SECTION 1. INTRODUCTION & INSTRUCTIONS

SEC. 1.01 PURPOSE OF THE RFP

The Department of Natural Resources, Division of Mining, Land and Water, is soliciting proposals for professional services to assist DNR in conducting technical reviews of applications related to mining projects and dams. DNR intends to award contract(s) for mining and dam safety related engineering INCLUDING: water and tailings dams; alternative tailings disposal; pit, waste rock dump, dry-stack tailings facilities and dam slope stability; dam seepage; seismology; hydrology and hydraulics; surface and groundwater modeling; hydrogeology and geochemistry; water management and water balances; mine closure and reclamation; mine closure and reclamation cost estimates; and, other related engineering specialties that may arise. Mining includes metal and non-metal mines including coal.

SEC. 1.02 BUDGET

Department of Natural Resources, Division of Mining, Land, and Water estimates a budget of \$500,000.00 dollars for all contracts and all years.

The services are as needed, and the budget amount is an estimate only and does not represent a work commitment. Funds will be available for each project and will be approved for each project's specific Delivery Order (DO). The State does not guarantee a minimum or a maximum number of services to be provided or a dollar amount to be spent under any contract resulting from this RFP.

Approval or continuation of a contract resulting from this RFP is contingent upon legislative appropriation.

SEC. 1.03 DEADLINE FOR RECEIPT OF PROPOSALS

Proposals must be received no later than **2:00 PM** Alaska Time on January 11, 2023. Late proposals or amendments will be disqualified and not opened or accepted for evaluation.

SEC. 1.04 PRIOR EXPERIENCE

In order for offers to be considered responsive offerors must meet these minimum prior experience requirements:

- The lead engineer in responsible charge of the work shall be registered in Alaska as a professional engineer.
- The proposed project team shall include an engineer with a minimum of 20 years of experience specifically related to mines and/or dams.
- The proposed project team must include an engineer qualified in accordance with 11 AAC 93.193(a).

Supporting evidence must be included with the offeror's proposal to show proof of the minimum experience requirements noted above including three (3) technical references (contact names and telephone numbers) to validate the offeror's performance history.

An offeror's failure to meet and demonstrate these minimum prior experience requirements in their proposal will cause their proposal to be considered non-responsive and rejected.

SEC. 1.05 REQUIRED REVIEW

Offerors should carefully review this solicitation for defects and questionable or objectionable material. Comments concerning defects and questionable or objectionable material should be made in writing and received by the procurement officer at least 10 days before the deadline for receipt of proposals. This will allow time for the issuance of any necessary amendments. It will also help prevent the opening of a defective proposal and exposure of offeror's proposals upon which award could not be made.

SEC. 1.06 QUESTIONS PRIOR TO DEADLINE FOR RECEIPT OF PROPOSALS

All questions must be in writing and directed to the procurement officer. The interested party must confirm telephone conversations in writing.

Two types of questions generally arise. One may be answered by directing the questioner to a specific section of the RFP. These questions may be answered over the telephone. Other questions may be more complex and may require a written amendment to the RFP. The procurement officer will make that decision.

Deadline to receive questions is December 30, by **2:00 PM** Alaska Time.

Email: david.baker@alaska.gov

SEC. 1.07 RETURN INSTRUCTIONS

If submitting a proposal via email, the technical proposal and cost proposal must be saved as separate PDF documents and emailed to david.baker@alaska.gov as separate, clearly labeled attachments, such as "Vendor A – Technical Proposal.pdf" and "Vendor A – Cost Proposal.pdf" (Vendor A is the name of the offeror). The email must contain the RFP number in the subject line.

The **maximum** size of a single email (including all text and attachments) that can be received by the State is **20mb (megabytes)**. If the email containing the proposal exceeds this size, the proposal must be sent in multiple emails that are each less than 20 megabytes and each email must comply with the requirements described above.

Please note that email transmission is not instantaneous. Similar to sending a hard copy proposal, if you are emailing your proposal, the State recommends sending it enough ahead of time to ensure the email is delivered by the deadline for receipt of proposals.

