

THE STATE
of ALASKA
GOVERNOR MICHAEL J. DUNLEAVY

Department of Fish and Game

BOARDS SUPPORT SECTION
Headquarters Office

1255 West 8th Street
P.O. Box 115526
Juneau, Alaska 99811-5526
Main: 907.465.4100
Fax: 907.465.6094

Dear McGrath Fish & Game Advisory Committee Members,

The McGrath Fish and Game Advisory Committee will meet on Friday, January 27th at 11:00 AM at the McGrath City Office located at 30 Takotna Ave, Mc Grath, AK 99627 and by web/teleconference. This meeting is open to the public.

An air charter has been arranged to pick up Advisory Committee members from Nikolai and Takotna on the morning of January 27th and return later the same day. I have already talked with many of you individually to confirm travel details; if you haven't heard from me the phone numbers I have for you may not be current so please contact me as soon as possible.

Agenda items will include the following:

- Fisheries and Wildlife Updates from ADF&G Staff
- Discussion of Board of Fisheries Proposals
- Discussion of Board of Fisheries Proposals: 140 & others as requested by the committee
- Discussion of Board of Game Proposals: 179, 204, 205, & others as requested by the committee
- Discussion of Dall Sheep population and conservation strategies
- Discuss 2023-2024 Calls for Proposals
- Other fisheries, wildlife, and committee business as needed

A copy of the full agenda, minutes from the previous meeting, and other materials will be posted to this Online Public Notice (<http://notice.alaska.gov/209604>) prior to the start of the meeting. Minutes and audio recordings will be posted to archived meeting notices, which can be found on the McGrath Advisory Committee's website: <https://bit.ly/McGrathAC>.

To join the meeting from a computer or your mobile phone, use the meeting link below or dial in by calling (669) 444-9171 and enter the meeting ID. Alternatively, by providing your phone number to the regional coordinator you may request to be connected to the meeting directly. When joining a meeting by phone, please remember to press *6 to mute/unmute yourself.

Join the meeting online: <https://bit.ly/mcgrathACjan27>

Dial in: (669) 444-9171 OR (888) 475-4499 (Toll Free)

Meeting ID: 864 8685 0102

Passcode: MCGRATH

Please find included in this meeting packet the following:

- Meeting Flyer
- Meeting Agenda
- Board of Fisheries Proposal 140
- Board of Game Proposals 179, 204, & 205
- Draft Minutes from previous meetings: 12/10/2021

A complete book of the 2022-2023 Board of Fisheries Proposals was mailed to you in October. To request printed copies of any other Fish and Game materials, please contact me.

Thank you!

Upcoming Dates and Deadlines:

Board of Game:

March 17-21, 2023 Southcentral Region II Meeting (comments due March 3rd)

May 1, 2023 Submission deadline for 2023-2024 Interior Region Board of Game Proposals

Board of Fisheries:

Feb. 20-25, 2023 Meeting - Alaska Peninsula/Aleutian Island/Chignik Finfish (comments due Feb. 3rd)

March 9, 2023 Meeting- Hatchery Committee (comments due Feb. 22nd)

March 10-13, 2023 Meeting – Statewide Finfish and Supplemental Issues (comments due Feb. 23rd)

McGrath Fish & Game Advisory Committee

MEETING ANNOUNCEMENT

**Friday, January 27th, 2023 at 11:00 AM at the McGrath
City Office and by web/teleconference**

The McGrath Fish and Game Advisory Committee will hold a public meeting on January 27th, 2023 at 11:00 AM at the McGrath City Office located at 30 Takotna Ave, McGrath, AK 99627 and by web/teleconference. Please visit the Online Public Notice for meeting updates, attachments, and additional information: <http://notice.alaska.gov/209604>

Agenda items include:

- Fisheries and Wildlife Updates from ADF&G Staff
- Discuss Dall Sheep population and conservation strategies
- 2023-2024 Calls for Proposals
- Other fisheries, wildlife, and committee business as needed

Join the meeting online:

<https://bit.ly/mcgrathACjan27>

Meeting ID: **864 8685 0102**

Passcode: **MCGRATH**

To join the meeting from your mobile phone, scan the QR code above or dial in by calling **(888) 475-4499 (Toll Free)** and enter the meeting ID.

The McGrath Fish and Game Advisory Committee is a collection of community members from all user groups that come together to discuss fish and wildlife issues and recommend changes to current regulations. They also represent their community before the Board of Fisheries and Board of Game.

