ 6:30 PM**  
**Harrigan Centennial Hall, Room 6**

The Alaska Department of Transportation and Public Facilities, in coordination with the City and Borough of Sitka, is proposing to improve accessibility to the Sitka National Historical Park and downtown Sitka by extending the current Sitka Seawalk. This extension would continue from the Sitka Public Library to the O'Connell Lightering Facility and onto Totem Square. The project would guide visitor and resident pedestrian traffic through the community and provide expanded recreation opportunities.

Preliminary design and engineering are underway, and the public is invited to attend the project scoping meeting. This public meeting will take place on **Wednesday, November 30, 2022, from 6:30 p.m. to 8:00 p.m. in Room 6 of Harrigan Centennial Hall.**

The public can later watch this recorded meeting and provide comments via the project website. Comment period is open until December 30, 2022.