If submitting proposals using U.S. mail, or delivery service, offerors must submit one hard copy of their proposal, in writing, to the procurement officer in a sealed package. The cost proposal included with the package must be sealed separately from the rest of the proposal and must be clearly identified. The sealed proposal package(s) must be addressed as follows:

Department of Natural Resources

It is the offeror's responsibility to contact the issuing agency at **(907) 269-0998** to confirm that the proposal has been received. The State is not responsible for unreadable, corrupt, or missing attachments.

SEC. 1.08 ENROLLMENT IN IRIS

Offerors will be required to be enrolled in the State of Alaska's Integrated Resource Information System (IRIS) database prior to award of a contract resulting from this RFP. Enrollment can be done online at the following link: <https://iris-vss.alaska.gov>. Offerors who are not enrolled prior to award of a contract will be notified by DNR Procurement. Failure of an offeror to enroll in the IRIS database will delay award of the contract and may delay issuance of contract work.

SEC. 1.09 PROPOSAL CONTENTS

The following information must be included in all proposals.

The procurement officer reserves the right to **consider a proposal non-responsive and reject it** or cancel the award if any interest disclosed from any source could either give the appearance of a conflict or cause speculation as to the objectivity of the contract to be performed by the offeror.

(e) FEDERAL REQUIREMENTS

The offeror must identify all known federal requirements that apply to the proposal, the evaluation, or the contract.

SEC. 1.10 ASSISTANCE TO OFFERORS WITH A DISABILITY

Offerors with a disability may receive accommodation regarding the means of communicating this RFP or participating in the procurement process. For more information, contact the procurement officer no later than ten days prior to the deadline for receipt of proposals.

SEC. 1.11 AMENDMENTS TO PROPOSALS

Amendments to or withdrawals of proposals will only be allowed if acceptable requests are received prior to the deadline that is set for receipt of proposals. This RFP does not, by itself, obligate the State. The State's obligation will commence when the contract is approved by the Commissioner of the Department of Natural Resources, or the Commissioner's designee. Upon written notice to the Contractor, the State may set a different starting date for the contract. The State will not be responsible for any work done by the Contractor, even work done in good faith, if it occurs prior to the contract start date set by the State.

SEC. 1.14 ALTERNATE PROPOSALS

SECTION 2. BACKGROUND INFORMATION

SEC. 2.01 BACKGROUND INFORMATION

The Division of Mining, Land and Water (DMLW) within the Alaska Department of Natural Resources (ADNR) is responsible for issuing various permits and approvals for large mine projects and dams in Alaska. For example, the DMLW issues: mill site leases; water usage and appropriation authorizations; approvals for mine operation, construction and reclamation plans; and certificates of approval for construction, operation, repair, modification, removal or abandonment of dams. These large mine and dam safety related permits often share information common with other agencies including the U.S. Army Corps of Engineers (Section 404 permits, Section 10 permits), the Alaska Department of Environmental Conservation (APDES permits, waste management and disposal permits, Section 401 certifications, and pollution prevention plans). These permits and approvals cover a broad range of water management and mining related activities including exploration, production, reclamation, monitoring, and closure and various types and purposes of dams including, but not limited to water supply dams, mine tailings dams, and small hydroelectric dams that are not regulated by the Federal Energy Regulatory Commission (FERC).

Permits for these projects are issued after the review and approval of various technical and operational documents submitted by the applicants, including environmental impact statements, field and laboratory investigation reports, chemical analyses, computer models, design criteria and engineering evaluation reports, design memorandums, detailed design drawings, technical specifications, construction quality assurance/quality control plans, construction completion reports, as-built drawings, dam operations and maintenance manuals, mine operations plans, reclamation and closure plans, risk assessments and other information.