Meeting information can be found at <https://bit.ly/McGrathAC>

PROPOSAL 140

5 AAC 09.365. South Unimak and Shumagin Islands June Salmon Management Plan.

Amend the *South Unimak and Shumagin Islands June Salmon Management Plan* to reduce commercial salmon fishing time, as follows:

Repeal the current *South Unimak and Shumagin Islands June Salmon Management Plan* and readopt an amended version of the management plan in place from 2001-2003, as follows:

Erase all of the current 5 AAC 09.365 and replace with the following, edited language from the 2001-2003 plan;

5 AAC 09.365. SOUTH UNIMAK AND SHUMAGIN ISLANDS JUNE SALMON MANAGEMENT PLAN (2001-2003).

(a) The South Unimak and Shumagin Islands June fisheries harvest [BOTH] **chinook salmon**, sockeyesalmon and chum salmon in a mixed stock fishery. These stocks of salmon are bound for Bristol Bay and the Arctic-Yukon-Kuskokwim region, as well as other areas across the North Pacific Ocean. These salmon stocks have historically been intercepted in significant numbers along the Alaska Peninsula. To ensure that none of these salmon stocks are overharvested, it is necessary to restrain the interception of these stocks as provided in the management plan in this section, and consistent with the Policy for the Management of Sustainable Salmon Fisheries (5 AAC 39.222) and Policy for the Management of Mixed Stock Salmon Fisheries (5 AAC 39.220)

(b) The South Unimak fishery takes place in the Unimak District, the Ikatan Bay Section in the Southwestern District, and the Bechevin Bay Section in the Northwestern District, plus the following waters of the Southwestern District located outside of the Ikatan Bay Section and not described as closed waters in 5 AAC 09.350;

(1) waters north and west of a line from Cape Pankof Light to Thin Point (54° 57.32' N. lat., 162° 33.50' W. long.); and

(2) waters enclosed by a line from Thin Point (54° 57.32' N. lat., 162 ° 33.50' W. long.) to the northernmost tip of Stag Point (54° 59.10' N. lat., 162° 18.10' W. long.) on Deer Island to the southernmost tip of Dolgoi Cape (55 ° 03.15' N. lat., 161 ° 44.35' W. long.) on Dolgoi Island and from the northernmost tip of Bluff Point (55° 09.93' N. lat., 161° 53.72' W. long.) on Dolgoi Island to ArchPoint Light (55° 12.30' N. lat., 161 ° 54.30' W. long.).

(c) The Shumagin Islands fishery takes place in the Shumagin Islands Section.

(d) Beginning June 10 **through June 30**, the commissioner may open, by emergency order, commercial fishing periods for purse seine and drift gillnet gear as follows:

(1) commercial fishing periods may occur only from 6:00 a.m. to 10:00 p.m. and may not be open for more than

(A) three days in any seven-day period;

(B) 16 hours per day;

- (C) 48 hours in any seven-day period;
- (D) two consecutive 16-hour fishing periods in any seven-day period;

[(2) THROUGH JUNE 24, COMMERCIAL FISHING PERIODS IN THE SHUMAGIN ISLANDS AND SOUTH UNIMAK FISHERIES WILL OCCUR AT THE SAME TIME;

(3) AFTER JUNE 24, THE PROVISIONS OF (F) APPLY.]

(e) Beginning June 10, the commissioner may open, by emergency order, commercial fishing periods for set gillnet gear in both the South Unimak and Shumagin Islands fisheries as follows:

(1) from June 10 through [JUNE 24] **June 30**,

(A) commercial fishing periods may occur only from 6:00 a.m. to 10:00 p.m.;

[(B) THE FISHERY WILL BE CLOSED FOR ONE PERIOD IF, DURING THE PRECEDING PERIOD, THE RATIO OF SOCKEYE SALMON TO CHUM SALMON IS NOT EQUAL TO OR GREATER THAN THE RECENT 10 YEAR AVERAGE;

(2) AFTER JUNE 24, THE SCHEDULE OF OPENINGS AND CLOSINGS OF FISHING PERIODS SHALL COINCIDE WITH THE SCHEDULE FOR SEINE AND DRIFT GILLNET GEAR AS SPECIFIED IN (F) OF THIS SECTION.

