ARTIC-YUKON-KUSKOKWIM (AYK) January 14-18, 2023 Anchorage (35 Proposals) COMMENTS DUE DEC. 30, 2022							
Chatanika Northern Pike (2 proposals)							
63	5 AAC 01.244	Minto Flats pike mgt	Will Samuel	Minto Flats	SUPPORT WITH COMMENTS		YES
					Repeal requirement from the winter subsistence management plan that restricts the summer sport fish bag limit. Reason: The existing regulation from the winter subsistence pike management plan has a "trigger" that affects the summer sport fishery. The concept was for conservation and began when the population of pike was not well known, even in the winter concentration area (s). Subsequent studies have shown a much large total pike population that originally estimated. The Department state that even the larger kown populations is from only a few sites within the availale habitat. The new population estimates remove the need for reducing the summer season bag limit.		
64	5 AAC 01.244	Minto Flats pike mgt	Ben Dobrovlny	Minto Flats	DO NOT SUPPORT. Unmanageable for enforcement.		NO