SECTION 3. SCOPE OF WORK & CONTRACT INFORMATION

SEC. 3.01 SCOPE OF WORK

The objective of this contract is to support DNR by reviewing technical information provided during the permitting and construction process of various projects for which applications are submitted. The Contractor shall review select portions of the application for consistency with regulations, generally recognized or project specific design standards, and the standard of care generally provided for a similar project by a qualified engineer or other professional. The Contractor shall provide redline markups of each submittal, discuss the project with DNR, provide comments, observations, opinions and recommendations in writing, and participate in project meetings. On occasion, laboratory testing, engineering calculations or computer models may be required to independently verify the content of a particular application. Limited field inspections may be required. If requested by the State, the Contractor shall participate in, manage, or provide independent experts for project specific design review boards or panels of expert reviewers. This may require subcontracting with industry recognized and specialized experts, not limited to the United States, that may be employed or retained independent from the Contractor, subject to approval from DNR within a specific NTP (Notice to Proceed).

Schedule

The Contractor shall be responsive to the applicant's project schedule. The lead engineer must be committed to providing continuity for the duration of the contract. All reviews shall be conducted in a timely manner and in accordance with schedules indicated in specific NTPs and under the direction of the lead engineer.

Due to the prolonged timelines expected in some application processes, the contracts will remain valid for any NTPs authorized before the end of the period of performance specified in the contract.

Execution

The Contractor shall provide services as identified and authorized by sequentially numbered NTPs, which shall be negotiated for each project assigned. The Contractor shall not perform services or incur billable expense except as authorized by an NTP.

DNR will provide select portions of the applicant's permit or baseline submittal to the Contractor for review, with a written description of the specific type of review work requested and, in some cases, an estimated level of effort that would be required for the work. For each NTP, the Contractor shall provide a brief proposal that includes a schedule of work, proposed scope of the review, who would be conducting the work, a description of deliverables, and an estimate of all time and costs to complete the task. Occasionally, when time is of the essence, this process will be conducted orally followed by written confirmation in the form of an NTP.

The Contractor shall not perform any services under this Agreement without receipt of a signed NTP from the Contracting Agency. The Contractor shall not exceed the cost estimate without additional written approval from DNR. Email correspondence is acceptable for this aspect of the contract.

The Contractor shall obtain prior Contracting Agency approval of each person assigned to work under the contract. Services performed by non-approved persons may not be acceptable. The Contracting Agency reserves the right to withdraw approval of any person by written notice to the Contractor.

All correspondence and documents submitted by the Contractor shall bear the Contracting Agency's assigned contract and task number and title.

Potential Disqualification, Technical Limitations and Conflicts of Interest or Schedule

Any association with current mine or dam projects in Alaska including related work in other parts of the world for clients known to be operating in Alaska must be indicated in the proposal. If there appears to be any association, the Contracting Agency will clarify the level of involvement and potential conflicts prior to contract award or issuance of an NTP. Any association with current mine or dam projects in Alaska that are not disclosed may result in disqualification or termination of the contract or NTP. If requested, an additional disclosure of potential conflicts of interest must be provided on a task specific basis prior to executing an NTP.

In the event the applicable contractor is unable to perform a portion of the services due to technical limitations, funding/budget issues, conflicts of interest, schedule requirements or by mutual agreement, the Contracting Agency reserves the right to assign applicable portions of the work to the next highest ranked contractor(s) or solicit separately for those services.

SEC. 3.02 CONTRACT TERM AND WORK SCHEDULE

The length of the contract will be from the date of award, for approximately three years. There will be two, one-year renewal option for this contract, which may be exercised at the sole discretion of the State.

Unless otherwise provided in this RFP, the State and the successful offeror/Contractor agree: (1) that any extension of the contract excluding any exercised renewal options, will be considered as a month-to-month extension, and all other terms and conditions shall remain in full force and effect and (2) the procurement officer will provide notice to the Contractor of the intent to cancel such month-to-month extension at least 30 days before the desired date of cancellation. A month-to-month extension may only be executed by the procurement officer via a written contract amendment.

SEC. 3.03 DELIVERABLES

The Contractor will shall provide the following deliverables:

- A. A work proposal for each specific task under consideration by DNR accompanied by a time and cost to perform the scope of work within the parameters established by the term contract.
- B. Notes, results, recommendations, evaluations, studies, opinions, and technical findings for all activities or items related to above term contractor duties.
- C. Other deliverables and documents as assigned.