(F) AFTER JUNE 24, IN EITHER THE SOUTH UNIMAK OR SHUMAGIN ISLANDS FISHERIES,

(1) IF THE RATIO OF SOCKEYE SALMON TO CHUM SALMON IS TWO TO ONE OR LESS ON ANY DAY, THE NEXT DAILY FISHING PERIOD FOR SEINE AND DRIFT GILLNET GEAR SHALL BE OF SIX-HOUR DURATION IN THAT FISHERY;

(2) IF THE RATIO OF SOCKEYE SALMON TO CHUM SALMON IS GREATER THAN TWO TO ONE, THE COMMISSIONER MAY EXTEND THE FISHING PERIOD BY EMERGENCY ORDER, TO A MAXIMUM OF 16 HOURS AS DESCRIBED IN (D)(L) OF THIS SECTION;

(3) IF THE RATIO OF SOCKEYE SALMON TO CHUM SALMON IS TWO TO ONE OR LESS FOR TWO CONSECUTIVE FISHING PERIODS, THE FISHERY SHALL CLOSE FOR ALL GEAR TYPES.]

(g) All salmon caught by a CFEC permit holder must be retained, and each CFEC permit holder must report the number of salmon caught, including those taken but not sold, on an ADF&G fish ticket. For the purposes of this subsection, "caught" means brought on board the vessel.

What is the issue you would like the board to address and why? Reduce Excessive harvest of migrating discrete stocks of concern in the Cook Inlet, Bristol Bay, and AYK areas.

2021 saw a decrease of Yukon River summer and fall chum escapement of almost 90%. This was without any directed fishery and no subsistence harvest.

The Yukon River summer chum run averages 2 million fish. In 2021 that number was 152,000. The Yukon River fall chum run average is 998,000 fish. In 2021 that number was 102,000. Two large producers of chum salmon in the Yukon Drainage, the Chena and Salcha Rivers, saw only 22% of average escapement under perfect counting conditions. Alaska did not meet any of its Treaty obligations with Canada. (There is an international treaty with Canada over Yukon River Chinook, summer and fall chum that spawn in Canada.)

This resulted in unprecedented loss of subsistence chum fishing opportunity in the Yukon River.

At the same time, the S. Unimak and Shumagin Islands June 2021 fishery had the highest harvest of chum salmon in the history of the Area M fishery. 1,168,601 chum were harvested in the 2021 June fishery alone.

This indicates that there is a direct correlation between the high harvest of chum in Area M to the loss of chum escapement to the AYK and a total loss of chum subsistence harvest. Reducing the Area M June fishery will allow opportunity to see if chum escapement in the AYK will be able to meet escapement goals and allow for a subsistence harvest.

This is ultimately both a conservation and a subsistence issue.

PROPOSED BY: Fairbanks Advisory Committee Fisheries Sub-Committee (HQ-F22-040)

PROPOSAL 179

5 AAC 85.045(a)(17). Hunting seasons and bag limits for moose.

Reauthorize a winter antlerless moose season during February in a portion of Unit 19D as follows.

Units and Bag Limits	Resident Open Season (Subsistence and General Hunts)	Nonresident Open Season
-----------------------------	---	------------------------------------

(17)

...

Unit 19(D), that portion upstream
of the Selatna River, excluding the
Black River

1 moose, by registration permit
only, a person may not take a cow
accompanied by a calf

Feb 1 – Last day of Feb.

No open season.

...

What is the issue you would like the board to address and why? Antlerless moose hunting seasons must be reauthorized annually. The goal is to provide additional harvest opportunity and meet harvest objectives.

The moose population in Unit 19D East has approximately doubled since predator removals began in 2003. Prior to intensive management, bull-to-cow ratios along the Kuskokwim River drainage were measured at 18 bulls per 100 cows. After predator reductions and a closure of moose hunting in the Bear Control Focus Area (BCFA), ratios improved to 39 bulls per 100 cows by 2007. By 2020 ratios had declined again and the two-year average was 17 bulls per 100 cows.

To maintain a healthy and productive moose population, department research (Boertje et al. 2007) indicates that when the 2-year average twinning rate is 11–20% populations should be stabilized. Twinning rates in Unit 19D East remained high until 2015 (30-40%); however, the current 2-year average twinning rate is now 19%, indicating a lower nutritional status in this population. The current Intensive Management plan for Unit 19D East calls for stabilization of the population through harvest when the 2-year average twinning rate is between 15 and 20%.

Additional harvest opportunity is available. Winter hunts distribute hunter pressure and allow access to areas inaccessible in the fall.