SEC. 3.04 CONTRACT TYPE

Any resulting contracts will be Master Agreements (MA's) and will be Term Contracts. The dollar amount shown on the MA will be the maximum dollar amount to be spent for all services provided under the

agreement. The State does not guarantee a minimum or a maximum number of services to be provided, or dollar amount to be spent under any contract resulting from this RFP. Future projects will be awarded through Task Order Solicitations using the process set by section **3.05 TASK ORDER SOLICITATION AND DELIVERY ORDER PROCESS**.

SEC. 3.05 TASK ORDER SOLICITATION AND DELIVERY ORDER PROCESS

Once the MA is established this process will be used to issue Task Order Solicitation against the MA. When the State requires services under an MA the DNR Procurement Officer or Project Manager will issue a Task Order Solicitation to the contractor. The solicitation will be a written document sent by email; will outline the required services to be provided; will inform the Contractor how the proposal responses will be evaluated and will set a deadline for receipt of a proposal. Responses may be evaluated solely on cost, cost and technical response, or other criteria (i.e., timeliness of needed collection).

The Contractor must provide a negotiable cost estimate within the designated timeframe for the services. Evaluation of the Task Order Solicitation will be in accordance State Procurement Code. Task Order Solicitations may require Contractors to return a Task Order Solicitation Response Form.

The State may negotiate the services or costs in the offered proposal within the parameters of the State Procurement Code. Once an agreement is reached the State will issue a written Delivery Order to the Contractor authorizing the work.

If a Contractor has a potential conflict of interest with providing required services or is otherwise unable or unavailable to do the required work within the required timeline the State reserves the right to acquire services off-contract at its sole discretion under the provisions of the State Procurement Code.

The Contractor shall obtain State approval of each person or subcontractor assigned to work under a specific Delivery Order before beginning work. Should the Contractor provide services by a person not approved before work begins on the Delivery Order, those services may not be subsequently approved for payment. The State reserves the right to withdraw approval of any person or subcontractor by written notice to the Contractor.

The total cost for a project will not exceed the amount authorized on the Delivery Order without prior written approval from the DNR Project Manager or Procurement Officer. If at any time during the performance of the Delivery Order the Contractor has reason to believe the amount authorized on the Task Order will be exceeded the Contractor will notify the DNR Project Manager and provide a justification and an estimate of the additional cost for completion of the work. Similarly, if at any time during the performance of the Delivery Order the State has reason to believe that the work required will exceed the total cost due to a change in conditions, or if additional work will be required, the DNR Project Manager will so advise the Contractor and will require revised cost estimates from the Contractor.

The State will not be obligated to pay any amount in excess of the total cost set forth in any Delivery Order. If condition changes increase the Delivery Order amount, the Contractor will not be obligated to continue performance resulting in charges exceeding the price unless and until the DNR Procurement Officer has authorized the increase in writing and a revised Delivery Order has been issued.

Revision of Delivery Orders will be issued when an extension of time is needed to complete the project, or when the scope of work has been modified by the State, which may cause a change in the project costs. The revised Delivery Order must be signed by both the DNR Project Manager and the firm's authorized signatory prior to performing any additional work incurring additional cost or working past the original time limit. Inability of a firm to follow these procedures may be grounds for dismissal from a project or termination of their contract(s) with the State.

No work will commence by the Contractor without a prior authorization by DNR.

SEC. 3.06 PROPOSED PAYMENT PROCEDURES

The State will make payments based on a negotiated payment schedule. Each billing must consist of an invoice and progress report. No payment will be made until the progress report and invoice has been approved by the project manager. Payments under the contract will either be time and expenses or fixed price, depending on the nature of the work, as specified in the NTP.

SEC. 3.07 CONTRACT PAYMENT

No payment will be made until the contract is approved by the Commissioner of the Department of Natural Resources or the Commissioner's designee. Under no conditions will the State be liable for the payment of any interest charges associated with the cost of the contract. The State is not responsible for and will not pay federal, state, or local taxes. All costs associated with the contract must be stated in U.S. currency.

Any single contract payment of \$1 million or higher must be accepted by the Contractor via Electronic Funds Transfer (EFT).

SEC. 3.08 MANDATORY REPORTING

The Contractor must provide a quarterly usage report to the procurement officer in an electronic format (Excel). The report must contain at least the following information: purchasing entity, description of items and/or services purchased, date of purchase, contract price, retail price, extended contract and retail price, and savings.

These reports are due 30 days after the end of each quarter. The Contractor's failure to provide these reports as required may result in contract default action.

<u>Reporting Period</u>	<u>Due Date</u>
State Fiscal Quarter 1 (Jul 1 - Sept 30):	Oct 31
State Fiscal Quarter 2 (Oct 1 - Dec 31):	Jan 31
State Fiscal Quarter 3 (Jan 1 - Mar 31):	Apr 30
State Fiscal Quarter 4 (Apr 1 - Jun 30):	Jul 31

Any quarter with zero sales must be reported as zero sales. This may be done via email to the procurement officer.

SEC. 3.09 LOCATION OF WORK

The location(s) the work is to be performed, completed and managed is at the Contractor's Office, but there may be some time spent in Anchorage or Fairbanks at DNR's offices. There may also be time spent at remote project sites across Alaska during field inspection or the examination of facilities or core samples, or at other locations to assist DNR in meetings with Applicants, company representatives, or other officials.

The State WILL NOT provide workspace for the Contractor. The Contractor must provide its own workspace.

By signature on their proposal, the offeror certifies that all services provided under this contract by the Contractor and all subcontractors shall be performed in the United States.

If the offeror cannot certify that all work will be performed in the United States, the offeror must contact the procurement officer in writing to request a waiver at least 10 days prior to the deadline for receipt of proposals.

The request must include a detailed description of the portion of work that will be performed outside the United States, where, by whom, and the reason the waiver is necessary.

Failure to comply with these requirements may cause the State to reject the proposal as non-responsive or cancel the contract.

SEC. 3.10 SUBCONTRACTORS

Subcontractors may be used to perform work under this contract. If an offeror intends to use subcontractors, the offeror must identify in the proposal the names of the subcontractors and the portions of the work the subcontractors will perform.

Subcontractor experience **shall** be considered in determining whether the offeror meets the requirements set forth in **SEC. 1.04 PRIOR EXPERIENCE**.

If a proposal with subcontractors is selected, the offeror must provide the following information concerning each prospective subcontractor within five working days from the date of the State's request:

- complete name of the subcontractor;
- complete address of the subcontractor;
- type of work the subcontractor will be performing;
- percentage of work the subcontractor will be providing;
- evidence that the subcontractor holds a valid Alaska business license; and
- a written statement, signed by each proposed subcontractor that clearly verifies that the subcontractor is committed to render the services required by the contract.

An offeror's failure to provide this information, within the time set, may cause the State to consider their proposal non-responsive and reject it. The substitution of one subcontractor for another may be made only at the discretion and prior written approval of the project manager.

Note that if the subcontractor will not be performing work within Alaska, they will not be required to hold an Alaska business license.

SEC. 3.11 JOINT VENTURES

Joint ventures will not be allowed.

SEC. 3.12 RIGHT TO INSPECT PLACE OF BUSINESS

At reasonable times, the State may inspect those areas of the Contractor's place of business that are related to the performance of a contract. If the State makes such an inspection, the Contractor must provide reasonable assistance.

SEC. 3.13 CONTRACT PERSONNEL

Any change of the project team members or subcontractors named in the proposal must be approved, in advance and in writing, by the project manager or procurement officer. Changes that are not approved by the State may be grounds for the State to terminate the contract.