PROPOSED BY: Alaska Department of Fish and Game

(HQ-F22-046)

PROPOSAL 204

5 AAC 85.055. Hunting seasons and bag limits for Dall sheep.

Close resident and nonresident hunting for Dall sheep in Unit 19C, for five years as follows:

Units & Bag Limits	Resident Open Season (Subsistence and General Hunts)	Nonresident Open Season
(4)		
Unit 19(C) RESIDENT HUNTERS: 1 ram with full-curl horn or larger, by youth hunt only; or	<u>No Open Season</u> [AUG. 1 - AUG. 5]	
1 ram with full-curl horn or larger; or	<u>No Open Season</u> [AUG. 10 - SEPT. 5]	
1 sheep with 3/4-curl horn or less; the take of rams with both horns broken, lambs, or ewes with lambs, is prohibited; by registration permit only	<u>No Open Season</u> [OCT 1 – APRIL 30 (Subsistence hunt only)	
NONRESIDENT HUNTERS: 1 ram with full-curl horn or larger, every 4 regulatory years, by youth hunt only; or		<u>No Open Season</u> [AUG. 1 - AUG. 5]
1 ram with full-curl horn or larger, every 4 regulatory years		<u>No Open Season</u> [AUG. 10 - SEPT. 20]
...		

The closure will expire after five years, and the hunts will open for the 2028/2029 regulatory year.

What is the issue you would like the board to address and why? During the November 17, 2022, Board of Game (board) meeting, the board agreed to generate a proposal to close sheep hunting to residents and nonresidents in Unit 19C for five years, to be scheduled for consideration at the March 2023 board meeting.

The impetus for the proposal follows public input at the March 2022 board meeting expressing concern about sheep populations in multiple areas of the state, and recent survey and harvest information provided to the board by the Department of Fish and Game at the October 19, 2022, informational meeting on Dall sheep, indicating a decline in population and harvest. The board expressed interest in hearing more details from the department at the March 2023 meeting upon consideration of the proposal.

PROPOSED BY: Alaska Board of Game

(HQ-F22-BG1)

Note: Proposal 205 was accepted by the Board of Game as an Agenda Change Request for consideration at the Southcentral Region meeting scheduled for March 2023.

PROPOSAL 205

5 AAC 85.045. Hunting seasons and bag limits for moose.

Change the Unit 19C moose hunt for nonresidents from a registration permit to a drawing permit, with up to 20 permits available as follows:

Change the nonresident permit from RM653 for moose (legal bull) to a drawing permit for 20 total nonresident permits. In my 25 plus years of hunting, this area has seen a steady decline in the moose population. For example: Alaskans harvested 54 moose and nonresidents harvested 45 moose in the RM653 hunt area for 2022.

What is the issue you would like the board to address and why? Limit nonresident hunters to increase the bull-to-cow moose ratio for Alaskans.

Limit the number of nonresident moose hunters to 20 for a drawing hunt in the RM653 registration hunt area.

As a long-time Alaskan who depends on moose to sustain my family, the sheer number of nonresident hunters is severely impacting our success. Example: 2022 season, 45 moose killed by nonresidents, 54 moose harvested by residents in the RM653 hunt area.

The bull-to-cow ratio is dropping at a drastic rate. In my 25 plus years hunting the RM653 hunt area, the cow/bull ratio has declined in my observation. The bull-to-cow moose ratio will decline further, and my family will no longer be able to harvest our moose meat in RM653 hunt area, which we have done for over 25 years!

My request is to sustain a healthy bull-to-cow moose ratio for Alaskan families to harvest their winter supply of moose meat.

In 2022, Alaskans killed 54 bull moose in the RM653 hunt area, 45 bull moose were killed by nonresidents in the RM653 hunt area. In my 25 years hunting the RM653 hunt area, the past several seasons, I have seen an obvious decrease in bulls (legal moose) to harvest as a family. Counting on the Board of Game to ensure that Alaskans like myself can ensure our harvest of moose meat in this area.