SEC. 3.14 INSPECTION & MODIFICATION - REIMBURSEMENT FOR UNACCEPTABLE DELIVERABLES

The Contractor is responsible for the completion of all work set out in the contract. All work is subject to inspection, evaluation, and approval by the project manager. The State may employ all reasonable means to ensure that the work is progressing and being performed in compliance with the contract. The project manager or procurement officer may instruct the Contractor to make corrections or modifications if needed in order to accomplish the contract's intent. The Contractor will not unreasonably withhold such changes.

Substantial failure of the Contractor to perform the contract may cause the State to terminate the contract. In this event, the State may require the Contractor to reimburse monies paid (based on the identified portion of unacceptable work received) and may seek associated damages.

SEC. 3.15 CONTRACT CHANGES - UNANTICIPATED AMENDMENTS

During the course of this contract, the Contractor may be required to perform additional work. That work will be within the general scope of the initial contract. When additional work is required, the project manager will provide the Contractor a written description of the additional work and request the Contractor to submit a firm time schedule for accomplishing the additional work and a firm price for the additional work. Cost and pricing data must be provided to justify the cost of such amendments per AS 36.30.400.

The Contractor will not commence additional work until the procurement officer has secured any required State approvals necessary for the amendment and issued a written contract amendment, approved by the Commissioner of the Department of Natural Resources or the Commissioner's designee.

SEC. 3.16 NONDISCLOSURE AND CONFIDENTIALITY

The Contractor agrees that all confidential information shall be used only for purposes of providing the deliverables and performing the services specified herein and shall not disseminate or allow dissemination of confidential information except as provided for in this section. The Contractor shall hold as confidential and will use reasonable care (including both facility physical security and electronic security) to prevent unauthorized access by, storage, disclosure, publication, dissemination to and/or use by third parties of, the confidential information. “Reasonable care” means compliance by the Contractor with all applicable federal and state law, including the Social Security Act and HIPAA. In order to determine if a proposal is reasonably susceptible for award, communications by the procurement officer or the Proposal Evaluation Committee (PEC) are permitted with an offeror to clarify uncertainties or eliminate confusion concerning the contents of a proposal. Clarifications may not result in a material or substantive change to the proposal. The evaluation by the procurement officer or the PEC may be adjusted as a result of a clarification under this section.

SEC. 6.03 DISCUSSIONS WITH OFFERORS

The State may conduct discussions with offerors in accordance with AS 36.30.240 and 2 AAC 12.290. The purpose of these discussions will be to ensure full understanding of the requirements of the RFP and proposal. Discussions will be limited to specific sections of the RFP or proposal identified by the procurement officer. Discussions will only be held with offerors who have submitted a proposal deemed reasonably susceptible for award by the procurement officer. Discussions, if held, will be after initial evaluation of proposals by the procurement officer or the PEC. If modifications are made as a result of these discussions they will be put in writing. Following discussions, the procurement officer may set a time for best and final proposal submissions from those offerors with whom discussions were held. Proposals may be reevaluated after receipt of best and final proposal submissions.

If an offeror does not submit a best and final proposal or a notice of withdrawal, the offeror's immediate previous proposal is considered the offeror's best and final proposal.

Negotiations, if held, shall be within the scope of the request for proposals and limited to those items which would not have an effect on the ranking of proposals. If the highest-ranked offeror fails to provide necessary information for negotiations in a timely manner, or fails to negotiate in good faith, the State may terminate negotiations and negotiate with the offeror of the next highest-ranked proposal. If contract negotiations are commenced, they may be held via teleconference.

- the signature of the protester or the protester's representative;
- identification of the contracting agency and the solicitation or contract at issue;

Protests filed by telex or telegram are not acceptable because they do not contain a signature. Fax copies containing a signature are acceptable.

The procurement officer will issue a written response to the protest. The response will set out the procurement officer's decision and contain the basis of the decision within the statutory time limit in AS 36.30.580. A copy of the decision will be furnished to the protester by certified mail, fax or another method that provides evidence of receipt.

All offerors will be notified of any protest. The review of protests, decisions of the procurement officer, appeals, and hearings, will be conducted in accordance with the State Procurement Code (AS 36.30), Article 8 "Legal and Contractual Remedies."

To take advantage of these preferences, a business or individual must be on the appropriate Division of Vocational Rehabilitation list prior to the time designated for receipt of proposals. APPENDIX A

GENERAL PROVISIONS

Article 1. Definitions

- 1.1 In this contract and appendices, "Project Manager" or "Agency Head" or "Procurement Officer" means the person who signs this contract on behalf of the Requesting Agency and includes a successor or authorized representative.
- 1.2 "State Contracting Agency" means the department for which this contract is to be performed and for which the Commissioner or Authorized Designee acted in signing this contract.

Article 2. Inspections and Reports

- 2.1 The department may inspect, in the manner and at reasonable times it considers appropriate, all the Contractor's facilities and activities under this contract.
- 2.2 The Contractor shall make progress and other reports in the manner and at the times the department reasonably requires.

Article 3. Disputes

- 3.1 If the Contractor has a claim arising in connection with the contract that it cannot resolve with the State by mutual agreement, it shall pursue the claim, if at all, in accordance with the provisions of AS 36.30.620 – 632.

Article 4. Equal Employment Opportunity

- 4.1 The Contractor may not discriminate against any employee or applicant for employment because of race, religion, color, national origin, or because of age, disability, sex, marital status, changes in marital status, pregnancy or parenthood when the reasonable demands of the position(s) do not require distinction on the basis of age, disability, sex, marital status, changes in marital status, pregnancy, or parenthood. The Contractor shall take affirmative action to ensure that the applicants are considered for employment and that employees are treated during employment without unlawful regard to their race, color, religion, national origin, ancestry, disability, age, sex, marital status, changes in marital status, pregnancy or parenthood. This action must include, but need not be limited to, the following: employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training including apprenticeship. The Contractor shall post in conspicuous places, available to employees and applicants for employment, notices setting out the provisions of this paragraph.
- 4.2 The Contractor shall state, in all solicitations or advertisements for employees to work on State of Alaska contract jobs, that it is an equal opportunity employer and that all qualified applicants will receive consideration for employment without regard to race, religion, color, national origin, age, disability, sex, marital status, changes in marital status, pregnancy or parenthood.

- 4.3 The Contractor shall send to each labor union or representative of workers with which the Contractor has a collective bargaining agreement or other contract or understanding a notice advising the labor union or workers' compensation representative of the Contractor's commitments under this article and post copies of the notice in conspicuous places available to all employees and applicants for employment.
- 4.4 The Contractor shall include the provisions of this article in every contract and shall require the inclusion of these provisions in every contract entered into by any of its subcontractors, so that those provisions will be binding upon each subcontractor. For the purpose of including those provisions in any contract or subcontract, as required by this contract, "Contractor" and "subcontractor" may be changed to reflect appropriately the name or designation of the parties of the contract or subcontract.
- 4.5 The Contractor shall cooperate fully with State efforts which seek to deal with the problem of unlawful discrimination, and with all other State efforts to guarantee fair employment practices under this contract, and promptly comply with all requests and directions from the State Commission for Human Rights or any of its officers or agents relating to prevention of discriminatory employment practices.
- 4.6 Full cooperation in paragraph 4.5 includes, but is not limited to, being a witness in any proceeding involving questions of unlawful discrimination if that is requested by any official or agency of the State of Alaska; permitting employees of the Contractor to be witnesses or complainants in any proceeding involving questions of unlawful discrimination, if that is requested by any official or agency of the State of Alaska; participating in meetings; submitting periodic reports on the equal employment aspects of present and future employment; assisting inspection of the Contractor's facilities; and promptly complying with all State directives considered essential by any office or agency of the State of Alaska to ensure compliance with all federal and state laws, regulations, and policies pertaining to the prevention of discriminatory employment practices.
- 4.7 Failure to perform under this article constitutes a material breach of contract.

Article 5. Termination

The Project Manager, by written notice, may terminate this contract, in whole or in part, when it is in the best interest of the State. In the absence of a breach of contract by the Contractor, the State is liable only for payment in accordance with the payment provisions of this contract for services rendered before the effective date of termination.