Been harvesting moose in RM653 hunt area for over 25 years. Myself, and other Alaskans who depend on moose meat for the winter have seen an obvious decline in success due to the sheer numbers of hunters in the area. Limiting the nonresidents would absolutely aid in Alaskans like myself to have a better chance to harvest our moose for the winter

PROPOSED BY: Robert McCaffrey, Lori McCaffrey, Paige McCaffrey, Chad McCaffrey, Chris Diltz, Jerry Diltz, Joey Diltz, Brian Wilson, Grant Sullivan, Ben Eaton, Barb Eaton, Pat Nolde, and Julie Nolde. (HQ-F22-ACR6)

McGrath Advisory Committee
December 10th, 2021
McGrath Native Village Council Community Center

- I. Call to Order: 1:48 PM by Mark Cox
- II. Roll Call:
Members Present: Mark Cox, Andrew Runkle, Ken Deardoff, Jesse Grady, Jimmy Nikolai, Kevin Whitworth, Brett Gibbens (elected to McGrath designated seat 12/10/2021), Steve Nikolai (elected to undesignated seat 12/10/2021)
Members Absent (Excused): Daryl Petruska, Dan Esai
Members Absent (Unexcused): Robert Magnison Jr, Steffen Strick Jr., Steffen Strick Sr.
Number Needed for Quorum on AC: (6)
- III. Fish and Game Staff Present: Josh Peirce, Lincoln Parrett, John Barton, Bob Rebarchik, Sean Larson, Nick Smith
- IV. Guests Present: Jeremy Havener (FWS), Bruce Ervin (TCC) , Doug Carney
- V. Approval of Agenda: approved
Motion by _____ 2nd by _____ [not included in this draft]
- VI. Approval of Previous Meeting Minutes: approved
Motion by _____ 2nd by _____ [not included in this draft]
- VII. Reports:
 - a. Chair's report: Mark Cox will be stepping down from the AC after this meeting, nominated Brett Gibbens to take his place.
 - b. ADF&G [not included in this draft]

Alaska Board of Game Statewide Regulations Meeting Proposals March 4-11, 2022 Fairbanks, AK			
Proposal Number	Proposal Description		
Support, Support as Amended, Oppose, No Action	Number Support	Number Oppose	Comments, Discussion (list Pros and Cons), Amendments to Proposal, Voting Notes
<i>Note: Effective September 2019, when abstentions occur, the action or decision of a majority of the remaining members at a meeting at which a quorum is present is an act of the committee. For example, a vote tally of 7-6-2 means the motion carries. Members abstaining from voting must provide an explanation that is included in the committee record.</i>			
120	Allow proxy hunting for moose		
SUPPORT	8	0	
131	Allow the use of game bird wings and backs to be used for trapping bait		
SUPPORT	8	0	
152	Require all drawing permit hunts available to residents be available for application online		
OPPOSE	0	8	This AC has concerns about increased competition for harvest opportunities in rural communities from non-local hunters if this proposal passes.
163	Count wounded big game animals towards the hunter's bag limit for all units and require additional action in the field from hunters that attempt to take game		
OPPOSE	0	8	The intent is good, but enforcement would be difficult and when enforced this could be the difference between having food on the table or not for subsistence families.
171	Divide Unit 19A into two subunits		
SUPPORT	8	0	Support for the reasons given in the proposal
230	Change definition of full curl ram to "at least seven years of age"		
OPPOSE	0	8	
239	Require all resident registration permit hunts be available for application online		
OPPOSE	0	8	This AC has concerns about increased competition for harvest opportunities in rural communities from non-local hunters if this proposal passes.
245	Eliminate the requirement to salvage rib meat on the bone for moose, caribou, and bison		
OPPOSE	0	8	Its not that difficult to keep rib meat on the bone, if this proposal passes members are concerned about meat spoilage.
247	Discontinue lethal taking of wolves under predation control		
OPPOSE	0	8	Concern about violating intensive management statutes.

Alaska Board of Game Statewide Regulations Meeting Proposals March 4-11, 2022 Fairbanks, AK			
Proposal Number	Proposal Description		
Support, Support as Amended, Oppose, No Action	Number Support	Number Oppose	Comments, Discussion (list Pros and Cons), Amendments to Proposal, Voting Notes
254	Reauthorize a winter any-moose season during February in a portion of Unit 19D as follows:		
SUPPORT	8	0	This hunt provides additional opportunity for subsistence harvest for community members that weren't able to get a moose in the fall.
261	Reauthorize resident grizzly/brown bear tag fee exemptions		
SUPPORT	8	0	
267	Limit or restrict all nonresident sheep hunting in Unit 19C		
OPPOSE Motion to Support as amended (passed 8-0)	0	8	Members don't feel this proposal goes far enough, and instead would like to see a 2 year moratorium on <u>all</u> sheep hunting in Unit 19C, not just a restriction on nonresident sheep hunting. Motion to amend proposal 267 to close sheep hunting to both resident and non-resident hunters in unit 19C for two years, passed unanimously 8-0.