Article 6. No Assignment or Delegation

The Contractor may not assign or delegate this contract, or any part of it, or any right to any of the money to be paid under it, except with the written consent of the Project Manager and the Agency Head.

Article 7. No Additional Work or Material

No claim for additional services, not specifically provided in this contract, performed or furnished by the Contractor, will be allowed, nor may the Contractor do any work or furnish any material not covered by the contract unless the work or material is ordered in writing by the Project Manager and approved by the Agency Head.

Article 8. Independent Contractor

The Contractor and any agents and employees of the Contractor act in an independent capacity and are not officers or employees or agents of the State in the performance of this contract.

Article 9. Payment of Taxes

As a condition of performance of this contract, the Contractor shall pay all federal, state, and local taxes incurred by the Contractor and shall require their payment by any subcontractor or any other persons in the performance of this contract. Satisfactory performance of this paragraph is a condition precedent to payment by the State under this contract.

Article 10. Ownership of Documents

All designs, drawings, specifications, notes, artwork, and other work developed in the performance of this agreement are produced for hire and remain the sole property of the State of Alaska and may be used by the State for any other purpose without additional compensation to the Contractor. The Contractor agrees not to assert any rights and not to establish any claim under the design patent or copyright laws. Nevertheless, if the Contractor does mark such documents with a statement suggesting they are trademarked, copyrighted, or otherwise protected against the State's unencumbered use or distribution, the Contractor agrees that this paragraph supersedes any such statement and renders it void. The Contractor, for a period of three years after final payment under this contract, agrees to furnish and provide access to all retained materials at the request of the Project Manager. Unless otherwise directed by the Project Manager, the Contractor may retain copies of all the materials.

Article 11. Governing Law; Forum Selection

This contract is governed by the laws of the State of Alaska. To the extent not otherwise governed by Article 3 of this Appendix, any claim concerning this contract shall be brought only in the Superior Court of the State of Alaska and not elsewhere.

Article 12. Conflicting Provisions

Unless specifically amended and approved by the Department of Law, the terms of this contract supersede any provisions the Contractor may seek to add. The Contractor may not add additional or different terms to this contract; AS 45.02.207(b)(1). The Contractor specifically acknowledges and agrees that, among other things, provisions in any documents it seeks to append hereto that purport to (1) waive the State of Alaska's sovereign immunity, (2) impose indemnification obligations on the State of Alaska, or (3) limit liability of the Contractor for acts of Contractor negligence, are expressly superseded by this contract and are void.

Article 13. Officials Not to Benefit

Contractor must comply with all applicable federal or state laws regulating ethical conduct of public officers and employees.

Article 14. Covenant Against Contingent Fees:

The Contractor warrants that no person or agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage or contingent fee except employees or agencies maintained by the Contractor for the purpose of securing business. For the breach or violation of this warranty, the State may terminate this contract without liability or in its discretion deduct from the contract price or consideration the full amount of the commission, percentage, brokerage or contingent fee.

Article 15. Compliance:

In the performance of this contract, the Contractor must comply with all applicable federal, state, and borough regulations, codes, and laws, and be liable for all required insurance, licenses, permits and bonds.

Article 16. Force Majeure:

The parties to this contract are not liable for the consequences of any failure to perform, or default in performing, any of their obligations under this Agreement, if that failure or default is caused by any unforeseeable Force Majeure, beyond the control of, and without the fault or negligence of, the respective party. For the purposes of this Agreement, Force Majeure will mean war (whether declared or not); revolution; invasion; insurrection; riot; civil commotion; sabotage; military or usurped power; lightning; explosion; fire; storm; drought; flood; earthquake; epidemic; quarantine; strikes; acts or restraints of governmental authorities affecting the project or directly or indirectly prohibiting or restricting the furnishing or use of materials or labor required; inability to secure materials, machinery, equipment or labor because of priority, allocation or other regulations of any governmental authorities.
